FAREWELL ADDRESS OF AN-DREW JACKSON TO THE PEOPLE OF THE UNITED STATES.

FELLOW CITIZENS:

Being about to retire finally from public life, I beg leave to offer you my grateful thanks for the many proofs of kindness and confidence which I have received at your hands. It has been my fortune, in the discharge of public duties, civil and military, frequently to have found myself in difficult and trying situations, where prompt decision and energetic action were no cessary, and where the interest of the country required that high responsibilities should be fearlessly encountered; and it is with the deepest emotions of gratitude that I acknowledge continued and unbroken confidence with which you have sustained me in every trial. My publie life has been a long one, and I cannot hope that it has, at all times, been free from errors. But I have the consolation of knowing that, if mistakes have been committed, they have not seriously injured the country I so anxiously eadeavoured to serve; and, at the moment when I surrender my last public trust, I leave this great people prosperous and happy; in the full enjoy-ment of liberty and peace; and honoured and respected by every nation of the world.

If my humble efforts have, in any degree, contributed to preserve to you these blessings, have been more than rewarded by the honours you have heaped upon me; and, above all, by the generous confidence with which you have supported me in every peril, and with which you have continued to animate and cheer my path to the closing hour of my political life. time has now come, when advanced age and a broken frame warn me to retire from public concerns; but the recollection of the many favours you have bestowed upon me is engraven upon my heart, and I have felt that I could not par from your service without making this public acknowledgment of the gratitude I owe you. And if I is e the occasion to offer to you the counsels of age and experience, you will, 1 trust, receive them with the same indulgent kindness which you have so often extended to ne; and will, at least, see in them an earnest lesire to perpetuate, in this favoured land, the blessings of liberty and equal laws.

We have now fived almost fifty years under the constitution framed by the sages and patriots of the Revolution. The conflicts in which the nations of L trope were engaged during a great ed war against each other; and our intunate commerci I coancxions with every part of the civitized world, rendered it a time of much difficul-ty for the Government of the United States.-We have had our seasons of peace and of war. with all the evils which precede or tellow a state those trials with our constitution yet

in its intancy, and under the disadvantages which a new and untried Government must always feel when it is called upon to pure. It is whole strength, without the lights of experience to guide it, or the weight of precedents to justify shantly through all these difficulties. Our constitution is no longer a doubtful experiment; and, at the end of nearly half a century, we find that it has preserved unimpaired the liberties of the people, secured the rights of property, and that our country has improved and is flourishing beyond any former example in the history of

In our domestic concerns there is every thing to encourage us; and if you are true to yourelves, nothing can impede your march to the highest perat of national prosperity. States which had so long been retarded in their improvement, by the Indian tribes residing in the midst of there, are at length rehaved from the citizens of other States are their political brethren; and this unhappy race—the original dwellers in our land—are now placed in a situation. tion where we may well hope that they will share in the blessings of civilization, and be sava small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe ed from that degradation and destruction to comfort of our own citizens have been greatly promoted by their removal, the philanthropist will rejoice that the remnant of that ill-fated five subscribers where the paper is forwarded to one address. To clubs of two individuals, reach of injury or oppression, and that the pa-ternal care of the General Government will hereafter watch over them and protect them.

If we turn to our relations with foreign powers, we find our condition equally gratifying.

Actuated by the sincere desire to do justice to every nation, and to preserve the blessings of peace, our intercourse with them has been conducted on the part of this Government in the spirit of frankness, and I take pleasure in saying, that it has generally been met in a corresponding temper. Difficulties of old standing have been surmounted by friendly discussion, and the mutual desire to be just; and the claims of our citizens, which had been long withheld, have at length been acknowledged and adjusted, and satisfactory arrangements made for their final pay-ment, and with a limited, and, I trust, as temporary exception, our relations with every foreign power are now of the most friendly character-our

dertakings, tr.s shown the wisdom and teresight of those who formed it; and has proved, that in the union of these States there is a sure foundation for the brightes; hopes of freedom, and for the happiness of the people. At every hazard, and by every sacrifice, this Union must be preserved. The necessity of watching with jealous anxicty for the preservation of the Union, was ear-

neatly pressed upon his fellow-citizens by the Father of his country, in his farewell address. He has there told us, that "while experience shall not have demonstrated its impracticability, there will always be reason to distrust the patriotism of those who, in any quarter, may endearour to weaken its bonds;" and he has cautioned us, in the strongest terms, against the formation of parties, on geographical discriminations, as one of the means which might disturb our union, and to which designing men would he likely to resort.

The lessons contained in this invaluable lega-cy of Washington to his countrymen should be latest generation; and, perhaps, et no period of time could they be more usefully remembered than at the present moment. For when we lock upon the scenes that are passing around us. and dwell upon the pages of his parting address, his paternal counsels would seem to be not merely the offspring of wisdom and foresight, but the voice of prophecy foretelling events and warning us of the evil to come. Forty years was given to his countrymen. The Federal constitution was then regarded by him as an experiment, and he so speaks of it in his adlress; but an experiment upon the success of and we all know that he was prepared to lay down his life, if necessary, to secure to it a full and a fair trial. The trial has been made. It has succeeded beyond the proudest hopes of widely extended nation has felt its blssings, and shared in the general prosperity produced by its adoction. But amid this general prosperity warned us are becoming every day more evi-dent, and the signs of evil are sufficiently apparent to awaken the deepest anxiety in the boforts publicly made to sow the seeds of discord tatween different parts of the United States. graphical distinctions; to excite the south against the north, and the north against the south, and to force into the controversy the most delicate and exciting topics;-topics upon which it is impossible that a large portion of the Union can ever speak without strong emotion. Appeals, too, are constantly made to sectional in-

rests, in order to influence the election of tho Chier mistrate, as if it were desired that he should favour a particular quarter of the country, instead of fulfilling the dries of his station with impartial justice to all; and the possible dissolution of the Union has at length become an ordinary and familiar subject of discussion.— Has the warning voice of Washington been forgotten? or have designs already been formed to sever the Union? Let it not be supposed that I impute to all of those who have taken an active part in these unwise and unprofitable discussions, a want of patriotism or of public virtue. The honourable feeling of State pride, as d local attachments, find a place in the bosoms of the most enlightened and pure. But while such men are conscious of their own integrity and honesty of purpose, they ought never to forget may be in their views, the great body of them are equally honest and upright with themselves. Mutual suspicions and reproaches may in time create mutual hostility, and artful and designing men will always be found, who are ready to foment these fatal divisions, and to inflame natural jealousies of different sections of country. The history of the world is full such examples, and especially the bistory of a

What have you to gain by division and di sension? Delude not yourselves with the bel that a breach once made may be afterwards paired. If the Union is once severed, the line of separation will grow wider and wider arek the controversies which are now debated and settled in the halls of legislation, will then bu tried in fields of battle, and determined by the sword. Neither should you deceive yourselves with the hope, that the first line of separation would be the permanent one, and that no.hing but harmony and concord would be found in the new associations formed upon the dissolution of this Union. Local interests would still be found there; and unchastened ambition. And if the recollection of common dangers, in which the people of these United States stood side by side against the common foe; the memory of victories won by their united valour; the prosperity and happiness they have enjoyed under the precommerce continually expanding, and our flag respects I in every quarter of the world.

These cheering and grateful prospects, and
