Two accidents, singularly similar, occurred n board the steamboat John Jay, on the 27th ult. on her passage down the Arkansas river. About 9 o'clock in the morning, a gentleman named Samuel Adams, who resided near Nash ville, Tenn., fell on the fly wheel, and was so adly injured that he died in eleven hours; and about one o'clock, Dr. Robert Prestbridge, of Gran I Gulf, Mi. met a similar fate. The latter died instantly.

ABOLITION IN DELAWARE. COURT OF APPEALS, W. S. De-The following r port has been made to the Delaware Legislature, by a Committee to whom Thursday, F bruary 14, 1839 -Nos. 9 and

was referred a memorial.

"The Committee to whom was referred the petition of 319 wwomen of the city of Wilmington and county of New Castle," praying for the "a boldion of Slavery throughout this State," beg leave to report:

"That they consider the petitioning of "mo men," to our National and State Legislatures (which they regret to see is becoming so general a practice) us derogatory from that refine ment and delicacy which should, under all circumstances, accompany the female character and as an unwarranted interference in subjects inat should more perperly belong to their fathers, husbands, or brothers.

"Your committee are also decidedly of the pinion that the petitioners whose names are affixed to the memorial under consideration, rould confer more real benefit upon society, they hereafter confined their attention to matters of a domestic nature, and would be more solici tious to mend the garments of their husbands and children, than to patch the breaches of the laws

THE EARTHQUAKE IN THE WEST

INDIES.

Letters from Martinique, dated Jan. 15th, eay
that the carthquake which has already been announced as having occurred on the night of the 11th, with such frightful effects, was repeated on the nights of the 12th and 13th, and greatly increased the damage. The whole Island was pecially. In that city eighty houses were hrown down, including the Government House, Hospital, Treasury, Churches, and all other large edifices.

Not a house escaped injury more or less.-Six hundred persons were killed. And the rest, who were able, had find to the low grounds. In Guadaloupe and St. Lucas, great damage been done. Two schooners had arrived at Marinique from Guadaloupe laden with wounded persons seeking for hospitals; but the inhabit into were compelled to turn them away, as they had more than their hands full of their own wound

EARTHQUAKE AT MARTINQUE.

The French ship Carolina, arrived at Charles on from Point Petre, brings the following additional intelligence in relation to the dreadful earthquake at Martinique:

ST. PIERRE, MARTINIQUE, Jan. 11. I hasten to inform you of the terrible disaster that took place this morning about three quarters after five o'clock; a distressing earthquake such as has not been known of before in this co:ony, has visited us . All the houses of our city have more or les suff red. Some have been completed overturned, and the greatest require much repair, if it is not absolutely necessary to pull them down. But few persons have been victims in this place, four only, but unfortunately this is not the case at Fort Roy

We learn that that city has suffered dreadful ly, a great number of houses, all those built of stone have fallen, carrying with them their unfortunate tenants. The hospital (a new building) has been much injured, and a part of the sick victims within its walls. deaths after all reports collected to this time is Sultan's life. It was reported that the Turkish estimated at about five hundred-our city is to day in the most profound consternation.

ST. PIERRE, MARTINIQUE, Jan. 12. You have undoubtedly heard of the dreadful calamity which has befallen our unfortunate country, already 20 much to be pitied in every respect. There is not a single house in St. Perre, that must not be rebuilt or entirely re-

Not onefourth of the city has yet been searched, and they have already tound 522 dead bodies. The Hospital of Fort Royal is likewise destroyed,

According to other letters and reports of different persons arrived at Point Perc, from Martinique, on the 13th and 14th inst., it would appear that all the wooden houses have excepted differences between Belgium and Holland, and It appears from some writing on the title the disaster. Nothing yet can be said of the serious fears were entertained that heatilities page, that it was at one time in possession of state of the fortifications at Fort Royal, and of the other establishments of the Government, of marched to the frontier by the French governwhich no mention is made in the letters of our correspondents. But from the reports collected from the adjacent country, we would infer that the sugar factories had suffered considerably already, the known losses are estimated at more Browsley Hall, his late residence, in this counthan ten millions of france. ARRIVAL OF THE GREAT WESTERN. VERY LATE FROM ENGLAND.

The steam ship Great Western arrived at lew York on Saturday at 8, P. M., in 18 days from Bristol, which port she left on the 28th Jan. at 5, P M. To the attention of Grosus PEABODT. E-q. of London, and a gentleman of this city, the editors of the American are int. ted for London and Bristol papers to the 26th January, both inclusive. The Western has 103 passengers, a list of which will be found be.

RESIGNATION OF THE FRENCH MI.

NISTRY.

The whole of the French Ministers on the 22d January placed their resignations in the hands of the King, in consequence of finding their majority in the Chamber of Deputies insufficient. On the following day His Majesty confided to Marshal Soult the construction of a new Ministry.

The Moniteur publishes a Royal ordinance dated 22d January, promoting Real Admiral Charles Baudin to the rank of Vice-Admiral, as recompense for his gallant and skifful conduct at the capture of the fortress of San Juan d'. EXPORTATION OF GRAIN PROHIBITED

FROM FRANCE. The Paris Moniteur contains a royal ordi-

nance prohibiting the exportation of grain from an of the Western ports of France. The Courier Français condemns the above ordinance, which prohibits the export of grain from the Atlantic harbours of France, as vicious in its principle, surversive of every sound idea of political economy, and violating the freedom of the corn trade, but that the Government, on

the other hand, had obeyed the most imperious of Laws-that of necessity, and praises it for making that concession to fears, however unjustifiable and absurd those apprehensions might have been, "rather than be obliged to have recourse to new and sanguinary measures of repression, like those enforced against the revolters of la Rochelle."

The Commerce has an article of a similar na. ture, condemning the measure as an impolitic submission to the influence of fear.

The French papers announce new riots in different parts of that Kingdom to prevent the exportation of corn, but show that those disturbances were immediately suppressed.

The Bordeaux papers state, that some disturbances occurred on the 16th Jan, in the small town of Castelialoux. Five or six hundred individuals assembled tumultuously, and proceeded to the municipality to obtain a reduction in the price of bread. The authorities, being left without a sufficient military force, were compelled to acquiesce in the demand of the multitude. A fire which had recently occurred in Con-

stantinople was, if the Augsburg Gazette speaks ruly, connected with a Government was on the point of contracting a loan for £400,000 with the house of Rothschild, which would be securred on the island of Cniq. LOSS OF THE PROTECTOR ZAST IN. DIAMAN ANT, 170 LIVES.

Accounts from Incia announce the loss of this ship, bound from London to Calcutte, at Sands Head, near the place of her destination, Out of 178 persons on board, only eight were saved, viz: 7 recruits and one staman. The The Protector was driven sahore in a gale, while at anchor.

On the day after the recent severe gale in England, the face rose so high at Hamburg as to be four fet deep in the Exchange. BELGIUM AND HOLLAND.

ON LOW SPIRITS.

UN LOW SPIRITS.

Low spirite is a certain state of the mind, accompanied by melig stion, wherein the greatest evils are apprehended upon the elightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondras, which are situated on the right or left side of that cavity, whener comes the name hypochondrasis.

Symptoma. The common corporeal symptoms are, fittlency in the stomach or bowels, acrid eructations, redireness, spasmodic pains and often an utter inability of fixing the attentions upon any subject of importance or engaging in any thing that demands rigour or courage. Also languidaness—the mind becomes irritable, thoughtfull, despending, melancinely and dejected, accompanied by a total derangement of the nervous system.
