From the Veicark Daily Adrestica, THE WOODBRIDGE WONDER THE WOODBRIDGE WONDER
The very general interest which this single appears to have excited, gives it a tosaquence, which together with the testiment intelligent, and even professional mentals included us to investigate it, and after tield and accounts which we have been called. steed us to investigate it, and after their est enquiry which we have been enabled give it, we are free to declare our constant that it is a sheer impostuse. Mr. Barat family, however, one and all, and probar many of their neighbours, adhere to their inscrutable physical influence, and that the exercised no sort of voluntary agency in paducing the sounds with which the public as sufficiently familiar. On this point we have no doubt whatever. The art with which is no doubt whatever. The art with which a surl so inexperienced has been able sages, fully to practise upon the credulty flat only one family, but of multitudes who went to be supposed to be a surface of the surface of expressly to discover it, is, however, itelfa marvel, and one which yet needs explanuently

Having ascertained by conversation with number of gentlemen, whose judgment had all times entitled to respect, and among all times thers Drs Craig and Drake of Rahwar, the their closest observation had failed to some the mystery, we called upon Dr. Drate a Monday, in company with Dr. Pennington of this town, and together with Mr. Grea, late Editor of the Advocate, were introduced to the family. Notwithstanding the first rance given that the noise had some barrabefore ceased for the day, and probably would not return until next morning, the girl was requested to run up and down stars, in exercise which it had been alledged smally aggravated the paroxisms, and even some times produced them. Very contrary to it expectation after the assurance given, som after the girl had left the room the thamping commenced, as if for our special access dation! As has been observed by others, to noise evidently accompanied her through the house, and was at times loud enough to crust a question whether a little girl of 14 cml have produced it by stamping with a slipper-After this exhibition she was confined to s small room, and requested to keep moring on a line between the door and window. O every approach to it, the door was violenty shaken, as if with the full force of a manthough the blow itself could not be disti-guished. The window, however, mirrelless

escaped this time, notwithstanding that a the history of the case windows appear to have been specially exposed to the note principle. Failing in these efforts to denote strate the girl's agency, though the fact that the presence of an eye was sufficient to fire pel any faith not strong enough to result ear in pel any faith not strong enough to rearrance and incountains, we proceeded through various At length she was requested, being cilled to take charge of an infant in the namer, is sit in a given position before the door, which

otland of course was closed. In a few minates at thumping returned, frequent and lend at receiver, at the hottom of the illustration of the course at the hottom of the door fally example. elivercrevice at the bottom of the more fully expensions
liences ed to us all, the agency of her feet approximation in grant without inconvenience, through nearly his area.

One of our number opened the door self. suddenly, when the thumping as suddent ceased. —Cornelia, however, stoutly reside the imputation of having any voluntary ages cy in it.

There being no longer the alightest dock in our minds on the subject, the only proper remaining to be solved was how she had a remaining to be solved was how she had on trived to deceive the family, the physician and others who had repeatedly witnessed, it well as listened to the performance and do motive which prompted, it. For it is proper to remark that the statements on this subject to remark that the statements on this subject to remark that the statements of a degree of that desterity and artsenual to the most practical of that dexterity and articipal to the most practical
