

The Maryland Gazette.

ANNAPOLIS, THURSDAY, DECEMBER 21, 1838.

SUBSCRIPTION
FOR THE
FIFTH VOLUME OF
THE CULTIVATOR,
CONDUCTED BY U. BUEL.
No. 3, Washington-street, Albany.

THE CULTIVATOR is a monthly publication of 16 pages, devoted to agriculture on a sheet of the largest size of paper by 40 inches. The price is one dollar annum, payable in advance. The position of a volume of the Cultivator will not be sent to any part of the Union, within the state, and a circle of 100, it will be but 122 cents. A volume contains more than 200 pages, and is illustrated with cuts of animals, implements, &c. and is furnished with a copious index. It will comprise as much letter press as 1500 pages of common doctored paper, such as the Penny Magazine, published by the British Society for the Promotion of Useful Knowledge, and which, at two dollars annum, has been reputed to be the cheapest periodical any where published.

The Cultivator will continue to treat of agriculture, to furnish instructions for the best models of practice in all departments of husbandry, in horticulture, and other rural affairs, and to furnish full lessons for the improvement of the mind. The Conductor will endeavor to render it a *present help*, and a *source of useful reference*, to all who have the intention to distinguish themselves in rural and rural improvements—to help themselves and to benefit society.

Subscriptions to the above work referred to by

A. COWAN, Annapolis.

OUR THREE FIRST VOLUMES.

The second edition of vol. 1, and the first edition of the 2d and 3d vols of the Cultivator, being about expended, and the demand for them continuing unabated, we are printing another edition, which will be completed with all despatch. Orders will, in due time, be received, and the volumes mailed as soon as published. When completed, stitched and bound volumes will be forwarded to our agents in Boston, New York, Philadelphia, Baltimore, Alexandria, &c.

THE SALMAGUNDI.

EMBELLISHED WITH A MULTITUDE OF COMIC ENGRAVINGS.
A NEW PERIODICAL, of a novel character, bearing the above appellation, will be commenced on the beginning of January, 1839. While it will furnish its patrons with the leading features of the news of the day, its principal object will be to scrape a humorous compilation of the numerous lively and pungent sallies which are daily floating along the tide of literature, and which, in the want of a proper channel for their publication, are positively lost to the reading world. Original wit and humor of our own will here have a medium devoted to the faithful record of the scintillations of their pens. It is not necessary to detail the many attractions which this journal will possess, as the publisher will furnish a specimen number to every person who desires it—out of the city, will forward their orders, postage paid—and he pledges himself that no exertions on his part shall be wanting to make each succeeding number superior in every respect to the preceding ones. The SALMAGUNDI will be printed on large superior paper, equal in size and quality to that which is at present used for the Gentleman's and Mercantile. It is calculated that MORE THAN

500 ENGRAVINGS

will be furnished to the patrons of this Journal in one year—these, in addition to an extensive and choice selection of satire, Criticism, Honour and Wit, to be circulated through its columns, will form a Literary banquet of a superior and attractive order, and the publisher relies with perfect confidence on the liberality of the American public, and the spirit and tact with which the expensive undertaking will be prosecuted, to bear him successfully and profitably along with it.

The Terms of THE SALMAGUNDI will be TWO DOLLARS per annum, payable invariably in advance. No paper will be furnished unless this stipulation is strictly adhered to. Clubs of three will be supplied with one paper for one year, by forwarding a five dollar note, postage paid. Clubs of seven will be supplied for the same term, by forwarding a ten dollar note. The papers that are sent out of the city will be carefully packed in strong envelopes, to prevent their rubbing in the mail.

THE SALMAGUNDI will be published on alternate weeks—otherwise it would be impossible to procure the numerous Engravings which each number will contain—and the general interest it will afford must be enhanced by this arrangement.

PROSPECTUS
OF THE
AMERICAN PHRENOLOGICAL
JOURNAL & MISCELLANY.

It is a remarkable fact, that while the continent is so richly supplied with the means of knowledge, and the means of civilization, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing, and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world, and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenology has upon these sciences, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology; but these do not meet the present necessity. A periodical which is avowedly phrenological—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with these facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral) on the Medical Treatment of the Insane; on Jurisprudence on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical; for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and to loosen the bonds of human accountability, and moral obligation. A frequent subject of discussion in our pages will therefore be, *The Harmony between the Truths of Revelation and those of Phrenology.* And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as, also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merited rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral development in all cases on which we express our opinion, it is obvious that we cannot receive, in these instances, the opinions of non-phrenologists or anti-phrenological writers; as the degree in which the several organs are developed—we must, in every such case, see *the head or skull, or a cast of it*, properly certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phrenological works of standard excellence, and which are not generally accessible to the American public. Our facts we pledge ourselves shall be *bona-fide* such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts; indeed, we intend and expect that scarcely a number will be issued without two or more such cuts. To encourage Phrenologists of talent (and especially professional men who are Phrenologists), to enrich the work with their contributions, we offer for *accepted matter*, as liberal a compensation per printed page, as is usually afforded by the very first periodicals in our country; but the editor does not promise to endorse all which his correspondents may communicate, nor all which he may admit into the work. To secure if serious, and especially if it affects the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to be fit for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronized: It is not with the desire or expectation of gain that it is offered to the community, but from moral considerations from a desire to know and to promulgate truth. Hence, should a large subscription list be obtained, a considerable proportion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the subscribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied.

TERMS.
1. The American Phrenological Journal and Miscellany will be issued monthly, commencing on the 2d of October next.
2. Each number will contain at least 32 octavo pages, making a volume of not less than 384 pages; corresponding in point of mechanical execution with the best periodicals of the day.
3. The work will be furnished to subscribers at \$3 per annum for a single copy; \$5 (current in Philadelphia or New York) for three copies, or \$10 (current as above) for six copies sent to one address. To Clergymen and Theological Students, single copies will be furnished at \$1.50 per annum; and to companies of eight or more of such, it will be reduced to \$1.25 per copy, if sent to one address, and the subscription forwarded to the publisher free of expense.

N. B. As funds are already deposited for sustaining the work one year, subscribers will incur no risk of loss by paying in advance; and for the same reason, subscriptions will be *invariably* required in advance. Money sent by mail, if enclosed in the presence of the post-master, will be at the risk of the publishers; but postage must, in every case, be paid.

Subscriptions, and letters of business, may be addressed to the publisher, ADAM WALDIE, 46 Carpenter-street, Philadelphia, and communications for the work to the Editor, of the Am. Phren. Jour., care of A. WALDIE.

Postmasters throughout the country will please to act as agents for this Journal. August 23.

SHERIFFALTY.
At the friendly solicitations of a number of the Voters of Anne-Arundel County, the subscriber is induced to offer his services as a Candidate for SHERIFF of said County, and will endeavour so to discharge the duties, if honoured with their confidence, as to give satisfaction.

AN application to the Judges of Anne-Arundel County Court, by petition, in writing of Dennis H. Battee, of Anne-Arundel county, stating that he is now in actual confinement, and praying for the benefit of the act of the General Assembly of Maryland, entitled, An act for the relief of sundry insolvent debtors, passed at December session 1803, and the several supplements thereto, on the terms therein mentioned, a schedule of his property, and a list of his creditors, on oath, so far as he can ascertain the same, being annexed to his petition, and the said Dennis H. Battee having satisfied the said Court by competent testimony that he has resided two years within the state of Maryland immediately preceding the time of his application, and the said Dennis H. Battee having taken the oath by the said act prescribed for the delivering up his property, and given sufficient security for his personal appearance, to answer such interrogatories and allegations as may be made against him, and having appointed John Claytor his trustee, who has given bond as such, and received from said Dennis H. Battee a conveyance and possession of all his property real, personal and mixed—it is hereby ordered and adjudged, that the said Dennis H. Battee be discharged from imprisonment, and that he give notice to his creditors by causing a copy of this order to be inserted in some newspaper published in Anne-Arundel county, once a week for three consecutive months, before the third Monday of April next, to appear before the said county court, at the court house of said county, at ten o'clock in the forenoon of that day, for the purpose of recommending a trustee for their benefit, and to show cause, if any they have, why the said Dennis H. Battee should not have the benefit of the said act, and the supplements, as prayed. Given under my hand this 23th day of October, in the year of our Lord one thousand eight hundred and thirty eight.

PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

THESE works have been published by us for six years. They are now more subscribers for them, probably than for any other paper published in the United States; certainly more than there are for any other paper published in this District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives them so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to change them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged.

The Congressional Globe is made up of the daily proceedings of the two houses of Congress, and the speeches of the members, condensed. The year and days on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The Appendix contains the speeches of the members at full length, written out by themselves, and is printed in the same form as the Congressional Globe. It is published as fast as the speeches can be prepared. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both, because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

For one copy of the Congressional Globe, \$1.
One copy of the Appendix, \$1.
Six copies of either of the above works will be sent for \$5, twelve copies for \$10, and a proportionate number for a larger sum. Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States, current in the section of country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be made by the 11th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

No attention will be paid to any order, unless the money accompany it, or unless some responsible person, known to us to be so, shall agree to pay it before the session expires.

A NEW AND CHEAP PERIODICAL.

Attention is requested from our readers to the following prospectus of a new, and even a cheaper book, periodical, which will be issued from this office in the first week of next January. It will not be in so convenient a form for binding as the present, with which it will in no way interfere, but it will make books cheap beyond all precedent. It will contain the works of the day, which are sought after, but are comparatively dear, and which cannot penetrate the interior in any mode half so rapidly as by mail, in which volumes of books are prohibited. A fifty cent American reprint will be furnished entire for four to six cents; a Marryat novel for twelve cents, and others in proportion.

As but very few copies will be printed but what are actually subscribed for, those who wish the Omnibus, must make their remittances at once.

Books at Newspaper Postage.
WALDIE'S LITERARY OMNIBUS.
NOVEL AND IMPORTANT LITERARY ENTERPRISE!
NOVELS, TALES, BIOGRAPHS, VOYAGES, TRAVELS, REVIEWS, AND THE NEWS OF THE DAY.

It was one of the great objects of "Waldie's Literary," "to make good reading cheaper, and to bring literature to every man's door." That object has been accomplished; we have given to books wings, and they have flown to the uttermost parts of our vast continent, carrying society to the selected occupation of the literary, information to all. We now propose still further to reduce prices, and render the access to a literary banquet more than twofold accessible; we gave and shall continue to give in the quarto library a volume weekly for two cents a day; we now propose to give a volume in the same period for less than four cents a week, and to add as a pleasant seasoning to the dish a few columns of shorter literary matters, and a summary of the news and events of the day. We know by experience and calculation that we can do all further in the matter of reduction, and we feel that there is still verge enough for us to aim at offering to an increasing literary appetite that mental food which it craves.

The Select Circulating Library, now as ever so great a favourite, will continue to make its weekly visits, and to be issued in a form for binding and preservation, and its price for both will remain the same. But we shall, in the first week of January 1837, issue a huge sheet of the size of the largest newspapers of America, but on very superior paper, also filled with books of the newest and most entertaining, though in their several departments of Novels, Tales, Voyages, Travels, &c., select in their character, joined with reading such, as usually should fill a weekly newspaper. By this method we hope to accomplish a great good, to enlighten and enlighten the family circle, and to give to it, an expense which shall be no consideration to any, a mass of reading that in book form would alarm the pockets of the prudent, and to do it in a manner that the most sceptical shall acknowledge "the power of concentration can no farther go." No book which appears in Waldie's Quarto Library will be an entirely distinct periodical.

TERMS
Waldie's Literary Omnibus will be issued every Friday morning, printed on paper of a quality superior to any other weekly sheet, and of the largest size. It will contain:
1st. Books, the newest and the best that can be procured, equal every week to a London duncebook volume, embracing Novels, Travels, Memoirs, &c., and only chargeable with newspaper postage.
2d. Literary Reviews, and information from "the world of letters," of every description.
3d. The news of the week concentrated to a small compass, but in a sufficient amount to embrace a knowledge of the principal events, political and miscellaneous, of Europe and America.

The price will be two dollars to clubs of five subscribers where the paper is forwarded to one address. To clubs of two individuals, five dollars; single mail subscribers, three dollars. The discount on uncurrent money will be charged to the remitter; the low price and superior paper absolutely prohibit paying a discount.

On no condition will a copy ever be sent until the payment is received in advance. As the arrangements for the prosecution of this great literary undertaking are all made, and the proprietor has redeemed all his pledges to a generous public for many years, no fear of the non-fulfilment of the contract can be felt. The Omnibus will be regularly issued, and will contain in a year reading matter equal in amount to two volumes of Rec's Cyclopaedia, for the small sum mentioned above.

Address, post paid,
ADAM WALDIE,
46 Carpenter St. Philadelphia.
Editors throughout the Union, and Canada, will confer a favour by giving the above one or more conspicuous insertions, and accepting the work for a year as compensation.
