Dear Sir—Had the immortal Cowper known the medical qualities of the Camomile Plant, he as well as thousands since (besides myself.) would have experienced its wonderful effects on the nervous system. The public utility of Cowper was blighted in the bud, throthe natural effect of his nervous debility upon the mental powers, which made it necessary for him to seek relief beneath the rural shade, but the calm retreat gave his physical nature no repose. If some one then had known the secret of concentrating the medical virtues of Camomile, the discoverer would have been immortalized with poetic zeal as the benefactor of suffering man.
