A WEDDING CAKE.

The cake made in commemoration of the mar-riage of the Marquis of Duoro, eldest son of the Duke of Wellington, with lady E. Hay, is the largest known for some years past, it weighing upwards of 100 lbs, and decorated with the armorials of the noble families of Wellesly and

The affair of Lady Flora Hastings continued a subject of remark and discussion. Her brother, the Marquis, had written and published a long and very severe letter to Lord Melbourne, demanding the immediate dismissal of his sister's slanderers—said to be Ladies Portman and Tavistock and Sir James Clark-and his mother the downger Marchioness had also written to the Queen, urging and finally insisting on the discovery and public disgrace of her daughter's maligners. To the first letter, Lord Melbours replied, by order of the Queen, declaring her Majesty's anxious wish to do every thing in her power to sooth the feelings of Lady Flora and er family; but on the dismissal of Sir James Clark being again peremptorily demanded, his lordship replied that the demand was so unpre-cedented and objectionable, that even his high respect for the Marchioness and her family would permit him to do nothing more than ac-

knowledge the receipt of her letter. The opposition papers, as may be supposed make a terrible to do about this untoward affair; and the very thin attendance at the Queen's first drawingroom for the season, was ascribed to the disgust it had excited among the nobility.

The Queen, poor girl, was doing all she could to make atonement to Lady Flora: inviting her frequently to the royal dinner parties, and espressly desiring that she should receive the Sa crament with herself on Easter Sunday. Lady Portman is a daughter of the Earl of llarewood -Lady Tavistock is sister-in-law to Lord John Russell.

Reports reached Bayonne of an engagement between Cabrera and Van Halen on the 9th, near Segura, but the particulars were not known. It is rather curious that the Christinos and Carlists suspect their respective Generals of treachery. The ruin of Cabrera is all that is wanted to leave Maroto master of the fate of Spain.

Property of Baltimore a Dalig and Tri-Westly Paper to be call-at the BALTIMORE POST AND COM-MERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

1. POLITICS.—The Post and Transcript will be the first the underisting advocate of the deciriose of DEMOCRATIC REPUBLICATION, which constitute the funda-mental elements of our social and political system. As mental stements of our social and positives systems. At this declaration imports, on the great question of Na-tional Politics, the paper will be of the "strict con-structionist" school, maintaining that the action of Go-vernment should be limited to the exercise of those powers which are specifically enumerated in the constitution. It will consequently oppose the measures of those, who by a loose interpretation of this MAGNA CHARTA of our liberties, seek the establishment of chemes subversive of the principles upon which the fair Chrie of our government is reared, and which, unchecked, tend to confusion and anarchy from which no

relief can be found but in despotism.

Among these schemes, regarded as of obtionaly dangerous tendency, is that of a National Bank, which, however harmless or useful it might be in the full strength and unanimity of the republic, would, in a period of danger, -its branches penetrating every part of the country, and in the words of Jefferson, by command and in phalanx,"—have power to inter-

government.

The assumption of the right to impose a tariff beyoud the duties necessary to supply the constitutional wants of government; the appropriation of the public noney upon schemes of internal improvement, and the money upon schemes of internal improvement, and the interference of government with the domestic institutions of the States, particularly with the institution of Slavery, will be equally opposed as oneroschments upon the constitution and upon the rights of States.

on the constitution and upon the rights of States.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity. The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a measure calculated to relieve guaranteer from the conmeasure calculated to relieve government from the conmeasure calculated to reneve government from the con-tingencies to which its connection with Banks renders it liable—one which will insure stability and uniformity in its fiscal action, and reduce the potent influence of the Executive over a league of deposite Banks, to the mere power of spotenting the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Bank. ing Institutions will not be opposed. On the contrary their interests-with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the

country.

Such is the outline of the doctrines for the advocacy of which the new paper is to be commenced, and to the detence and vindication of which the Epiroa pledges his best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zoal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presiden. cy, as one who has proved himself eminently qualified to uphold and defend them and insure their unembarrassed action. It is believed the Post and Transcript will not be found an unworthy co-adjutor of the demo-cratic paper already engaged in the cause in this city.

On the subject of State politics the paper will advo-cate a judicious reform, consonant with the spirit and

principles of our republican institutions. Aware of the great caution and deliberation with which this subject should be approached, it will nevertheless fearlessly advocate such changes as our own experience has convinced us to be necessary, or such as the history of other States in the confedracy has taught to be wise and salutary.

The all important subject of Internal Improvement

will be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early completion of the great works in which the State is al-ready so deeply interested, will be urged as positively necessary to preserve unimpaired the public faith and to secure the true and permanent prosperity of our City

and State.

II. COMMERCE.—The commercial department of the paper will be attended to with the utmost care, and no effort will be spared to render the information rela. tive to foreign; domestic and local markets, and the ge-neral state of trade, full and satisfactory.

THAT the subscriber of Anne-Arundel will receive more attention than has usually been pard to it in similar publications; and besides detailing facts of Anne Arundel county, in Mary-letters of administration up the person III. AGRICULTURE.—This important subject to claim for the husbandman that station as a and an important producing agent, to which his inde-pendence and labours entitle him.

IV. The ARTS, both fine and mechanical, will have ples upon which both are founded and to foster the efforts of native genius and skill rather than of foreign ingenuity.

V. LITERATURE AND NEWS .- The Post and Transcript will aim at nourishing a sound and pure literary taste, and at the same time will endeavour to equal the best of its cotemporaries in judicious selec-tions and in the promptitude, accuracy and extent of its general intelligence, foreign and don
