GUBERNATORIAL CONVENTION. TO WILLIAM GRASON, ESQ.

Queen-Anne's County, Maryland. BALTIMORE, May 31st, 1839. Dear Sir-The Democratic Republican Conention for the nomination of a candidate for the office of Governor of this State, have designated you as their candidate for that distinguished station; and have constituted us a comnittee to address you a letter apprising you of the nomination. In discharging this duty, it gives us pleasure to say, that the Convention vas numerously attended; that your nomination, in a committee consisting of one member from each county and city, was unanimous, and was received and adopted with such cheering unanimity, as will, we hope, successfully appeal to your devotion to the public will.

In tendering this nomination, we add our lest vishes for your success, and unfeigned confilence in your devotion to the laws, institutions and welfare of our beloved State.

We are, with great respect, Your fellow citizens, TOBIAS E. STANSBURY, Pres. of Con.

WILLIAM JACKSON,

JOHN D. BROOKE, SAMUEL DICKINSON,

Vice Presidents.

JUNE 8. 1833. Dear Sir-I have received the letter of the Committee, of which you are the Chairman, in-torming me that the Democratic Republican Convention lately held in the city of Baltimore, had nominated me as a candidate for the office of Governor of the State. The confidence thus reposed in me by my fellow citizens, is the more gratifying, because I have never, at any period of my life, applied for an office, or pretended to any claim to political distinction, or attempt-Stu- ed to interfere with meetings, or individuals, for the purpose of procuring my own nomina-tion. Selected under such circumstances, by the undivided vote of the Convention, it gives me pleasure to comply with their wishes; and whether elected or not, I shall always reflect with pride upor this evidence of their approba-

I am much obliged to you and the committee, for the friendly sentiments contained in your letter, and for the confidence expressed in my attachment to the laws, the institutions and the welfare of the State. The professions and pledges of a candidate are entitled to but little weight; his past conduct being the only security, which can be relied upon, for the correctness of his subsequent course. The part I have taken in public affairs has been of too little consequence to be generally known; but I cheerubmit it to the investigation of the people-

I am, very respectfully, Your obedient servant WM. GRASON. To General Tobias E. STANSBURY.

THE BORDER TROUBLES.

The New York papers are filled with accounts from the truntier, all indicating a considerable degree of excitement on account of the destruction of the Six Robert Peel on the one reral officers of the army, and left immediately for Upper Canada. The Herald says, "His Ex- cannot, with safety, be much longer withheld. ellency will inspect Fort Henry, and give the ecessary orders for erecting fortifications along the frontier, in case of a general war, now ning more probable every day." The Earl of Durham has issued a proclama.

ion offering a reward of a thousand pounds for the apprehension of any individuals connected with the recent outrage on the Sir Robert Peel and exhorts her majesty's subjects, "notwithstanding the aggravated provocation they have received, carefully to abstain from any act of retaliation, which may expose them to the imoutation of a disregard of their own honour, by violation of the internal rights of adjoining power." Sir George Arthur has also issued a roelamation of a similar character, but conining less conciliatory language. He charges he outrage upon citizens of the United States, and insists that redress should be immediately lemanded of our government. The 85th reiment, and the three remaining companies of be 54th, together with the detachment just arnved to join that regiment, received orders for l'pper Canada. The Coldstream Guards were

spected to set off framediately.

From the Albany Argus.

The circumstances of the attack upon the r Robert Peel and that upon the Telegraph, he could not come back. o far as they implicate the people and govern-ment of either country, presents the following ontrast: The former was the act chiefly of reagee Canadians, was carried out at midnight, chief. The Telegraph let go the ves a distant Island, beyond the intervention and without the knowledge of the American citizens and authorities, and every effort for the arrest and punishment of the offenders was imrediately put forth by the officers of the goernment, state and national, and by the citiens of the frontier. The latter was an assault on an American steamboat, within pistol sho the public whari of a populous town, and as made by the armed militia of the place .is due to the citizens of Brockville to add, tan express followed the Telegraph with explanation, and that the persons by whom e guns were fired had been arrested.

Governor Marcy has offered large rewards the apprehension of the persons who made on had been arrested.

A gentleman who arrived on Wednesday from Northern frontier, informs the editors of the urnal of Commerce, that two field-pieces have en stolen lately from Niagara Falls village, and it was reported that two or three had been selen troin Lockport. Nothing farther was nown concerning them.

Numerous Canadian refugees are scattered dong the lines, awaiting the movement of the waters, and determined to disturb them if no. ody else does. They decline making any enagements to work, except by the day.

The emigration from Upper Canada to the

mited States is very considerable.

From the Rochester Daily Advertiser. The United States, which arrived in port yesrday morning, brought nothing new from belonday. The excitement was measurably alyed on our side, but how it was on the other as not learned, as the United States made no Canadian port on her way up. While passing Brockville, a white flag was displayed inviting er approach, but it was unheeded, owing to inons from the proprietors. If no repetiion of outrages is made for a short time, the dercourse between the countries will be reobstacles can long suspend it.

Violation of Neutrality .- Wells and Blynn, and their trial.

From the Montreal Herald of Tuesday. A gentleman who arrived yesterday from To-tonto informs us that Theller, Sutherland, and w more convicts, who are to be transported New South Wales for life, were brought own to Kingston, and are to be despatched for is city via the Rideau Canal, after which they till be lodged in Cape Diamond at Quebec, till t on board a transport ship. They will be blowed by all the American prisoners.

MORE PRONTIER TROUBLE.

The Rochester papers of the 4th, inst., bring rmation of a strange affair at Brockville pper Canada. The steamboat Telegraph, bile leaving the whatf at that place on Friday ight, was fired into by the militia stationed at rockville, and although nobody was hurt, seeral balls left traces of their progress.

The following particulars are from the Ro-

hester Daily Advertiser. Captain Childs, of the steamboat Telegraph, tates that on putting into Brockville, or rather shile there, he was about 10 o'clock on Friday fired into by the Queen's militia, stationed were fired, four of which we know to have the 17th, with despatches to Amherstburgh, on his return last Sanday morning in the steady the ladies' cabin, near the centre, barely missing mer Geal. The officer commanding the guard at Brock ville attempts an excuse by saying that the men had misapprehended his orders, which were t fire two muskets into the air as a signal, provided any suspicious boat should approach. degree of suspicion that justly attaches to the Telegraph, may be learned from the fact, that her bell was sounded twice, as is customary at

that place. Col. Bonnycastle, in command of the Queen's roops at Kingston, stated to Capt. Childs, that he must be expected to be fired into so long as we acted as at present, adding' by way of taunt, that the next outrage from our side would be the signal for him to cross the line in a hostile attitud - that the Canadas could take the state without aid from England.

The tidings of this affair had reached Mou real on Tuesday, the papers giving a somewhat lifferent version. We ann x that of the Mon treal Counter:

We are further informed, that the c ptain he volunteer company at Brockville followed the Telegraph in the Kingston, and explained the whole circumstance to the captain, from whom he learned that no harm was done. It is added, that the affair has not created any con siderable excitement on the American side, and that the two men had been arrested.

DISGRACEFUL ATTACK UPON BRITISH OFFICERS. It would seem to be the settled purpose

some misguided people on our trontier to involve the nation in trouble with Great Britain.— The following account of a disgraceful attack upon some British officers at Detroit is taken from the Sandwich Herald.

Colonel Hill, Capt. Sparke and Lieut. Ro binson, of the Quebec's Light Infantry, in full uniform, accompanied by Dr. Dewson, Surgeon of the Regiment, in plain clothes, went over to Detroit about noon on Friday, and whilst walk ing through the streets, were assailed by the cry of "Tory," Tory," from individuals, and also by disgusting and abusive language, and were thrice pelted with stones, eggs, and mud, of which they took not the slightest notice.

On their arrival at the wharf, they found that the ferry boat had just left, and they accordingly had to await its return, and therefore took another stroll through the street. On their re turn a second time to the wharf, Capt. Sperke was twice pelted with eggs, which broke on ho back; and on his turning to cross the street where Colonel Hill and Lieut. Robinson were standing in a store at the corner, of the steet, opposite, to the ferry wharf, a man pushed purposely against him, and struck his sword, which this city, to all persons owning lots in front the man construed into an affront from Capt. ficers, and used most disgusting, insulting and charged with violating our neutrality on Hick-brutal language, evidently with the view of proory Island last winter, have gone to Auburn to voking them to draw their swords, which, had they done, there is not the slightest doubt they

ould all have been murdered. The officers behaved with the greatest forbearance, and, at Captain Hill's request, went quietly on board the ferry boat; but, in turning to do so, Captain Sparke was kicked by the cowardly rascal who first pushed against him; several eggs were also thrown at the officers when on board of the boat, one of which passed close to the head of Miss Mason, sister to the Governor, who, with other ladies, and Captain Rowland, of the Brady Guards, came on board the boat as she pushing off Only one individu d, a respectable looking person; standing it the store with the officers, attempted to interfere in their behalf, and repudiated the conduct of his fellow citizens. He having seen the man wantonly push against Captain S. expressed his

opinion to that effect. Captain Grant, late of the royal cavalry of Sandwich, was present at the affray, and exer-ted himself very handsomely in favour of the officers, and openly expressed his indignation at
