MISCELLANEOUS:

A SERMON. DELIVERED TO A SELECT CONGREGATION

LINOIS, APRIL, 1838.

THE DEER LICK. My text is selected from that portion of the prairie called the Deer Lick; and my design

1. To explain the text.

2. To state and illustrate the doctrine; and, 3. To make a practical application.

1. I am to explain the text.

A lick is a selt spring: so called from the cir cumstance that the earth about it is so impregnated with saline particles as to be licked by the deer, the bison, and other animals. These licks abound on the waters, of Kanhawa in Virginia, the Muskingum in Ohio, near Shawneetown in Illinois, on the Licking in Kentucky, and generally in the Western States. Who has stopped to quaff a tumbler of the Blue Lick water will ever forget its taste or its smell! Bless -if all the delictous things in a drug shop -assafætida and easter oil, epsom salts an hubarh, were beaten together in a vast mortar, T was one of the great objects of "Waldie's Literary," "to make good reading eneaper, and to bring literature to every man's door." That object has been accomthey would make a composition nothing like

A lick is also any place without salt, visited by unimals for the sake of gratifying their taste. icks of this description are numerous in the West; and though they abhor water as nature does a vacuum, there are many of them on our

They may be known by certain infallible

Another is that these licks usually have ac-

commodations neither for man nor beast, both of which they are required to keep by law. Another is, that those which lick there, often

get licked themselves.

2. I am to state and illustrate the doctrine. The doctrine of the text is, with a little change in the orthography, that the lick is dear.

It is dear, whether we consider its cost or its Look at the cost. He who licks at the rate or 12 cents a day, licks away 43 dollars and 80 cents in a year; which in twenty years, without interest, amounts to the round sum of \$76 dol-

lars! Enough to build a comfortable house, buy a good farm, or educate a son at college.

He who licks at the rate of one pint a day swallows 40 gallons a year, and in 20 years 920 gallons, or 28 barrels and 24 gallons. And this, at one dollar a gallon. would purchase 726 acres of Congress land!

To lick so mu'h costs time-at least one hour in a duy-365 hours in a year; about one whole year in twenty. And who can afford to part with so much time, without a compensation of some 4 or 500 dollars!

But the cost of licking is nothing compared it leads to insanity. I have seen the animals

which lick there raving mad. Of 495 patients in one insane hospital. 267 were known to have brought on their derangement in this way.

It leads to crime. Almost all the crimina.

cases which come before our courts are occaioned in the same way.

It leads to disease and premature death. So

every intelligent physician will testify who has not been poisoned at the lick. This is the tes-timony of 75 physicians in Boston, of 45 in Cin-2d. Literary Reviews, Tales, Sketches, notices of books, and information from "the world of letters," of every description.

It leads to wretchedness. There is no fiction here. Look into the family whose head is in the habit of frequenting the lick, and if you find wretchedness any where upon earth, you find it there: - wretchedness alive, and no mistake.

It leads to ruin. temporal and eternal. What is one of those animals, which staggers and vomits about the lick, good for! Neither for the land, nor for the dung-hill. Neither for this reals are for the staggers. world, nor for the next. He is not fit to wallow even with the decent swine. When the mule has served his generation faithfully in pulling a dray, and can stand on all fours no longer, his hide is of some value; but not so with the animals ruined at the lick. Both living and As the arrangements for the prosecution of this great literary undertaking are all made, and the proprietor has redeemed all his dead they are a curse to themselves and

Thus whether we consider the cost, or the consequences of licking, it is extremely dear.

3. The application.

I take it for granted that none of my hearers are in the habit of frequenting the lick, yet there are those who do, and to such you have a duty

Tell the mechanic, that if he would save his cash, his character, his health, and his happiness of the would have a good house to cover his some twenty miles from the centre of devastagray hairs; a good wife whose heart will beat in unison with his ownered good children to rock of Annity have been seriously wounded by the cash, his character, his health, and his happines

ANECDOTE OF JOHN ROGERS. The following pleasant anecdote, illustrative of God's holy care over his faithful servants, is taken from an English publication. There is o doubt of its nuthenticity.

The Rev. John Rogers, and several of his hearers, were once summoned to appear before Sir Richard Craddock, a justice of the peace, or worshipping God according to the dictates of their conscience. While they were waiting in the great hall, expecting to be called upon, little girl, six or seven years of age, who was Sir Richard's grand daughter, happened to come into the hall; she looked at Mr. Rogers, and was much taken with his venerable appearance.— Being naturally fond of children, he took her upon his knee, caressed her, and gave her some sweetmeats. The child being a particular fa-vorite of her grandfather, had acquired so great an ascendancy over him that he could deny her nothing, and possessing too violent a spirit to bear contradiction, she was indolged in every thing she wanted. At one time, when she had been contradicted, she run a pen-knife into her arm, to the great danger of her life.

This ungovernable spirit was in the present

instance overruled for good. While sitting upon Mr. Rogers' kuee, enting

the sweetnests, she looked earnestly at him, and asked, "what are you here for sur?" "I believe your grandfather is going to send me and my friends to jail." Upon this she ran up to the chamber where Sir Richard was, and knocking with her head and heels till sh she said to him. "What are you oing to do with my good old gentleman in the hall?" "That's nothing to you," said he: "get about your business." "But I won't," said she: the tells me that you are going to send him and his friends to jail, and if you do send them, I'll drown myself in the pond as soon as they are

gone: I will indeed."
When he saw the child thus peremptory, it shook his resolution, and induced him to abandon his design. Taking the mittimus in his hand he went down into the hall, and thus addressed these good men: "I had here made out your mittimus to send you all to jail, as you deserve, but at my grandchild's request I drop the prosecution and set you all at liberty." They all bowed and thanked his worship. But Mr. Rogers, going to the child, laid his hand upon her head, and litting up his eyes to heaven, said, "God bless you, my dear child! May the blessing of that God whose cause you have now pleaded, though you know him not, be upon you in life, at death, and to all eternity!" 'The prayer of the good old man was heard, and many years after was graciously answered in her con-

An additional fact may increase the interest of this anecdote. A son of Dr. Rogers, who was, years after this, participating the politeness and hospitality of a pious lady, related at dinner the above incidents of his father, for the entertainment of the company. When he was through, the lady said, "Are you the son of that Dr. Rogers?" He answered yes. She replied, "I am that little girl."

A report has just reached usand which may be relied on-that on yesterday and which may be relied on—that on yesterday afternoon a tornado passed over the town of Amnity in the adjoining county of Allegany, prostrating every thing in its course, as well "the habitations of all things that dwell," as the crops of the husbandman, and the forest of a usand years. Boards, trees and household stuff, were carried into this county, and I am informed by a creditable person that a board with shingles on it, evidently from the roof of some house, and a part of a bed sack, were found in the town of Couribo in this county, some twenty miles from the centre of devasta-tion. MISS SULLY AND QUEEN VICTORIA. Our countryman Sully has been painting the likeness of the Queen. In one of the last sittings it became desirable to observe the lady in her royal garb, but to save the Queen trouble, leave was obtained for Sully's daughter to sit in her stead attired in the Queen's robes.

When things were going on fair, her majesty sent in to know if Miss S, would like to see her, and immediately walked in, looking at the mock majesty "most amazing funny," and in all hings behaving to a charm as a queen should. Miss Sully too played her part to admiration, nothing daunted. Victoria, like a good hearted girl, gave Miss Sully a miniature likeness of herself.—Cincinnati Guzette.

A fly entered the ear of a harvest hand while at work in a field in Miami county, and altho the insect was soon extracted, the ear continued painful for several days. The person called upoff a physician, who on examination, found the fly had left some of her progeny in his ear, which were grown to medium size, from ‡ to \$ inch. The physician succeeded in disloging 25, which proved to be all that were in the ear. Ohio State Journal.

LIBERALITY.

Gen. Simon Perkins, of Warren, Ohio, and his sister, Mrs Kinsman, have each contributed five thousand dollars to endow a professorship of chemistry, mineralogy, and geology, in the Ohio Western Reserve College. A most libe-ral gift, and one which the denors may rememlogy, in the ber with pride as long as they live.

THE MORMONS.

It is stated in the Canton, Ohio, Repository, that this people, to the number of about 200, wagons, filled with furniture, cattle, with 57 v &c. have left Geauga county, on their way to the "promised land" in Missouri. They pitch their tents in the open field at night, after the manner of the ancient Israelites.

A MYSTERIOUS MURDER.

We are informed by the New York Express of yesterday, that on Tuesday morning about 3 o'clock, just after the discharge of the watch, an unknown man was seen to pass down Rosevelt street, in that city, to the wherf, at the junction of Front street, where a number of persons shortly collected, and a quarrel ensued in which the man above named was knocked down, and the other party ran off. The person who had seen the transaction hastened to the spot, where he found the man quite dead, and his blood and brains strewed around in every direction. He instantly started for the police, but before his return the body had been carried off, the hat and coat remaining. Another individual stated that he saw the body carried up Roosevelt street. As yet the police can find no trace of the murdered man or his murderers.
