Tis a remerkable fact, that while the con-verte to the belief that Parenelogy is hingly multiplied, there day, most not nishingly multiplied, there does not exist an scrivers. more frequent litestrations whose object is to advocate its truthe, repel ed, and the attractions of the work be that the attacks made upon it, or answer the end multiplied. the attacks made upon it, or answer the ent-quiries which even caudid persons are dis-passed to make concerning it. And this is the more surprising since the materials alne attacks made upon it, or answer the enquiries which even caudid persons are dispeted to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich sweet a publication, are allement large and allements and its appropriate medical entering on the 2d of October pratagoral 2. Each number will contain at fear, 22 octave pages, making a volume of not least which escape and all the new theories which are adverted in the various institutions of medical science throughout the world; and medical science throughout the world; and

th pegn, which, as the appropriate channel, the bearings may be pointed out. It is to one address, and the subscription for war-time that some newspapers, and also one or ded to the publisher free of expense. two works of a less epheneral character, do occasionally admit articles in favour of plirenology; but these do not meet the present ne cessity. A periodical which is avowedly stitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connect-risk of the publisher; but postage must, in ed with those ficts, is now needed; and a every case, be paid. strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement manded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "The American Phienological Journal and Micellany."

The object of this work will be to pre-

the very numerous facts, confirmatory and illiabrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and most integrating to the publisher, the work and he sent for one year.

Postmasters throughout the country will please to act as agents for this Journal. Education, (physical, intellectual, and mo-ral) on the Medical Treatment of the In-Mental and Moral Philosophy the all these subjects there is encouragement to hope for contributions from several note pensy while the resources of the editor himself will not, it is hoped, be found inconsiderable. The religious character of the work

be decidedly evangelical: for one prominent object in giving it existence is, to wiest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instruwhich to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation .-A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we'respectfully solicit the en-quiries and objections, not of cavillers, but of the truly candid, and the conscientionaly fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as also, will honest and respectful objectors to Phre-But the ciptious and cavillers will nology? ensure to themselves our silent contempti and the ignorant prefender, who seeks to no verthrow a science which he will not be at the puns to investigate, may expect a merit-

As dur object is the establishment of TRUTH, we suffeit the continunication of facts which are supposed to unfits te against Phre-nology; and we piedge oursides to publish nology; and we preuge uses to perform them, in all cases in which we have satisfaction youthers for their genoicenes; and in at the rate of six per cent per annum, payantices of books, and information from 6the world of letters," of every description.

It is preuge uses to perform the preuge uses the which all the facts in the several cases are furnished to us. But, as we takest form our own judgment of the cerebral next openment of and July of each year.

2. And be it further established and original cases on which we express our opinions, it is obvious that we cannot receive, in Certificates shall, upon their face, be receited in Annual Country.
