MAMMOTH SHEET OFFICE OF THE SATURDAY NEWS ? AND LITERARY GAZETTE Philadelphia, November 26, 1836.

PilE very liberal patronage restowed on the SATURDAY NEWS, since its

tomecomment in July last, and a desire to meet that patronage by corresponding exertions, have induced us this week to publish a Double Number—being the largest sheet ever printed in Philadelphia for any purpose, and the largest literary paper ever printed in the lighted States. To those of our friends who are practical printers, it need not be mentioned that this undersking has involved serious mechanical diesections. The largest are one of the largest—exesses in Philadelphia is used for our ordinary impression—bit this would accommodate only a single place of the mammoth sheet, and we were of Education. A gain of two object in giving it existence against new subscribers will not repay the Phrenology out of the hands

ictual cost of this single number. We flatter ourselves that, besides its extraordinary size, this number presents attractions that entitle it a some attention.—
It contains the whole wiendship's Offering for 1837, the London copy of which costs 54, and has 334 closely printed pages of terpress. Distinguished as the presentage, and particularly our own country, has been for cheap reprints, we believe this surpasses any former instance. For four cents subscribed. We flatter ourselves that, besides its exany former instance. For four cents subscribers to the Saturday News theeive, in addition to their ordinary supply of miscellaneous matter, an English annual, the largest yet received for the coming season; and they receive it, moreover/in a form that, from its sorelty, gives it additional value.

Of the general character of the Saturday News we need not speak. That has now become so well known as to require no comment. We may take occasion to say, however, that in enterprize and resources we rield to so other publishers in this city or cier, may in enterprize and resources we yield to to other publishers in this city or disawhere, and we are determined that our piper shell not be surpassed. We have entered the field prepared for zealous competition, and we stand read a resource in the property of the tion, and we stand ready in every way to rea lize our promise, that no similar publication shall excel that which we issue. Our articles, both original and selected, we are not ashamel to test by any comparison which can be adopted; and there is no periodical in the United States, monthly or weekly, which might not be proud of many of our contributors.
