A NEW AND CHEAP PERIODICAL

Attention is requested from our readers to

the following prospectus of a new, and even a cheaper book periodical, which will be is-sued from this office in the first week of next

January. It will not be in so convenient a form for binding as the present, with which

it will in no way interfere, but it will make

bocks cheap beyond all precedent. It will contain the works of the day, which are much

sought after, but are comparatively dear, and

which cannot penetrate the interior in any mode half so rapidly as by mail, in which

volumes of books are prohibited. A fifty cent American repaint will be furnished en

who have seen the experiment made; and added to the necessarily increased amount of composition, press work, &c., these supple-

actual cost of this single number.

MISCELLANEOUS.

DELIVERED TO A SELECT CONGREGATION IN IL

LINOIS, APRIL, 1839.

THE DEER LICK. My text is selected from that portion of the prairie called the Deer Lick; and my design

1. To explain the text.

2. To state and illustrate the doctrine; and, 3. To make a practical application. 1. I am to explain the text.

A lick is a salt spring: so called from the cirnated with saline particles as to be licked by the deer, the bison, and other animals. These licks abound on the waters, of Kanhawa in Virginia, the Muskingum in Ohio, near Shawneeand generally in the Western States. Who that has travelled from Maysville to Lexington. has stopped to quaff a tumbler of the Blue Lick unappropriated money in the treasity.

Sec. 3. And be it established and ordain ed by the authority aforesaid, That it shall the fire duty of each and every proprietor of all the fronting on that portion of said street directed to be curbed by the provisions of this by-law, to cause the footway so far as the same shall bind on his, her or their lot, the same shall bind on his, her or their lot, the same for the space of thrity lays after being notified by the said Commissioners, or a majority of them, shall forfeit and pry the sum of Twenty Dollars for week thereafter that the same of Twenty Dollars for week thereafter that the same of Twenty Dollars for the same of the same of Twenty Dollars for the same of the same water will ever forget its taste or its smell! Bless -assafætida and castor oil, epsom salts an rhubarb, were beaten together in a vast mortar, they would make a composition nothing like

by animals for the sake of gratifying their taste. West: and though they abhor water as nature does a vacuum, there are many of them on our principal water courses. They may be known by certain infallible

One is that the animals visiting them are of

one kind only, and that peculiar. They have two legs, and yet have neither wings nor Another is, that these animals are inclined to

be both noisy and filthy,—noisy as the moon-eyed bird of the forest, and fætid as an African Another is, that beaten paths usually lead to

Another is that these licks usually have accommodations neither for man nor beast, both of

which they are required to keep by law. Another is, that those which lick there, often

get licked themselves.

2. I am to state and illustrate the doctrine for binding and preservation, and its price and form will remain the same But we shall, in the first week of January 1837, issue a huge, sheet of the size of the largest The doctrine of the text is, with a little change in the orthography, that the lick is dear.

It is dear, whether we consider its cost or its newspapers of America, but on very superior paper, also filled with books of the newest Look at the cost. He who licks at the rate or 12 cents a day, licks away 43 dollars and 80 cents in a year; which in twenty years, without interest, amounts to the round su

lars! Enough to build a comfortable house, buy a good farm, or educate a son at college.

He who licks at the rate of one pint a day swallows 46 gallons a year, and in 20 years 920 gallons, or 28 barrels and 24 gallons. And this, at one dollar a gallon. would purchase 726 acres of Congress land!

To lick so much costs time-at least one hour in a day-365 hours in a year; about one whole year in twenty. And who can afford to part with so much time, without a compensation of some 4 or 500 dollars!

But the cost of licking is nothing compared

with the consequences.

It leads to insanity. I have seen the animals which lick there raving mad. Of 495 patients in one insane hospital. 267 were known to have brought on their derangement in this way. It leads to crime. Almost all the criminal

cases which come before our courts are occasioned in the same way.

It leads to disease and premature death. So

every intelligent physician will testify who has not been poisoned at the lick. This is the testimony of 75 physicians in Boston, of 45 in Cinthe great body of physicians throughout the United States.

It leads to urcichedness. There is no fiction here. Look into the family whose head is in the habit of frequenting the lick, and if you find wretchedness any where upon earth, you find it there:-uretchedness alive, and no mistake.

It leads to ruin. temporal and eternal. What

ANECDOTE OF JOHN ROGERS. The following pleasant anecdote, illustrative of God's holy care over his faithful servants, is taken from an English publication. There is no doubt of its nuthenticity.

The Rev. John Rogers, and several of his hearers, were once summoned to appear before Sir Richard Craddock, a justice of the peace, for worshipping God according to the dictates of their conscience. While they were waiting in the great hall, expecting to be colled upon, a little girl, six or seven years of age, who was Sir Richard's grand daughter, happened to come into the hall; she looked at Mr. Rogers, and was much taken with his venerable appearance.-Being naturally fond of children, he took her upon his knee, caressed her, and gave her some sweetmeats. The child being a particular fa-vorite of her grandfather, had acquired so great an ascendancy over him that he could deny her othing, and possessing too violent a spirit to bear contradiction, she was indulged in every thing she wanted. At one time, when she had been contradicted, she run a pen-knife into her arm, to the great danger of her life.

This ungovernable spirit was in the present instance overruled for good.

While sitting upon Mr. Rogers' knee, eating the sweetmeats, she looked earnestly at him and asked, "what are you here for. err?" lieve your grandfather is going to send me and my friends to jail." Upon this she ran up to the chamber where Sir Richard was, knocking with her head and heels till she got in, she said to him. "What are you going to do with my good old gentleman in the hall?" "That's nothing to you," said he: "get about your business." "But I won't," said she: the tells me that you are going to send him and his friends to jail, and if you do send them, I'll drown myself in the pond as soon as they are gone: I will indeed."

When he saw the child thus peremptory, it shook his resolution, and induced him to aban-don his design. Taking the mittimus in his hand he went down into the hall, and thus addressed these good men: "I had here made out your mittimus to send you all to jail, as you deserve, but at my grandchild's request I drop the prosecution and set you all at liberty." They all bowed and thanked his worship. But Mr. Rogers, going to the child, laid his hand upon her head, and litting up his eyes to heaven, said, "God bless you, my dear child! May the blessing of that God whose cause you have now pleaded, though you know him not, be upon you in life, at death, and to all eternity!" The prayer of the good old man was heard, and many year, after was graciously answered in her conversion to God.

An additional fact may increase the interest of this anecdote. A son of Dr. Rogers, who was, years after this, participating the politoness and hospitality of a pious lady, related at dinner the ment of the company. When he was through, the lady said, "Are you the son of that Dr. Ro. above incidents of his father, for the gers?" He answered yes. She replied, "I am that little girl."

Correspondence of the N. Y. Journal of Commerce.

Hornellsville, Steuben co. N. Y. July 27. In this section for a few days back we have emphatically been living amid the "war of elements." The excessive heat of the last fort-night has seemed to open the very storehouses of destruction-thunder and lightning, tornadoes and hail. A report has just reached us-and which may be relied on—that on yesterday afternoon a tornado passed over the town of Amnity in the adjoining county of Allegany, prostrating every thing in its course, as well "the habitations of all things that dwell," as the crops of the husbandman, and the forest of a thousand years. Boards, trees and household stuff, were carried into this county, and 1 am informed by a creditable person that a board with shingles on it, evidently from the roof of some house, and a part of a bed sack, were found in the town of Couribo in this county,

In one of the last sittings it became desirable to observe the lady in her royal garb, but to save the Queen trouble, leave was obtained for Sully's daughter to sit in her stead attired in the Queen's robes. When things were going on fair, her majesty sent in to know if Miss S. would like to see her, and immediately walked in, looking at the mock majesty "most amazing funny," and in all hings behaving to a charm as a queen should. Miss Sully too played her part to admiration, nothing daunted. Victoria, like a good hearted girl, gave Miss Sully a miniature likeness of

THE MORMONS.

It is stated in the Canton, Ohio, Repository, that this people, to the number of about 2004 with 57 wagons, filled with furniture, cattle, &c. have left Geauga county, on their way to the "promised land" in Missouri. They pitch their tents in the open field at night, after the manner of the ancient Israelites.

A MYSTERIOUS MURDER.

We are informed by the New York Express of yesterday, that on Tucsday morning about 3 'clock, just after the discharge of the watch, an unknown man was seen to pass down Rose-velt street, in that city, to the wharf, at the junction of Front street, where a number of persons shortly collected, and a quarrel ensued in which the man above named was knocked down, and the other party ran off. The person who had seen the transaction lastened to the spot, where he found the man quite dead, and his blood and brains strewed around in every direction. He instantly started for the police, but before his return the body had been carried off, the hat and coat remaining. Another individual stated that he saw the body carried up Roosevelt street. As yet the police can find no trace of the murdered man or his murderers.
