From the Richmond Enquirer.
We received last evening the notes of Victo ry. We have secured two firm Republican members of Congress in the place of two Whigs Beirne is elected in the Greenbrier District, although the "Whig" said on Wednesday, that "Logan and Cabell (are) yet to hear from; but impoverished condition, unless our men of capi. Donnally's election is considered certain." Lottal will step forward—will take their money Donnally's election is considered certain." Logan and Cabell, however, have cast the die in Beirne's favour. Stuart, too, has beat Claiborne in the Bedford District. We hall his election done, we must always be pained with the sight Isle of Wight men, we b.lance the account by rished people. the victories of Beirne and Stuart.

MEMBERS OF CONGRESS,

(as far as heard from )

Republican. Whig. Henry A. Wise. Francis E. Rives. George C. Dromgoole, Francis Mallory, Walter Coles. John W. Jones. R. M. T. Hunter. James W. Bouldin, James Garland. Charles F. Mercer. John M. Patton, James M. Mason, Wm. S. Morgan, Robert Craig, Andrew Beirne, Archibald Stuart Isaac S. Pennybacker.

RHODE ISLAND ELECTION. The majority for John Fr. neis Brown fo Governor, is 770. The vote stands thus: Francis,

Peckham, 1946

770 Majority,

CHESAPEAKE AND OHIO CANAL. The Metropolitan speaks thus eloquently upon the subject of the Chesapcake and Ohio Ca-

The Chesapeake and Ohio Canal Company we feel confident in saying, is untiring in its exertion to prosecute the grand work entrusted to its direction. The aid of Maryland has been procured, and we have not the slightest doubt but that the work will be completed to Cumberland in the course of two years; and when it arrives at that immense treasury of nature, who can calculate the benefits that will flow into our hands? Already speculation has been busy in the Alleghany Companies have been formed, of enterprising gentlemen, to whom we wish all success; and we are certain that they will obtain it; and large tracts of coal country have been purchased, in the expectation of the com-pletion of the canal. We have had five samples of the quality of coal already, from these mines; and it will be an auspicious day to ou people, when the trade is regularly opened be tween this and Cumberland, in that and other commodities.

To secure to ourselves the advantages derivable from the accomplishment of the canal, what course should we pursue? Certainly, it will not be wise for us, at this crisis, to commence an

gest, that our men of capital, and surely we have such among us, should, at least, be preparing for the event. We hear no talk of factories, of steam-mills, or water-mills. We see no foundation laying for founderies and forges, no whisper of the receptacles of the commerce comes upon us like thunder from a cloudless sky; but we should be prepared to welcome the deeply laden gondolas, wafted to us, with their rich treights.

If we commence early, it will not only put us in readiness—we will not only be like a well drilled company, prepared for the battle and the triumph, but our vigilant position, our warehouses, our factories, will induce the trade to flow higher. There is no doubt but that it would have a great effect in bringing about that most desir ble end. But if we idle our time a-way—continue to be afreid of shadows that steal up to cur fancies whenever we look over our bank books, and feel the depth of our purses, we may as well give up all hopes. Enterprise is the parent—the proud and mighty parent of eommerce. It is enterprise that sends the har dy boatman from Na tucket into seas whose names he had never heard of-which server him amid the floating icebergs of the Northern Ocean-and stimulates his arm when he hurls the deadly dart into the back of the slumbering whale; and it is enterprise that brings him back loaded with the wealth he has conired in his gallant voyages-and commerce, with her golden horn, awaits him on the bach, and welomes the adventurer with the ample reward of his toil.

It is enterprise that has built spire after spire in New York; that has pulled down streets and which enabled the people of the sharm district? of ab adoning the design of recovering the portor is, placents, like, from the ashes of the ruin; and the same genus will bear the increhant of New York through the darkest hours of his life. And is there no spirit here? Nothing to enter influence of General Santa Ann, has variable to possessed, and there is reason to suppose he undered the people of the sharm district? Influence of General Santa Ann, has variable to possessed, and there is reason to suppose he undered the people of the sharm district? He did not seem of the sharm district? He did not seem of the sharm district. He dim seated himself on the cords, and seemed in the most casy and grace to the cords, and seemed in the most casy and grace to the diminal of the mass daily expected) and in diameter. He dim seated himself on the cords, and seemed in the most casy and grace to the c proaching election. Mr. Wallace is the Wing created palaces in their stead, almost in a night, thing to make our wherves hum with commerce, the independence of the Texans, the next news and cover our vacant lots with manufactories! of any consequence we hear from that quarter peat it for the hundreth time, that possesses su-The U. THE BALLOON ASCENT

THE BALLOON ASCENTA

The has conversed with an intelligent gentleman
just from Texas, who represens the country to
be in a quiet and prosp rous condition—the people entertaining no aeprehension of another
Mexican invasion, and no tear of the result,
should they again be attacked from that quarter.

The National Intelligencer, commenting on
this account, expresses its apprehensions that
both the resolution and the strangen of the arm
ed forces moving against the Texas are under
valued; and adds, afrom information when we
offull the unificated part of the bulloon, leaving
to the purchase of slaves, was found, and removed to the Leveret, which proceeded to a
Portuguese settlement near Mozambique.
The povernor of this place demanded that the
slaver should be given up, which being refused
by Captain Bosanquet, a large battery, under
which the Leveret lay, suddenly opened upon
the same twenty feet so as lo pass the fence of the
calculation.

The day was beautiful, the concourse of
witnesses very great. Finding that he could
not ascend in that quartier.

The National Intelligencer, commenting on
this account, expresses its apparchensions that
to the the resolution and the strangen of the arm
eld forces moving against the Texas are under
valued, and removed to the Leveret, which proceeded to a
Portuguese settlement near Mozambique.

The governor of this place demanded that the
slaver should be given up, which being refused
by Captain Bosanquet, a large battery, under
which the Leveret lay, suddenly opened upon
her, and obliged her to haul down her colours.
Immediate possession was taken by the Portuguese, of the Leveret and Slaver, and the prize
dollars removed to the Leveret, which procued to the scale to fill
the unified to the car, he adde him a seat of
the content of the principles.
