AMERICAN PHRENOLOGICAL TOURNAL & MISCELLANY.

I is a remarkable fact, that while the converts to the belief that Phrepology is true, have, within a few years, most astonismingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel whose object is to advocate its truths, repel the attractions of the work be thus the attraction of the work of the cannot penetrate the interior in any the attracts made upon it, or answer the enthe attacks made upon it, or answer the enquiries winen even candid persons are disposed to make concerning it And this is the more surprising since the materials already existing and daily augmenting, with which to ear ch such a publication, are almost inextaustible.

The science of medicine has its appropri-

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of a contract of the day.

3. The work will be furnished to subscribe and the subscribe are advocated in the various institutions of the day. the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and tan, there is no publication which, as the appropriate channel, through which as the appropriate chainers those bearings may be pointed out. It is true that some newspapers, and also one or ded to the publisher free cd expenses two works of a less ephemeral character, do occasionally admit articles in favour of phreshology; but these do not meet the present necessity. A periodical which is avowedly will incur no risk of loss by paying in advances and for the same reason, subscriptions occasionally admit articles in favour of phre-nology; but these do not meet the present ne-cessity. A periodical which is avowedly phrenological—me, whose pages shall con-stitute a permanent depository of facts, and which shall be open for the expression of o-putions and the record of principles connect-ed with those facts, in non-negligible and a with those facts, is now needed; and a every case, be paid. strong feeling of this accessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, his ordered the publisher to present the prospectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to preserve from oblivion the most interesting of the very nu nerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Etweation, (physical, intellection, and mo-Etucation, (physical, intellection, and mosane; on Jurispeutence; on Theology, and on Mental and Moral Philosophy. On all these Mental and Miral Philosophy, subjects there is encouragement to hope for contributions from several sule pens: the resources of the editor himself will not, it is hopen, or found meansiderable.

The religious connecter of the work will be decidedly evangetical: for one prominent Object in giving it existence is, excrest Phieodogy out of the hands of those who, in again and of its true nature and constant cies, suppose that they find in it an instru-ment by which to subvert the truths of revealed religion, and loosen the bonds of hu-Man accounts many, and moral obligation.—
A frequent subject of discussion in our pages
will therefore by, The Harmony between the truths of Revelation and those of Phrenology. And on the said of the religious bearings of our science we respectfully solirit the enquiries and objections, not of cavillers, but the truty candid, and the conscientiously Such correspondents we shall al was welcome to our pages, and they will always be trested with kindness; as, also, honest and respectful objectors to Pare-

As our object is the establishment of Taurii, we solicit the communication of facts which are supposed to militate against Phreshology; and we pledge ourseives to publish them, in all cases in which we have satisfactory southers for their genaineness; and in furnished to us. But as we must form our furnished to us. But as we must form our judgment of the cerebral developement of in all cases on which we express our opinish all cases on which we cannot receive. In the second of the case o ons, it is obvious that we cannot receive, in these instances, the opinions of non-phrenological writers, as to the degree in which the several organs are developed—we mist, in every such case, see the head or skull, or a cast of it, properly certificates the private of the true to nature.

Organal Essays on Phrenological subjects will from part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and im-parenological subjects about a control of the certificate and organists will be the dutter of the City the necessary sum at the remister the low price and one of the certificate and miscellaneous, of turper certificate a morigate to the said park, and the principal certificate and muscellaneous, of turper certificate and organisms where the paper is forwarded to embrace a knowledge of the principal certificate and muscellaneous, of turper certificate and the principal certificates and the principal

our residers such matters of interest and importance is may be found in foreign Pareno-logical works of standard excellence, and with are not generally accessible to the American pu dic. Our FAOTS we allege our-selves shall be bona-fide such; and, as often as pla ticaste, we shall accompany our descriptions with ilioquative cuts: inneed, we intend and expect that scarcely a number will be issued without two or more such cuts.

especially professional men who are Phreno-logists,) to enrich the work with their concertificates upon which the subscription of the City to the Annapois and Elk-Ridge Rail Road Company, upon the surversion of the City and subscription of the City and the subscription of

that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the de-

sire or expectation of gain that it is offered A NEW AND CHEAP PERSODICAL to the community, but from moral considerations: from a desire to know and to promul gate truth. Hence should a large subscrip-tion list be obtained, a considerable propor-tion of the profits will be devoted to the ention list be obtained, a considerable proportion of the profits will be devoted to the enfargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be insert to the works of the day, which are wuch to the works of the day, which are wuch to the works of the day, which are wuch to the day, which are wuch to the works of the day, which are wuch to the day of the work has the streetiers of the work has the streeties of the w

MAMMOTH SHEET. OFFICE OF THE SATURDAY NEWS

AND LITERARY GAZETTE. Philadelphia, November 26, 1856.

THE very liberal patronage bestowed on the SATURDAY NEWS, since its sommencement in July last, and a desire to meet that patronage by corresponding exer-tions, have induced us this week to publish a Double Number-being the largest sheet ever printed in Philadelphia for any purpose, and the largest literary paper ever printed in the United States. To those of our friends who are practical printers, it need not be woo are practical printers, it need not be mentioned that this undertaking has it volved serious mechanical difficulties. The largest —or one of the largest presses in Philadelphia is used for our ordinary impression—but this would accommodate only a second but this would accommodate only a single page of the mammoth sheet, and we were obliged, therefore, to work four forms at different periods. The care used in preparing the paper-in removing and folding the sheets, &c., can only be estimated by thuse who have seen the experiment made; and, added to the necessarily increased an ount of composition, press work, &c., these supple mentary expenses have made an aggregate cost, which would have deterred many from engaging in the enterprize. A gain of two thousand new subscribers will not repay the actual cost of this single number.

We flatter ourselves that, besides its extraordinary size, this number presents at-tractions that entitle it to some attention.— It contains the whole of Friendship's Offer. ing for 1837, the Lumion copy of which co-ts 84, and has 384 closely printed pages of ter. friends among the young mech ter press. Distinguished as the present age, long excellent shints," copied fand particularly our own country. has been Journal: for cheap reprints, we believe this surpasses any former instance. For four cents subscribers to the Saturday News receive, in addition to their ordinary supply of miscellaneous matter, an English annual, the large-t yet received for the coming season; and they receive it, moreover, in a form that, from its

novely, gives it additional value.

Of the general character of the Saturday News we need not speak. That has how come so well known as to require no comment. We may take occasion to say, sowever, that in enterprize and resources we yield to no other publishers in this city or elsewhere, and we are determined that our paper shill not be surpassed. We have entered the field prepared for zealous competition, and we stand ready in every way to rea lize our promise, that no similar publication shall excel that which we issue. Our articles, oth original and selected, we are not ashamed to test by any comparison which can be adopted; and there is no periodical in the United States, monthly or weekly, which might
not be proud of many of our confributors.

The issuing of this number may be regard-

ed as an evidence of our intention and ability to merit success. Nor will it be the only effort—From time to time, as opportunity of fers, we proprose to adopt extraordinary means for the interest and gratification of our subscribes. subscribers.
