AMERICAN PHRENOLOGICAL

the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriwhich occur, and all the new theories which are advocated in the various institutions of divinity, and law, there is no publication which, as the appropriate channel, true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phreoccasionally admit articles in layour ophre-nology: but these do not meet the present ne-cessity. A periodical which is avowedly phrenological—one, whose pages shall con-stitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively dewhether that such a work is extensively de-manded, and wift meet with encouragement and support, has induced the publisher to present the prospectus of NThe American Phrenological Journal and Miscellany." Walder.

Waldersed to the publisher, Adam Walders, 46 Carpenter-street, Philadelphia, and communications for the work to the Edi-ron of the Am. Phren. Jours, care of A.

show the true bearings of this science on Education, (physical, intellectual, and moral;) on the Medical Treatment of the Insurac; on Jurisprudence; on Theology, and Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is honed, be found inconsiderable. illustrative of the truth of phrenology; to be sent for one year. it is hoped, be found inconsiderable. religious character of the work will

be decidedly evangelical: for one prominent wealed religion, and loosen the bonds of hu-man accountability, and moral obligation.— A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology.

And on the subject of the religious bearings of our science we respectfully solicit the enof cur science we respectfully solutions, not of cavillers, but quiries and objections, not of cavillers, but of the truly candid, and the conscientiously phrey, Administrator de bonis non of fearful. Such correspondents we shall all Jonathan Sappington, late of Anne-Arundel of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as, also, will honest and respectful objectors to Phrenology. But the captious and cavillers will appare to themselves our silest converted. to themselves our silent contempt; and the ignorant pretender, who seeks to o-weeks, in one of the newspipers printed in verthrow a science which he will not be at the pains to investigate, may expect a merit-

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfacthese instances, the opinions of non-phrenological cr anti-phrenological writers, as to the degree in which the several organs are developed—we must, in every such case, see the head or skull, or a cast of it, properly certified to be true to nature.

JOURNAL TOTAL OF THE AMERICAN SILK SOCIETY RURAL ECONOMIST.

Ta Convention which met at Baltimer on the 11th of December last, comps, ed of a great number of gentlemen from the rious parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolution were unanimously adopted:

Resolved, That it is the deliberate oping

of this Convention that Silk may be great in all the United States, not only for done. silken goods.

Resolved, That a National Silk Journ

ought to be established under the auspices the Executive Committee, and all the fuel over and above the support of said pur-ought to be devoted to the advancement of the silk cause in the United States. Under the latter resolution, J. S. Skings

postmaster, of Baltimore, was invited to be. come the editor of the work, and has consented to do so-so far as may be consisten with the strict performance of his public de

In the course of the discussions which too place in the Convention, all the difficultier may vet be apprehended, in the prosecution inay yet be apprenented, in the prosecution of the silk culture, as a great branch of merican industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, Silt article of commercial export. The stin-bleness of our soil and climate to the great and health of the worm, and the trees shid the business through its whole process, and the business through the abour as compand the price of American labour as compand with that of silk-producing countries, a were fully canvassed, and the most sceptice became satisfied. The fact is, that our many liscussion of various and discordant doc trines, religious and political, has imparted to us, as to our English ancestry, an omiverous appetite for knowledge, and a capaci ty to learn in a few years what cannot be acquired in ages, where all is dull conformit nd routine of thought and of action! The has it happened in manufactures as in other prejudice or law, has triumphed over difficulties apparently insurmountable! How long dle was put in motion before Yankee Lorells' were sold at a profit in China? So willi be with silk. The only question is as to low long it shall take us? With a monthly jour floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in our own day, the hear that indolence and want of concert may process tinate, but which nothing short of Turkis

Let all then who may feel any concerns or as patriots willing to offer suitable occup helpless, come forward in support of a wer to be faithfully and honestly devoted to the objects of private happiness, and of nation

idependence.

Though Silk, and every thing cornecte with its production; and all improvements it machinery for its preparation and manufacture, will constitute the chief design and manufacture. of the journal, for the sake of agreeableand useful variety, a considerable portion of it pages will be dedicated to the justly topals and kindred subjects of agriculture, hard culture, and rural and domestic economy.
