SINGULAR AFFAIR.

We are informed by a gentleman who arrived from Hudson last evening, that great exercises and alarm have been caused in a highly respectable family of that city, in consequence of a young lady—a member of the family—baving on the eve of being married to a young mas to whom she had pledged her affections, received letters from a former suitor, threatening her with the most dire and certain revenge if she disp-pointed his hopes by an alliance with any other person. The letters expressed a determination still to pursue them, until he either succeeded the slither still to pursue them, until the critical still to pursue them.

Of the Congressional Globe. THE success of the experiment we have made to furnish a succinct history of the proceedings of Congress, from day to day, with sketches of the Debates, induces the undersigned to persevere in their plan to ex! tend and perfect it. They have resolved that the Congressional Globe shall not only embody the parliamentary annals of the coun-try, but shall also furnish an Appendix, which will contain the finished speeches of the pro-minent speakers, on the most important subjects, written out by the members them-

MILITARY UNIFORMS.—The publisher has employed the assistance of an excellent artist to furnish a regular series of engravings of the different Beautiful Uniforms worn by the principal Volunter Corps of Philadelphia, New York, Boston, Baltimore, and other cites, which will be published periodically, with a particular description of each, furnished by a competent hand. This subject forms a peculiar attraction to the general interest of the work.

GENTLEMEN'S FASHIONS.—A quarterly review is made out by a gentleman connected with a fashionable house in Philadelphia, explanatory of the various improvements and changes which costumes worm in the dress circles constantly undergo by which it will be rendered an easy task for drapers and tailors, at a distance, to suit their customers with the most approved colours and modern style of apparel at the earliest possible period.

MISCELLANY—Although the purposes of our sheet may appear to be confined to the several leading subjects which may have been stated, we deem it proper to say, that there constantly is, in addition to these a considerable space allowed for Miscellaneous matter, such as Tales, Poetry, Anecdotes, Legerdemain, an Epitome of News, Places of Amusement, Statistics, Agriculture, Domestic Economy, Valuable Receipts, &c. Also, a republication of the best and most popular of the old English and American Sporting and National Songs, Set to Music; besides many other matters, regarding which an interest is supposed to exist.

Diff By the above explanation, it will be seen that the Gentleman's Vade Mecun is particularly designed as a companion for the patrons of the Turf, the Drams; Sporting, the Fashions, &c. It is worthy of notice, that it patrons in the course of one year, will be furnished with from forty-five to fifty popular Plays or Farces—the price of which, separately, at one of our well-store of the very constantly and skill in
