AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

T is a remarkable fact, that while the conwerts to the belief that Phremology is true, have, within a few years, most astothe attacks made upon it, or answer the enthe attacks made upon it, or answer the en-quiries which even candid persons are dis-posed to make concerning it. And this is the more surprising since the materials al-re dy existing and daily augmenting, with which to enrich such a publication, are al-

most inexhaustible.
The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of a The work will be furnished to subscribers at 32 per annum for a single copy; 85 it is proper that it should be so. The same is true of the other leading professions of divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that come newspapers, and also one or two works of a less cohemeral character, do occasionally admit articles in favour of phre secasionally admit articles in layour of pire nology; but these do not meet the present necessity. A periodical which is avowedly phrenological—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is now needed; and a status facility of these persists, together with strong feeling of this ne casity, together with a belief that such a work is extensively de manded, and will meet with encouragement and support, has indued the oublisher to Present the prospectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to pre

the very numerous facts, confirmatory and illustrative of the fruth of phrenology; to show the true bearings of this science on Elucation, (physical, intellectual, and mu-rals) on the Medical Treatment of the In sames on Jurisprudences on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope to contributions from several able pels; while the resources of the editor himsely will not,

it is hoped, be found inconsiderable.

The religious character of the work will be desidedly evangetical: for the prominent object in giving it existence is, to wrest Phrenol gy out of the hands of those, who, in ignorance of its true nature and tenden-cies, suppose that they find in it an instru ment by which to subsert the truths of revealed religion, and loosen the bonds of he man accountability, and moral obligation.—
A frequent subject of discussion in our paper will therefore be, The Harmony between the truths of Revelution and those of Parenology And on the subject of the religious beginning of our science we respectfully solicit fur of quiries and objections, not of cavillers, but of the truly cooled, and the conceenfions. Such currespondents we -yell ways welcome to our pages, and \$ always be treated with kindness; as, as a will honest and respectful objectors to that nology. But the captions and cavillers woll ensure to themselves our silect contemple, and the ignorant pretender, who seeks to extribute a science which he wait not or at the pains to investigate, may expect a merit-

TRUTH, we solicit the communication of factwhich are supposed to militate against Phrenology; and we pledge ourspices to puelish them, in all cases in which we have satisfactory vouchers for their gendineness; and in which all the facts to the several cases are furnished to us. But 25 we must form our judgment of the cerebral development is obvious that we cannot receive, in logical or anti-phrenoiogical writers, as to developed-we must, in every such case, see

will form part of the Journal; as also, Re-views of Phrenological and Anti-Phrenolomerican public. Our races we pledge our-selves shall be bona-fide such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we intend and expect that scarcely a number will be issued without two or more such cuts.

especially professional men who are Phreno-logists,) to enrich the work with their contributions, we offer for accepted matter, ar liberal a compensation per printed page, as is usually afficiled by the very first periodicals in our country; ibut the editor does not promise to endorse all which his correspondents may communicate; nor all which he may admit into the work. To error, it seems and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the bijectionable matter; and sommunications for which compensation is expected, must be so prepared as to be if tributions, we offer for accepted matter, as sommunications for which compensation is the authority aforesaid. That so much of the expected, must be so prepared as to be fit by law as authorises the issuing of stock to

for the public cyt.

In conclusions we may be allowed to say, that the pecuniary value of each number will depend to a the extent to which the part is part anised. It is not with the de

tire or expectation of gain that it is offered A NEW AND CHEAP PERSONICAD to the community, but from moral considerations: from a desire to know and to promul gate truth. Hence should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the en-

TERMS.

Rentember 27. MAMMOTH SHEET.

OFFICE OF THE SATURDAY NEWS ? AND LITERARY GAZETTE. Philadelphia, November 26, 1836.

TillE very liberal patronage bestowed on the SAFURDAY NEWS, since its commencement in July last, and a desire to meet that patronage by corresponding exertions, have induced us this week to publish a Double Number—being the in-cest sheet erer printed in Philadelphia for any purease, erer printed in riniadelphia for any pure ose, and the largest literary paper ever printed in the United States. To those of our friends who are practical printers, it need not be mentioned that this undertaking has involved serious mechanical difficulties. The largest -or one of the largest presses in Philadelphia is used for our ordinary impression— but this would accommodate only a single page of the mammoth sheet, and we were o-biged, therefore, to work four forms at diffrent periods. The care used in preparing to spaner-in removing and folding the eets, &c., can only be estimated by those was have seen the experiment made; and, added to the necessarily increased amount of composition, press work, &c., these supplementary expense: have made an aggregate cost, which would have deterred many from engiging in the enterprize. A gain of two engiging in the enterprize. A gain of two thousand new subscribers will not repay the sectual cost of this single number. We flatter ourselves that, besides its ex-

tractions that entitle it to some attention. It contains the whole of Friendship's Offering for 1837, the London copy of which costs 84, and has 384 closely printed pages of let-ter press. Distinguished as the present age, particularly our own country, has been for cheap reprints, we believe this surpasses any former instance. For four cents subscribers to the Saturday News receive, in addition to their ordinary supply of miscellaneons matter, an English annual, the largest yet received for the coming season; and they receive it moreover, in a form that, from its Boyelty, gives it additional value.

Of the general character of the Saturday

News we need not speak. That has now bement. We may take occasion to say, however, that in enterprize and resources we yield to no other publishers in this city or elsewhere, and we are determined that our large she if not be surpassed. We have any give the notice required by in paper shall not be surpassed. We have entered the field prepared for zealous competition and the required by little and the results of the same against the exhibit their claims against the results of t tion, and we stand ready in every way to realize our promise, that no similar publication shall excel that which we issue. Our articles, both original and selected, we are not ashamdopted; and there is no periodical in the United States, monthly or weekly, which might not be proud of many of our contributors. The issuing of this number may be regard-

ed as an evidence of our intention and abili ed as an evidence of our intention and about to to merit success. Nor will it be the only of effort—From time to time, as opportunity of fers, we proprose to adopt extraordinary means for the interest and gratification of our subscribers.

L. A. GODEY, & Co.
