ON-LOW SPIRITS.

Low spirits is a certain state of the mind, accompa-nied by indigestion, wherein the greatest evils are ap-prehended upon the slightest grounds, and the worst estion, wherein the greatest evils are a on the slightest grounds, and the wor nied by intigration, where the grounds, and the work prehended upon the slightest grounds, and the work consequences imagined. Ancient medical writers sup-posed this disease to be confined to those particular ra-gions of the abdomen technically called hypochondria, which are situated on the right or left side of that ca-

which are situated on the figure of the same in the cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are flatulency in the stomach or bowels, acrid cruetations continuous, spasmodic pains and often an utter inability of fixing the attention upon any subject of important paints. ty of fixing the attention upon any subject of impor-tance or engaging in any tuning that terminal or or courage. Also languidness—the mind becomes ir-ritable, thoughtful, desponding, melancholy and deject-ed, accompanied by a total derangement of the nerrous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weak-est.

cet. Causes. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdonen is a frequent cause.

Treatment. The principal objects of freatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowcls (if costive) should be carefully regulated by the occasional use of a mild aperient. Some physicians have recommended a free use of mercary, but it should not be resorted to; in many ca-ses it greatly aggravates the symptoms.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundrels of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the guns, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the guns, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the guns, the Syrup immediately givecass by opening the peres and healing the gums, thereby preventing Convulsions, Fevers, &c.

THE EARON VON HUTCHELER YIERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the exerctions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthful state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body

state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, eases it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives, will appear a blessing, and sot (as too many who have neglected their constitutions, or had them injured by medicines administered by igno rance) a source of misery and abhorence.

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expet the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, thro the exerctory duets into the passage of the lowels, to that by the brisk or slight executations, which may be regulated by the doses of the Herb Pills, always remembering that while the exerctions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will modulatedly effect a cure even in tio most acute or ob-

Cure of Nervous and Bilious Affection.

TAKE NOTICE—Mr. Elias Shafer, of the town of Westerlo, county of Allany, was for above 21/years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were diviness, pain in the head and side, palpitation of the heart, want of appetite, &c. After expending during his confinement, nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutcheler Herb Pilia, and was con exquently induced te make a trial of them. After using them about a fortnight, he was able to walk out; in four months he could attend to business, and considered his disease entirely removed. The above information was given to the subscriber by Mr. Shafer himself; there can, therefore, be no deception.
