ready existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropri-

ate media through which to present to the profession and to statents all the new facis shich occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phreoccasionally admit articles in layour of pine-nology; but these do not meet the present ne-cessity. A periodical which is avowedly phrenological—one, whose pages shall con-stitute a permanent depository of facts, and which shall be open for the expression of oed with those facts, is now needed; and a strong feeling of this necessity, together with penel that such a work is extensively de-

and support, has induced the particler to present the prospectus of "The American Phrenological Journal and Miscelling," object of this work will be to preserve from oblision the most interesting of the very numerous facts, sunfirmatory and the very numerous lacts, samirmitory and illustrative of the tenth of the pology; to show the true bearings of the efficience on Elucation. (physical, intellectual, and morals) on the Melicel Treatment of the In-Mental on ! Moral Philosophy Ou att these Subjects there is encourage nent to hope for contributions from several able pens; waile the resources of the editor muself will not,

The religious character of the work will be decidedly evangetical: for one prominent object in giving it existence is, to wrest Parenology out of the bands of those, who, in ignorance of its true nature and tendensuppose that they find in it an instruveiled religion, and loosen the bonds of human accountability, and moral obligation.—
A frequent subject of discussion to our rages will therefore be. The Harmony between the truths of Revelation and those of Parenology And on the support of the religious hearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly condit, and the conscientionals fearful. Such correspondents we shall always welcome to our pages, and they will al rigs be treated with Sinoness; as, also will honest and respectful objectors to Phrenotagy. But the ciptious and egon ensure to themselves our sile is confemple and the ignorant pretender, was seeks to yethrow a science which he will not be the prins to investigate, may expect a a

TRUTH, we solicit the com aunication of facts which are supposed to militate against Pince pology; and we pledge ourselves the publish accidied to be true to, nature.

original Essays of Perendicical suspects traits by endorsement thereon, signed by the will form part of the Journal, as iso, it consters with form part of the Journal, as iso, it consters to the state of the state

logiste,) to enrich the work with their contributions, we offer for accepted matter, as liveral a compensation per printed page, as the authority aforesaid. That the stock thus is usually afforded by the very first periodic authorised to be issued, may be transferred cals in our country; out the editor does not promise to endorse ill which his currespondents may communicate; nor all which he may admit into the work. To error, if serisus, and especially it it affect the interestof morality and religion, be claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; an summunications for which compensation of the objectionable matter; and summunications for which compensation of the objection of the objectio expected, must be so prepared as to be for

for the public eye.
In conclusion, we may be allowed to say that the pecuniary value of each number will depend much on the extent to which to merk is patronised. It is not with the de

sire or expectation of gain that it is offered A NEW AND CHEAP PERSONICAL to the community, bill from moral considerations: from a desire to know and to promule the following prospectus of a new, and even or the community, but from moral considerations a quint that it is offered to the community, but from moral considerations requested from our readers to the community, but from moral considerations requested from our readers to the following prospectus of a number of the following prospectus of a number to the following prospectus of the following prospectus of the following prospectus of a number to the following prospectus of the following

medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwith-standing the important bearings which phrenologies the important bearings which phrenologies gymen and Theological Students, single coknow their science to have on melicine, and pies will be furnished at 81 50 per annums divinity, and law, there is no publication and to companies of eight or more of such,
