

Mr. Penn of Stockbridge has a cow, 8 years old, which has produced in one week 12 lbs. of butter, 12 lbs. of milk and cream, and 12 lbs. of cheese. Wm. Dewey of Alford has a cow which has produced for some time 14 lbs. of butter a week. Mr. Stephen Willard of Stockbridge has a cow which produced in 21 successive days, 331 lbs. of butter. Mr. A. A. of Ashfield, owns a cow whose product for less than 8 months last year, was 303 pounds of butter. None of these animals had extra feeding.—Northampton (Mass.) Courier.

From the New Orleans Courier, April 19. LATEST FROM MEXICO. We are indebted to a merchant of this city for the following interesting particulars of Mexican news brought by the U. S. brig Conestoga, from Vera Cruz.

On the 6th April, a fire broke out in the Custom House at Vera Cruz, which was extinguished with more than 1000 packages of valuable goods, also other houses adjacent.

It appears that the French squadron had sailed, as it was by the aid of the French soldiers and engines that the fire at Vera Cruz was finally conquered.

Gen. Mexia was on the 7th of April within 50 miles of Vera Cruz, at the head of from 1000 to 1500 men. It was believed in Vera Cruz that the Mexican garrison would join him, and that the city would soon be in his possession.

Another account says that the greatest calamity prevailed at Vera Cruz among the inhabitants and merchants, who feared the loss would be put under contribution.

From the New Orleans Bulletin, April 22. IMPORTANT FROM MEXICO. The arrival at the Balize of the U. S. brig Conestoga, has brought advices from Vera Cruz late as the 10th inst. the day of her sailing.

By letters received by her, we learn that a fire broke out in the Custom House at Vera Cruz on the 6th inst. by which merchandise valued at a million of dollars was destroyed.

The Lords of the Admiralty have ordered five new engines for war steam ships, one of which, to be named the Cyclops, is to be of 1300 tons burthen and carry 20 guns—the largest armament yet placed on board a steam frigate, in any navy.

The following paragraph is the conclusion of an article on the late boundary troubles, in the London Weekly Chronicle of March 21. It affords an indication that the passage of the "war bill," as it has been called, would not be regarded as a very portentous event in England.

The Congress, however, was expected not to separate, (the session being upon the point of ending) without providing for the opposite alternative, by placing large resources at the disposal of the President, to be used in the event of any attempt on the part of Great Britain, to take military possession of the territory in dispute.

We see no reason for fear this, as Sir John Harvey, in the midst of great provocations, on the part of Governor Fairfild, has evinced a temper, and a moderation, which will ensure his ready acquiescence in the arrangement sanctioned by Mr. Forsyth and Mr. Fox.

Captain Harvey and the officers of the Malabar have subscribed for a silver tea and coffee service, to be presented to Mr. Joseph Wightman, of Three Rivers, Nova Scotia, in acknowledgment of the important service rendered by him to the Malabar, when she struck on the rocks of Cape Bear, Prince Edward Island, on the 19th of October. Mr. Wightman went off to the ship in a small open boat, and piloted her to a place of safety.

STILL LATER. The packet ship George Washington, Capt. Holledge, arrived at New York on Monday, having left Liverpool on the 29th March. We annex the items which the papers furnish.

The Liverpool steamer arrived out on the 25th; same day, Scotland, Charleston, Superior Sea land, Wm. Cary and Clifton from Philadelphia.

There has been no ministry yet formed in France—it is said that the King has so great a personal dislike to Thiers that he never will be in the Cabinet.

IMMENSE. Married, at Mount Vernon, Ohio, on Tuesday morning, the 16th ult. by the Rev. Joseph Maenscher, WILLIAM A. M. BROOKS, Esq. formerly of Prince George's county, Md. to MARY, daughter of Dr. John Ridgely, late of Annapolis, Md.

STRAYED. STRAYED from the subscriber living on the Annapolis and Elk Ridge Rail Road about six miles from Annapolis, on Sunday last the 21st April, a dun coloured MARE, with a black stripe down her back, and a black mane and tail, about six years old, a stout fourteen and a half hands high, trots and canters. A reward of Five Dollars will be given to any person who will deliver the said Mare to me, or leave her at Mr. Leonard's stable.

your city, and at New York, and with which I hope to see you in safety. I have the honor to be, sir, with great respect, your obedient servant, M. BURROUGH. James W. Brodlove, Esq. Collector of the Customs, New Orleans.

STILL LATER FROM VERA CRUZ. The Captain of the burque Timamara, who left Vera Cruz on the 13th inst. reports that the French fleet, (including Admiral Baudin's ship) excepting five vessels, were to sail from Vera Cruz on the same day, touching at Tampico and Havana. The English squadron still remained watching the movements of General Mexia's troops, who were reported about fifteen leagues north of that port—the British Commodore's ship Madagascar, having taken on board the specie and valuables of British subjects and foreigners of any nation who desired that their property should be thus protected, in case the federal party should land and attack the city.

The loss by the destruction of the Custom House, had been ascertained to be \$1,500,000, which would principally fall upon French and German merchants.

A Condueta from the interior had arrived on the 12th, with \$3,000,000—its destination unknown.

LATE FROM ENGLAND. The packet ship Silvio de Grassi, Capt. Weidhold, arrived at New York on Monday from Havre, via Plymouth, England. Capt. W. sailed from Havre on the 10th of March and from Plymouth on the 25th.

The Editors of the Commercial Advertiser are indebted to Capt. Weidhold for the London Chronicle of March 21st and Plymouth papers of 23d.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity.

The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a measure calculated to relieve government from the contingencies to which its connection with Banks renders it liable—one which will ensure stability and uniformity in its fiscal action, and reduce the political influence of the Executive over a league of deposit Banks, to the mere power of appointing the few officers necessary to carry out the system.

But while the Treasury System will be supported as a judicious fiscal measure, Banking Institutions will not be opposed. On the contrary their interests—with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the country.

Such is the outline of the doctrines for the advocacy of which the new paper is to be commenced, and to the defence and vindication of which the Editors pledge their best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zeal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presidency, as one who has proved himself eminently qualified to uphold and defend them and insure their unobscured action.

It is believed the Post and Transcript will not be found an unworthy coadjutor of the democratic paper already engaged in the cause in this city.

On the subject of State politics the paper will advocate a judicious reform, consonant with the spirit and principles of our republican institutions. Aware of the great caution and deliberation with which this subject should be approached, it will nevertheless fearlessly advocate such changes as our own experience has convinced us to be necessary, or such as the history of other States in the confederacy has taught to be wise and salutary.

The all important subject of Internal Improvement will be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early completion of the great works in which the State is already so deeply interested, will be urged as positively necessary to preserve unimpaired the public faith and to secure the true and permanent prosperity of our City and State.

II. COMMERCE.—The commercial department of the paper will be attended to with the utmost care, and no effort will be spared to render the information relative to foreign, domestic and local markets, and the general state of trade, full and satisfactory.

III. AGRICULTURE.—This important subject will receive more attention than has usually been paid to it in similar publications; and besides detailing facts of importance to the farmer and planter, it is intended to discuss the principles of agricultural economy and to claim for the husbandman that station as a citizen and an important producing agent, to which his independence and labours entitle him.

IV. THE ARTS, both fine and mechanical, will have their appropriate department, and such discussion will be entered into as will tend to evolve the true principles upon which both are founded and to foster the efforts of native genius and skill rather than of foreign ingenuity.

V. LITERATURE AND NEWS.—The Post and Transcript will aim at nourishing a sound and pure literary taste, and at the same time will endeavour to equal the best of its contemporaries in judicious selections and in the promptitude, accuracy and extent of its general intelligence, foreign and domestic.

The first number will be issued in the course of the present month, after which it will be regularly continued. It is desirable that the names of subscribers be returned as speedily as possible to the Publisher.

TERMS.—The Post and Transcript will be of the largest class of newspapers—the Daily at \$3, and the Tri-Weekly at \$5 per annum, payable in advance, unguaranteed in the city.

PROSPECTUS For publishing in the City of Baltimore a Daily and Tri-Weekly Paper to be called the BALTIMORE POST AND COMMERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

I. POLITICS.—The Post and Transcript will be the firm and undeviating advocate of the doctrines of democratic republicanism, which constitute the fundamental elements of our social and political system.

As this declaration imports, on the great question of National Politics, the paper will be of the "strict constructionist" school, maintaining that the action of those powers which are specifically enumerated in the constitution, it will consequently oppose the measures of those, who by a loose interpretation of this MAGNA CHARTA of our liberties, seek the establishment of schemes subversive of the principles upon which the fair fabric of our government is reared, and which, on checked, tend to confusion and anarchy from which relief can be found but in despotism.

Among these schemes, regarded as of obviously dangerous tendency, is that of a National Bank, which, however harmless or useful it might be in the full strength and unanimity of the republic, would, in a period of danger, its branches penetrating every part of the country, and in the words of J. Truett, "acting by command and in phalanx,"—have power to interfere serious and alarming obstacles to the operations of government.

The assumption of the right to impose a tariff beyond the duties necessary to supply the constitutional wants of government; the appropriation of the public money upon schemes of internal improvement, and the interference of government with the domestic institutions of the States, particularly with the institution of Slavery, will be equally opposed as encroachments upon the constitution and upon the rights of States.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity.

The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a measure calculated to relieve government from the contingencies to which its connection with Banks renders it liable—one which will ensure stability and uniformity in its fiscal action, and reduce the political influence of the Executive over a league of deposit Banks, to the mere power of appointing the few officers necessary to carry out the system.

But while the Treasury System will be supported as a judicious fiscal measure, Banking Institutions will not be opposed. On the contrary their interests—with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the country.

Such is the outline of the doctrines for the advocacy of which the new paper is to be commenced, and to the defence and vindication of which the Editors pledge their best support. ON LOW SPIRITS. Low spirits is a certain state of the mind, accompanied by indolence, wherein the powers of the mind are prostrated upon the slightest ground, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular spots of the abdomen technically called hypochondria, which are situated on the right and left sides of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are, flatulency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance, or engaging in anything that demands vigour or courage. Also languishing—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are so often to this affliction as the weak.

Cause. A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some natural excretory, (as the obstruction of the menstrual long continued eruption, relaxation or debility of one or more important organs within the abdomen is a frequent cause.

Treatment. The principal objects of treatment are, to remove indolence, strengthen the body, and enervate the spirits, which may be promoted by exercise, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' aperient Pills, which are certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti-spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

A REAL BLESSING TO MOTHERS. DR. W. EVANS' Celebrated Soothing Syrup, for Children Cutting their Teeth. This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in their nursery where there are young children, for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &c.

THE BARON VON HUTCHELER HERB PILLS. These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse of strength to the arterial system; the blood is quickened and equalized throughout all the vessels, the circulation is restored to the skin, the parts situated internally, and the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalant, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthful state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives, will appear a blessing, and not (as too many who have neglected their constitutions, or had them injured by medicines administered by ignorance) a source of misery and affliction.

These Pills are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, thro' the pores of the skin, and the use of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the Herb Pills, always remembering that while the evacuations from the bowels are kept up, the excretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate disease; but in such cases the dose may be augmented, according to the quantity of the disease. The Pills being admirably adapted to the constitution, that they may be taken at all times.

In all cases of Hypochondriasis, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Head Aches, St. Vitus's Dance, Indigestion, Loss of Appetite, Flatulency, Heartburn, General Debility, Bilious Weakness, Chlorosis or Green Sickness, Flatulent or Hysterical Fits, Hysterics, Headache, Hiccup, Sea Sickness, Night Mare, Gout, Rheumatism, Asthma, The Dropsical Swellings, Spasms, St. Andrew's Agony, and those who are victims to that most execrable disorder, Gout, will find relief from their sufferings, by a course of the Herb Pills.

Nausea, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dimness or Obscurity of Sight, Swelling of the Feet, Swelling of the Neck and Head, Cholic, Tremor, Watchings, Anger, Anxiety, Bad Dreams, Spasms, will in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous evils to females is at the change of life; and it is then they require a medicine which will so invigorate their circulation, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron Von Hutcheler Herb Pills.

Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and enliven the imagination.

When the Nervous System has been too largely drawn upon, or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.

DIRECTIONS. Baron Von Hutcheler Herb Pills are to be taken in the morning and night, when the Stomach is full or the Bowels empty, by a child three or four times a day. The dose may be from three to twelve, or more, night and morning.

General Depot for the sale of the Baron Von Hutcheler Herb Pills, 100 Chatham St. New York.

The following are among many cures performed by the superior efficacy of Baron Von Hutcheler Herb Pills: Liver Complaint, five years standing. Mrs. Phelps Morris, of North Sixth street, Williamsburg, afflicted for the last five years with Liver Complaint, was completely restored to health by the use of Baron Von Hutcheler Herb Pills. Symptoms: habit-

al constiveness, total loss of appetite, constant pain in the right side, great depression of spirits; could not lie in bed only on the right side, disturbed sleep, dimness of sight, urine high coloured, pain under the right shoulder blade, languor, lassitude, with other symptoms indicating a diseased state of the Liver.

She was attended by three of the most eminent physicians, but found only temporary relief, until she procured some of Baron Von Hutcheler Herb Pills, which effectually relieved her of all the above distressing symptoms, and says she is perfectly cured.

Dyspepsia, five years standing. Mr. John Sutherland, of 608 Water street, had been severely afflicted with dyspepsia for five years, with the following distressing symptoms: sickness at the stomach, headache, dizziness, flatulency, palpitation of the heart, great distress at the pit of the stomach after eating, great fullness, acrid eructations, coldness and weakness of the extremities, emaciation, heartburn, disturbed rest, frightful dreams, flying pains in the chest, and being so constituted, that for society or conversation, great lassitude upon the least exercise, and completely unable to attend to any business. Had applied to many eminent physicians, but could find no relief, and despaired of ever being cured. Was advised by a friend to make use of Baron Von Hutcheler Herb Pills, the first dose of which gave him great relief, and by persevering in taking the pills, according to the directions, for six months, was perfectly restored to health and the enjoyment of his family and friends.

Dyspepsia, eight years standing, cured by the use of the celebrated Baron Von Hutcheler Herb Pills. Captain J. Davis, of the ship William, was labouring under the following symptoms: violent pain in the stomach after eating, great pain in the head, vomiting up all his food, heartburn, dizziness, violent palpitation of the heart, great nervous irritability, spasms, great labour and distress, and so debilitated as to be unable to attend to any business; could find no relief until after he commenced using Baron Von Hutcheler Herb Pills, from which he found great relief in a few days, and in a few weeks was perfectly cured, and recommends every person similarly afflicted, to immediately commence using the Herb Pills.

Cure of Nervous and Bilious Affection. TAKE NOTICE.—Mr. Elias Shafer, of the town of Westerlo, county of Albany, was for above 27 years troubled with a nervous and bilious affection, which for 7 years rendered him unable to attend to business, and during the last three years of his illness was confined to the house. His symptoms were dizziness, pain in the head and side, palpitation of the heart, want of appetite, &c. After expending during his confinement, nearly three hundred dollars, without obtaining any permanent relief, he by accident noticed an advertisement of Baron Von Hutcheler Herb Pills, and was consequently induced to make a trial of them. After using them about a fortnight, he was able to walk out; in four months he could attend to business, and considered his disease entirely removed. The above information was given to the subscriber by Mr. Shafer himself; there can, therefore, be no deception.

WASHINGTON.

SUBSCRIPTION TO THE SIXTH VOLUME OF THE CULTIVATOR, CONDUCTED BY J. BUEL, of Albany.

IN presenting our subscription for the sixth volume of the Cultivator, the Conductor avails himself of the opportunity of tendering his thanks to the gentlemen, whose voluntary exertions have given to this paper a circulation almost unprecedented in our country—and particularly to the numerous correspondents whose communications have enriched its columns. We respectfully invite the continued co-operation of both classes, as an efficient mode of promoting useful improvement, and advancing the prosperity of our country. The plan and price of the Cultivator will remain as they are; but as the publication can only be sustained by a large circulation and prompt payments, much will depend upon the voluntary aid which we expect, and upon the subscriptions being promptly paid in advance.

The Cultivator will continue to treat of the science of agriculture, to furnish instructions for the best modes of practice in all the departments of husbandry, in horticulture, and other rural affairs, and to give useful lessons for the improvement of the young mind. The Conductor will endeavour to render it a present help, and a volume of useful reference, to all who have the ambition to distinguish themselves in rural labours and rural improvements—to help themselves and to benefit society.

To meet the public demands, we have published a new edition of our four first volumes, which may be had, stitched, at 50 cents per vol. All papers stopped at the end of the volume, in February, unless the subscription is renewed.

Subscriptions to the above work, received by A. COWAN, Annapolis.
