AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

T' is a remarkable fact, that while the converts to the belief that Phrenology is the attacks made upon it, or answer the ensed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts hich occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology; but these do not meet the present ne ecssity. A periodical which is avowedly vhrenological—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively deand support, his induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellany."

illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and morals) on the Medical Treatment of the In sune; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable. The religious character of the work will

be decidedly evangelical: for one prominent object in giving it existence is, to wres Phrenology out of the hands of those, who, in ignorance of its true nature and tendensuppose that they find in it an instru-by which to subvert the truths of revealed religion, and loosen the bonds of hu-man accountability, and moral obligation.— A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will their talents, integrity and patriotism. always be treated with kindness; as also, will honest and respectful objectors to Phre-uology. But the captious and cavillers will the pains to investigate, may expect a merit-

As our object is the establishment of which are supposed to militate against Phrenology; and we pledge ourselves to publish tory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phreno-logical or anti-phrenological writers, as to the degree in which the several organs are developed-we must, in every such case, see the head or skull, or a cast of it, properly certified to be true to nature.

Original Essays on Phrenological subjects tained. will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological gical works: nor shall we fail to present to our readers such matters of interest and im-

for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the de-

sire or expectation of gain that it is offered to the community, but from moral coasiders tions: from a desire to know and to promut gate truth. Hence should a large subscrip tion list be obtained, a considerable proper-tion of the profits will be devoted to the enlargement and improvement of the work, true, have, within a few years, most asto-nishingly multiplied, there does not exist on scribers. More frequent illustrations and he American continent a single periodical embellishments will, in that case, be insertwhose object is to advocate its truths, repel ed, and the attractions of the work be thus multiplied.

TERMS.

JOURNAL AMERICAN SHE SOCIETY RURAL ECONOMIST.

Ta Convention which met at Baltimor on the 11th of December last, compo ed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions were unanimously adopted:

Resolved, That it is the deliberate opinion of this Convention that Silk may be grown in all the United States, not only for domes-tic purposes, but as a valuable article of com-mercial export—thereby giving an active em-ployment to American labour, and retaining millions of dollars in our country, that ar annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal

ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States.

Under the latter resolution, J. S. SKINNER. postmaster, of Baltimore, was invited to be-come the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public du-

In the course of the discussions which took

place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the silk culture, as a great branch of Aincrican industry, were fully considered; and the result was an universal conviction that now, in the words of the resolution, Silk may be grown in the United States, not ondomestic purposes, but as a valuable article of commercial export.? The suita-bleness of our soil and climate to the growth and health of the worm, and the trees supply its food; the capabilities, the habits. and the genius of our people for conducting the business through its whole process, and the price of American labour as compared that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our unrestrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted to us, as to our English ancestry, an omniverous appetite for knowledge, and a capacity to learn in a few years what cannot be acquired in ages, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other things; American ingenuity, unrestrained by prejudice or law, has triumphed over difficul-ties apparently insurmountable! How long, may it be asked after our first cotton spinmay it be asked after our first cotton spindily or explain the plan to be adopted, and the prindisplayer at Lourd-Lown, it will be adopted, and the prindisplayer at Lourd-Lown, it will be accounted by the
ciples to be pursued, in its course of publication; and
impressed with the belief it will be approved by the
thinking portion of the community, he does not for a
moment doubt they will yield him a patronage commensurate with the utility of the enterprise.

by publishing in the Chy of Bultimore a Daily and Tyl Weekle Paper to be call. BALTIMORE POST AND COM-MERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

I. POLITICS.—The Post and Transcript will be the firm and undertaking advocate of the detrines of memorrance nervous cantain, which constitute the fund tal elements of our social and political system. A this sectaration imports, on the great question of Ra this declaration imports, on the great question of Re-tional Politics, the paper will be of the "strict ca-structionist" school, maintaining that the steins of Ga-vernment should be limited to the exercise of their powers which are specifically enumerated in the coal-tution. It will consequently oppose the measure of those, who by a loose interpretation of this name change of our liberties, seek the establishment. those, who by a some amount the establishment of causars of our liberties, seek the establishment of schemes subversive of the principles upon which the fair fabric of our government is reared, and which, w. checked, tend to confusion and anarchy from which m

checked, tome to consume and anarchy from which as relief can be found but in despotiess.

Among these schemes, regarded as of elviously dat gerous tendency, is that of a National Bank, which gerous tensency, is man or a reasonal nume. which however harmless or useful it might be in the ful strongth and unanimity of the republic, would, in a period of danger,—its branches penetrating every but of the country, and in the words of Jefferson, pose serious and alarming obstacles to the operations of

yend the duties necessary to supply the constitution wants of government; the appropriation of the public money upon schemes of internal improvement, and the nce of government with the domestic institu Slavery, will be equally opposed as encreachments up

on the constitution and upon the rights of States.

The liability of the Banks to periodical convulsion The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Tressury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the sity. The Post and Transcript will therefore advocate measure calculated to relieve government from the con tingencies to which its connection with Banks readen it liable—one which will insure stability and uniformity in its fecal action, and reduce the potent influence of the Executive over a league of deposite Banks, to the mere power of appointing the few offic ers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Bank. ing Institutions will not be opposed. On the centrary their interests—with such checks as are calculated to secure the object of their creation, will be supported as emential to the prosperity and advancement of the

CERTIFICATES.

CERTIFICATES.

IT MORE CONCLUSIVE PROOFS, of the extractionary efficacy of Dr. W.M. BVANS' celebrated CIMOMILE and APERIENT ANTI-BILLIOUS FILLS, in alloviating afflicted mankind.—Mr. Robert Cameron, 101 Bowery: Disease, Chronic Dysentery, of Bloody Flux. Symptoms, unusual flatulency in the lowels severe griping, frequent inclination to go to sook, tenesmus, loss of appetite, nausea, vouniting, freegency of pulse, and a frequent discharge of a peculisary fettid matter, mixed with blood, great debility, sense of harning heat, with an intolerable bearing down of the parts. Mr. Cameron is enjoying perfect health, as returned his sincere thanks for the extraordinary lessit he had received.

FASTHMA, THREE YEARS' STANDING.—Mr. Robert Monroe, Schuylkill, affected with the above distressing malady. Symptoms: Ureal languor, flatulency, disturbed rest, nervous hoadshe, difficulty of breathing, tightness and stricture across the breast, dizziness, nervous irritability and rest. lessness, could not lie in a horizontal position without the sensation of impending suffocation, palpitation of the heart, distressing cough, constiveness, pain of the stemach, drowniness, great debility and deficiency of the nervous energy. Mr. R. Monroe gave up every thought of recovery, and dire despair sat on the countenance of every person interested in his existence or happiness, till by accident he noticed in a public paper some cures effected by Dr. Wm. Essas Medicine in his complaint, which induced him to purchase a packing of the Fills, which resulted in completely removing every symptom of his disease. He wishes to say his seitre for this declaration is, that those afflicted with he same or any symptoms similar to those from which he is happily restored, may likewise receive the same inestimable benefit.

C LIVER COMPLAINT, TEN LIVER COMPLAINT, TEN YEARS' STANDING.—Nrs. Hannah Browne, wife of loseph Browne, North Sixth st. near Second street, Williamsburg, afflicted for the last ten years with Liver Complaint, restored to health through the treatment of Dr. Wm. Evens. Symptoms: Habitual constipation of the bowels, total loss of appetite, exeruciating pain of the epigastric region, great depression of spirits, language and other symptoms of extreme debility, disturbed sleep, inordinate flow of the menses, pain in the right side, could not lie on her left side without an aggravation of the pain, urine high coloured, with other symptoms indicating great derangement of the finetions of the liver.

Mrs. Browne was attended by three of the first physicians, but received but little relief from their medicine, till Mr. Browne procured some of Dr. Wm. Evans invaluable preparations, which effectually relieved her of the above distressing symptoms, with others, which it is not essential to intimate.
