From the Baltimore American. OPENING OF THE BALTIMORE AND

PHILADELPHIA RAIL ROAD. Precisely at the time appointed yesterday morning, the train of cars left the depot of the Baltimore and Port Deposite Rail Road in Pratt where, on board of the steamboat Susquehanna, par nebile fretrum. the Company from Philadelphia and Wilming ton was to be received, and the formal opening of the Baltimore and Philadelphia rail road as ards, her Rodneys and her McLeans. far as Wilmington was to be celebrated. After Stema Poster—Aprilal tion of time and space But we must not lose sight of the all-absorbs some delay at the Depot on the lands of the —cementer of the Union—yet like all great ing object—the noble Pennsylvenia, the worthy ting of three large cars each, some of them vited guests, consisting of the Directors and En-gineers attached to the Baltimore and Ohio, and sets and her fields—yet richer in public spirit Baltimore and Susquehanna Rail Road Compa- to turn all her va ! resources to account. nies, the Presidents and Cashiers of the several morning being overcast, no inconvenience was oclence of a gentle breeze caused the temperature connection begets. of the atmosphere to be most agreeable. After interest that presented itself was the Pile Bridge roads or canals—for the shuttle or the shuttl the richest crops, rising in gentle s'opes, until the horizon was closed by a fine bold outline of hills crested with woods and handsome private hills crested with woods and handsome private residences. Leaving behind them the Gunpow. By Nicholas Biddle, Esq. of Philadelphia.—

der and its lovely scenery, the cars proceeded towards Havre de Grace through a country, for the most hart wooded, but at intervals present well as our lands, are iron-bound together.

complete and jedicious manner possible. The politeness and civility. It seems that a certain constant the most nart wooded, but at intervals present well as our lands, are iron-bound together.

Capt. Newbold, master of a British vessel lying at the toot of Beekman street, had been muleted with the resistless force of an avalanche.

We learn Lya Mexican paper, just received from Vera Cruz, that Senor Don Francisco Pitarro Martinez, long known as the patriotic and officient Mexican Consult at New Orleans, have Orleans, have Orleans, have the Marine Court for some violation of the ting every variety of crops that waved beneath the passing breeze. A little detention was caused by the disarray of the machinery of the engine, by which the second train of cars was engine, by which the second train of cars was drawn, which induced those who had preceded them to fear that zome serious accident might nor on board the steamboat at Havre-de-Grace, have occurred; but fortunately on returning for the occasion of the celebration above mendiate on the occasion of the celebration above mendiate on the occasion of the celebration above mendiate or four days past.

The entry of the Nation's Guest," the good the object of the Diario del Gobierno, of a very recent date. From this it appears evident that the Mexican Government is fully disposed to make a further effort to adjust the differences between the two effort to adjust the differences between the two some distance they met the second train pro-ceeding on its way in safety. For a portion of the route, the rate at which the curs travelled was a mile in two minutes and a half. Having reached Havre de Grace, the party immediately repaired on board the noble steamboat Susque hanna, intended to transport the passengers by this line over the river from which it takes its arrangement of this admirable specimen of natries. val architecture, it is impossible to convey any adequate idea. The main deck is divided into adequate idea. The main deck is divided into gave a toast, highly complimentary to Mr. Max-two splendid apartments, which are connected cy, as the chosen Representative of his country serve not only to adorn the apartments in which who had done honour to their native State.

nections formed with the stem of the main

The view from either end of the boat disclosed the beautiful saloons in which were set Flattered as any one may justly be at being out in the handsomest style six tables calculations considered a citizen of "The Ancient Domited to accommodate two hundred and fifty nion," so illustrious in all periods of its histoguests. Every thing appeared so arranged as ry-I am bound to say, I cannot with justice tion whether there can be found any thing re- serve that I am proud of being the native son of sembling the arrangements on shore, as well as old Massachusetts, the cradle of American Lion board, in point of utility and elegance. A berty, and the adopted and affectionate son of the arrangements throughout reflected the hightrain of cars having arrived on the opposite side | Maryland, the worthy sister of both." of the river a little previously, the party from Baltimore immediately left the Harford Shore, the music playing the spirited air of eSettin on a rail," and repaired to meet their Eastern friends. On reaching the Cecil shore three cheers were given by the party from Wiled of the President and Directors of the "Wil- It was an animating, a majestic sight. The ri-Jerge number of distinguished individuals among whom may be mentioned Governor Contegys, of D laware, Nicholas Biddle, Esq. and V. Maxey, Esq. our Charge de Affines to Bel. gium. After the two parties had joined, the boat proceeded up the river when the Sun, seene, had its occupants. Wherever we turned boat proceeded up the river when the Sun, and every variety of water pronouncing forth praises upon those who had contributed to so successful a termination of the long anticipated and never to be forgotten grantly and they were fastened in the cow-house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow for the homestead, and they were fastened in the cow-house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow for the homestead, and they were fastened in the cow-house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow for the homestead, and they were fastened in the cow-house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companied the cow house, when Indeed, too much credit cannot be accorded all who exercised a controlling influence in the companies. boat proceeded up the river when the Sun, seene, man as occupants, which now shone in all its lustre, imparted the our eye, masses of human beings presented arrangements.

On entering the building the gur proceeded arrangements to the far end, to milk the cow fastened there, and the loose bull advanced with his usual family. then pristed its course towards the bay along the omineas chek of the frammer is neard—ethe shores of Spesa in I land. At about three very eye is rived to a common centre—every o'clock the company sat down to a dinner, which we have never seen surpassed for abunnow, after a delay, during which minutes seem dance, elegance, variety, or excellence of pre- ed hours, and hours days, the signal guns arparation, and whilst discussing the ment of the heard—a general move is made among the mass meats and fruits, to which peculiar zest was —the breath is held—not a world is spoken imparted by the generous juice of the grepe, rethe flig at the stern flutters—she moves! she
