OF THE AMERICAN PHRENOLOGICAL

JOURNAL & MISCELLANY. the American continent a single periodical whose object is to advocate its truths, repel the attractions of the work be thus the attacks made upon it, or answer the en-quiries which even candid persons are disposed to make concerning it. And this is the more surp ising since the materials al-ready existing and daily augmenting, with which to enrich such a publication, are al-

which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ophemeral character, do occasionally admit articles in favour of phrenology: but these do not meet the present necessity. A periodical which is avowedly burenological—one, whose pages shall constitute a periodical depository of facts, and which shall be open for the expression of o-pinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with manded, and will meet with encouragement and support, has induced the publisher to present the prespectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and the very numerous facts, confirmatory and illustrative of the truth of phrenology; to show! the true bearings of this science on Education, (physical, intellectual, and morals) on the Medical Treatment of the Insane; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inaonsiderableit is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tenden cies, suppose that they find in it an instruwhich to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.— thinking portion of the community, he does not for a A frequent subject of discussion in our pages moment doubt they will yield him a patronage comwill therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously of the truly candid, and the conscientiously does, so fair a proportion of citizens distinguished for fearful. Such correspondents we shall allows, so fair a proportion of citizens distinguished for Radds;. Queen-Anne's county, John Spentral Control of their talents, integrity and patrolism.

The projector of the project useful undertaking, always be treated with kindness; as, also, will be nest and respectful objectors to Phreside and confident of a liberal support from an enlightened and chester, James Dixon, (Cambridge.) Carotion and bread to the unemployed and the nology. But the captious and cavillers will to themselves our silent contempt; and the ignorant pretender, who seeks to o the pains to investigate, may expect a merit- of useful knowledge.

sire or expectation of gain toat it is offered o the community, but from moral coasiderations: from a desire to know and to promulgate truth. Hence should a large subscription list be obtained, a considerable propor-tion of the profits will be devoted to the en-It is a remarkable lact, that while the contract to the belief that Phrenology is true, have, without a few years, most astonishingly multiplied, there does not exist on the Approximation, and the Approximation and the A

TERMS.

1. The American Phrenological Journal and Miscellany will be issued monthly, commencing on the 2d of October next.

2. Each number will contain at least \$2

cals of the day.
3. The work will be furnished to subscri-

bers at 82 per annum for a single copy; 85 (eurrent in Philadelphia or New York) for THREE copies, or \$10 (current as above) for SEVEN copies sent to one address. To Clergymen and Theological Students, single copies will be furnished at \$1 50 per annum; and to companies of eight or more of such, it will be reduced to \$1 25 per copy, if sent to one address, and the subscription forwar-ded to the publisher free of expense. A CASE OF TIC DOLOREUX.

A CASE OF TIC DOLOREUX.

Mrs. J. E. Johnson, wife of Capt. Joseph Johnson, of Lyns, Mass. was severely afflicted for ten years with Tre Doloreux, violent pain in her head, and vomiting, with a burning heat in the stemach, and unable to leave her recom. She could find no relief from the advice of several physicians, nor from medicines of any kind, until after she had commenced using Dr. Evans' medicine, of 100 Chutham street, and from that time she began to amend, and feels satisfied if she continue the medicine a few days longer, will be perfectly cured. Reference can be had as to the truth of the above, by calling at Mrs. Johnson's daughter's Store, 389 Grand st. N. Y.

PARALYTIC RHEUMATISM.-A perfect cure effected by the treatment of Dr. W. E. tess. Mr. John Gibson, of North Fourth street, Williamsburgh, afflicted with the above complaint for three year and nine months; during which time he had to use curches. His chief symptoms were occruciating pain in all his joints, but especially in the hip, shoulder, knees and ankles; an aggravation of the pain towards night; and for the most part all times from the curenal heat, an obvious thickening of the fascia and figurents, with a complete loss of muscular power.—For the benefit of those afflicted in a similar manner, Mr. Gibson conceives it meet to say that the pains have entirely essend, and that his joints have completely recovered their natural tone, and he feels able to resume his estimaty business.

If Mrs. Anne F. Kenny, No. IIS Lewis street, between Stanton and Hession ata, afficted for ten years meet with p with the following distracting symptoms: Acid executions, and flavoured pains in the heat loss of appealite, palpitation of her heat giddiness and distances of May 23
