

Prospect publishing in the City of Baltimore a daily and Tri-Weekly Paper to be called the BALTIMORE POST AND COMMERCIAL TRANSCRIPT.

Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

POLITICS.—The Post and Transcript will be firm and undeviating advocate of the doctrine of organic structure, which constitute the fundamental elements of our social and political system. A declaration imports, on the great question of National Politics, the paper will be of the "strict construction" school, maintaining that the action of Congress should be limited to the exercise of those powers which are specifically enumerated in the constitution. It will consequently oppose the measures of the Executive, who by a loose interpretation of the constitution, seek the establishment of a new fabric of our government in regard, and which, we are confident, can be found but in despotism.

The assumption of the right to impose a tariff is a duty necessary to supply the constitutional duties of government; the appropriation of the public moneys upon schemes of internal improvement, and the interference of government with the domestic industry of the States, particularly with the institution of slavery, will be equally opposed as encroachments upon the constitution and upon the rights of States. The liability of the Banks to periodical convulsions, their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the operations of Government one of obvious necessity. The Post and Transcript will therefore advocate a reformation of the Bank system, as a measure calculated to relieve government from the contingencies to which its connection with Banks renders it liable—one which will insure stability and uniformity in its action, and reduce the potential influence of the Executive over a league of deposit Banks, to the mere power of appointing the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Bank Institutions will not be opposed. On the contrary, our interests—with such checks as are calculated to cure the object of their creation, will be supported as essential to the property and advancement of the country.

Such is the outline of the doctrine for the advocacy which the new paper is to be commenced, and to the absence and vindication of which the Editor pledges his best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zeal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presidency, as one who has proved himself eminently qualified to uphold and defend them and insure their unobscured action. It is believed the Post and Transcript will not be found an unworthy coadjutor of the democratic paper already engaged in the cause in this city.

On the subject of State politics the paper will advocate a judicious reform, consonant with the spirit and principles of our republican institutions. Aware of the great caution and deliberation with which this subject should be approached, it will nevertheless fearlessly advocate such changes as our own experience has convinced us to be necessary, or such as the history of other States in the confederacy has taught to be wise and salutary.

The all important subject of Internal Improvement will be earnestly pressed upon the public attention, the great necessity of a vigorous prosecution and early completion of the great works which the State is already so deeply interested in will be urged as positively necessary to unimpair the public faith and to secure the true and permanent prosperity of our City and State.

II. COMMERCE.—The commercial department of the paper will be attended to with the utmost care, and no effort will be spared to render the information relative to foreign, domestic and local markets, and the general state of trade, full and satisfactory.

III. AGRICULTURE.—This important subject will receive more attention than has usually been paid to it in similar publications; and besides detailing facts of importance to the farmer and planter, it is intended to discuss the principles of agricultural economy and to claim for the husbandman that station as a citizen and an important producing agent, to which his independence and labours entitle him.

IV. THE ARTS, both fine and mechanical, will have their appropriate department, and such discussion will be entered into as will tend to evolve the true principles upon which both are founded and to foster the efforts of native genius and skill rather than of foreign ingenuity.

V. LITERATURE AND NEWS.—The Post and Transcript will aim at nourishing a sound and pure literary taste, and at the same time will endeavor to equal the best of its contemporaries in judicious selections and in the promptitude, accuracy and extent of its general intelligence, foreign and domestic.

The first number will be issued in the course of the present month, after which it will be regularly continued. It is desirable that the names of subscribers be returned as speedily as possible to the Publisher.

TERMS.—The Post and Transcript will be of the largest class of newspapers—the DAILY at \$6, and the Tri-Weekly at \$5 per annum, payable in advance, as guaranteed in the city.

All letters must be addressed to S. P. SKINNER, Editor Post and Transcript, Baltimore, Md. Those containing remittances may be forwarded at the expense of the publisher; all others, must be paid.

She could find no relief from any kind of universal physicians, not from medicines of any kind, until she had commenced using Dr. Evans' medicine, and from that time she began to mend, and finally cured, and she continued the medicine a few days longer, with perfect cure.
