To those of our frieads who are practical printers, it need not be mentioned that this undertaking has involved serious mechanical difficulties. The largest tresses in Philadelphia is used for our ordinary impression—but this would accommodate only a single

A fity cent American reprint will be furnished such as the property of the largest presses in Philadelphia is used for our ordinary impression—but this would accommodate only a single but this would accommodate only a single page of the mammoth sheet, and we were obliged, therefore, to work four forms at different periods. The care used in preparing the paper—in removing and folding the sheets, &c., can only be estimated by those who have seen the experiment made; and, added to the necessarily increased amount of composition, press work, &c., these supplementary expenses have made an aggregate cost, which would have deterred many from engaging in the enterprize. A gain of two thousand new subscribers will not repay the actual cost of this single number: We flatter ourselves that, besides its ex-

raordinary size, this number presents at tractions that entitle it to some attentioning for 1837, the London copy of which costs 84, and has 384 closely printed pages of let-ter press. Distinguished as the present age, and particularly our own country, has been for cheat reprints, we believe this surpasses any former instance. For four cents subscripers to the Saturday News receive. in addition to their ordinary supply of miscellane-ous matter, an English annual, the largest yet received for the coming season; and they

receive it, more per, in a form that, from its novelty, gives it additional value.

Of the general character of the Saturday News we need not speak. That has now beome so well known as to require no com ment. We may take occasion to say, however, that in enterprize and resources we vield to no other publishers in this city of dsewhere, and we are determined that ou paper shall not be surpassed. tered the field prepared for zealous competi tion, and we stand ready in every way to rea-lize our promise, that no similar publication shall excel that which we is-ue. TERARY ENTERPRISE!! OVELS, TALES, BIOGRAPHY, VOTACES, THA VELS, REVIEWS, AND THE NEWS OF THE "DAY

IT was one of the great objects of "Waldie's Literary," "to make good reading
cneaper, and to bring literature to every
man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the seclu ded, occupation to the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than four centra week, and to add as a piquant seasoning to the dish a few columns of shorter literary matters, and a sammary of the news and events of the day. We know by experience and calculation that we can go still further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves. The Select Circulating Library, nowas e-

ver so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price and form will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on scry superior paper, also filled with books of the newest and most entertaining, though in their several departments of Novels. Tales, Voyages Travels, &c., select in their character, joined with reading such as usually should fill a weekly newspaper. By this method we hope to accomplish a great good; to entiren and enlighten the family circle, and to give to it, at an expense which shall be no considera-tion to any, a mass of reading that in book form would alarm the pockets of the pracent, and to do it in a manner that the most sceptical shall acknowledge "the power of con-centration can no farther go." No book which appears in Waldie's Quarto Library will be published in the Omnibus, which will be an entirely distinct periodical.
