## AMERICAN PHRENOLOGICAL

whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even caudid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible. most inexhaustible.

releasion and to suddents at the first which cals of the day.

The work will be furnished to subscript a subscript of the work will be furnished to subscript of the work will be subscript of the work will be subscript of the work will be su are advocated in the various institutions of nedical science throughout the world; and bers at 82 per annum for a single copy; S. those bearings may be pointed out. It is true that some newspapers, and also of cor two works of a less ephemeral charter do occasionally admit articles in favour of phrenology: but these do not meet the present ne-cessity. A periodical which is avowedly vhrenological—one, whose pages shall constitute a permanent depository of facts, and pinions and the record of principles connected with those facts, is now needed; and a every case, be paid.

strong feeling of this necessity, together with Subscriptions, and letters of business, strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement present the prospectus of "The American Phresiological Journal and Miscellany."

The ebject of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral;) on the Medical Treatment of the Insane; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to areast object in giving it existence is, to areast Phrenology out of the hands of those wind, in ignorance of its true nature and teallencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation .-A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as. also, will honest and respectful objectors to Phrenology. But the captious and cavillers will ensure to themselves our silent contempt; cach week, for the and the ignorant pretender, who seeks to overthrow a science which he will not be at the pains to investigate, may expect a merit-

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfacthem, in all cases in which we have satisfac-tory vouchers for their genuineness; and in which all the facts in the several cases are ters of administration de bonis non on the which all the facts in the several cases are furnished to us. But as we must form our personal estate of Jonathan Sappington, late own judgment of the cerebral developement of Anne-Aruddel county, deceased. All ons, it is obvious that we cannot receive, in teased, and hereof, to the subthese instances, the opinions of non-phreno-logical writers, as to before the 12th day of Sepbogical or anti-phrenological writers, as to tember nfxt, they may otherwise by law be the degree in which the several organs are developed—we must, in every such case, see excluded from all benefit of the said estate.

The Journal of the American Silk Society and American Silk society to gainst the said deceased, and that the saine be published once in each week, for the space of five subscribers where the paper is forwarded to one address. To clubs of two individuals, the very such case, see excluded from all benefit of the said estate. The Journal of the American Silk Society will be published once in each week, for the said estate, of six successive weeks, in one of the news-to-published once in each number will contain their sains.

The Journal of the American Silk Society will be published once in each number will contain their sains.

The price will be two dollars to clubs of five subscribers where the paper is forwarded to one address. To clubs of two individuals, five dollars; single mail subscribers, three the head or skull, or a cast of it, properi certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and im-

BATTEE & LOWE

HIW TO JOURNAL ST AMERICAN SILK SOCIETY RURAL ECONOMIST.

A T a Convention which met at Baltimore on the 11th of December last; composed of a great number of gentlemen from va. rious parts of the Union, distinguished for their public services, patriotism, and practi-cal intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion N presenting our subscription for the sixth of this Convention that Silk may be grown in all the United States, not only for domestic purposes, but as a valuable article of commercial export—thereby siving a commercial export. of this Convention that Silk may be grown in all the United States, not only for domesmercial export—thereby giving an active emannually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal

ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. SRIMREN, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so-se far as may be consistent with the strict performance of his public du-

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may vet be apprehended, in the prosecution of the silk culture, as a great branch of A. merican industry, were fully considered; and now, in the words of the resolution, Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export.' The suitableness of our soil and climate to the growth and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process, and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted to us, as to our English ancestry, an omni-verous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in ages, where all is dull conformity nal to concentrate and diffuse every ray of

helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national

ndependence. Though SILK, and every thing connected with its production; and all improvements in machinery for its preparation and manufac-ture, will constitute the chief design and aim of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of agriculture, horticulture, and rural and domestie economy .-

CERTIFICATES.

CERTIFICATES.

IT MORE CONCLUSIVE PROOFS of the extraordinary efficacy of Dr. WM. EVANS' celebrated CANOMILE and APERIENT ANTI-BILIOUS PILLS, in alleviating afflicted mankind.—Mr. Robert Cameron, 101 Bowers. Disease, Chronic Dysrntery, or Bloody Flux. Symptoms, unusual flatulency in the bowels. severe griping, frequent inclination to go to stool, tenesmus, loss of appetite, nausea, vomiting, frequenty of pulse, and a frequent discharge of a peculiarly fortid matter, mixed with blood, great debility, sense of burning heat, with an intolerable bearing down of the parts. Mr. Cameron is enjoying perfect health, and returned his sincero thanks for the extraordinary benefit he had received.

ASTIMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, af. flicted with the above distressing malady. Symptoms: Great languor, flattleney, disturbed rest, nervous lecalache, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and rest. lessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, coetiveness, pain of the stomach, drowsiness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by Dr. Wm. Evens' Medicine in his complaint, which induced him to purchase a package of the Pills, which resulted in completely removing every symptom of his disease. He wishes to say his motive for this declaration is, that those afflicted with the same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

CLIVER COMPLAINT, TEN YEARS' STANDING.—Mrs. Hannah Browne, wife of Joseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of Dr. Wm. Erans. Symptoms: Habitual constipation of the bowels, total loss of appetite, exeruciating pain of the epigastric region, great depression of spirits, langour and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the functions of the liver.

the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr. Wm. Evans invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.

I'ETER PINCKNEY, Com. of Deeds.

A CASE OF TIC DOLOREUX. A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt, Joseph Johnson, of Lynn, Mass, was severely afflicted for ten years with Tie Doloreux, violent pain in her head, and vomiting, with a burning heat in the stomach, and unable to leave her room. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chntham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's Store, 389 Grand st. N. Y.

A perfect cure effected by the treatment of Dr. W. Eceas. Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three
years and nine months; during which time, he had to
use crutches. His chief symptoms were excruciating
pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the
external heat, an obvious thickening of the fascia and
ligaments, with a complete loss of muscular power.
For the benefit of those afflicted in a similar manner,
Mr. Gibson conceives it most to say that the pains have
entirely ceased, and that his joints have completely recovered their natural tone, and he feels able to resume
his ordinary business. PARALYTIC RHEUMATISM.—

sight, could not lie on her right side, ter inability of engaging in any this vigour or courage, sometimes a vision gravation of her disease, a whimsical cular persons and places, groundles personal danger and poverty, an irks riness of his, discontented, disquiette occasion, she conceived she could me she wept, lamented, desponded, and most miserable life, never was any or quent mental hallucinations.

Mr. Kenny had the advice of seve cians, and had recourse to numere could not obtain even temporary alle tressing state, till her husband perstrial of my mode of treatment.

She is now quite relieved, and fine capable of attending to her domestic that she enjoys as good health at pany period of her existence.
