THE AFFAIR AT ALTON. The following is the official account given by the Mayor of the recent affair at Alton: MAYOR'S OFFICE,

In order that the public mind may be correct; ly informed of the lamentable and fatal tragedy that was enacted in our city on the night of the ttle east of the meridian 7th inst., and with a view of preventing and v seconds afterwards it correcting distorted statements of the proceedings of the mob, and those persons against whom the attack was directed, I deem it incumbent on me and proper, that I should present in my ofsing out of Virginia, into ficial capacity, a plain statement of all the facts ares the earth, at a point connected with the unhappy excitement that has so long agitated the peace and tranquillity of the cuitens of Alton. Without recurring rth; having traversed a to the causes or results of the previous excite-ack, of 5000 miles in ments in reference to the Alton Observer" press and its final destruction, I shall confine ny statement to the last, and most melancholy occurrence, which has betallen our city.

For several days past it had been announced and generally believed, that a printing press was nourly expected to be landed at our wharf. It had also been the comment runour, that this press had also been the correct rumour, that this press was intended for the re establishment of the Alton Observer." The circulation of these rumours produced no small degree of excitement among those who had taken a decided stand against the abolition sentiments that were understood to have been disseminated through the columns of the Observer. The wind blew from the westward during the night, and in the morning the bay and harbour presented a dismal sight—most of the vessels having been torn from their moorings, and lying on the shore, many of them dismasted and other

Towards 8 o'clock yesterday morning the wind moderated, the rain ceased, and the son shone out for a short time; but by 9 o'clock the wind recred suddenly to the north-west, and began to blow, accompanied by rain, as during the previous night, and as destructive to the ver sels in port, for about noon, when this storm a lated, there was nothing to be seen affont, but the brig Sophia and a small schooner, the Sarah Ann-the shore strewed with the wrecks of
