**CRUELTY TO BRUTES.**  
We saw yesterday, a great livery boy, with strength enough to drag a well-laden cart, driving before him a dog, of rather all size, harnessed to a box on wheels. The contents of the box indicated the occupation of a biped who owned it. He was a vender of action matches, a regular loser of the make-up to something order. All the matches the box would not weigh so much as one of sides, yet the lazy rascal had the impudence to make a poor, half starved dog, carry a burden which the well-fed biped might have borne, in a bag or bundle, on his little finger. He had a great mind to kick the fellow; but it would have been an assault "in extremis," more honored in the breach than the observance, and would have put us decidedly in the wrong. Councillor Gill would not sustain an order Lynch law, we well knew—so we didn't kick the scamp, but we itched to kick him awfully.—Boston Trans.

The True American of the 31st August  
On Saturday last Mr. G. W. Botts buried his eldest son, a lad of 14; on Wednesday he himself carried to the grave, to be immediately followed by his wife, who died in the convulsions of child-birth. Another child still lies with the disease.

We are happy to learn by advices from Tampa, that the party sent by Gen. Taylor, to bury a dead at Carlossahatchi, found Corporal Wood and one Dragon still living, though severely wounded. They had run in opposite directions, and remained hid for several days, neither knowing of the proximity of the other, their sufferings must have been extreme and describable. The bodies of Mr. Dallas, and a clerk, Morgan, were brought to Tampa for interment. Sandy Perryman, the interpreter whom we have before spoken, has atoned for his offences—he was found dead on the ground. The other interpreter, Sampson, and one dragon, were not found.—St. Augustine Herald, 29th ult.

The Philadelphia Herald of Monday has the following notice:—We are requested to state that a Mormon preacher will hold forth this evening at the Commissioners' Hall, Northern Liberties. All who take an interest in becoming acquainted with the views of this class of professors can attend.

There were one hundred and ten cases of yellow fever admitted to the Charity Hospital, New Orleans, during the week ending on the 31st ult. and there were thirty-four deaths.

**A THRESHER ASTRAY.**  
ABOUT the 20th of June last, Messrs. A. G. & W. Smith, of Newark, Delaware, forwarded to Mr. Thomas Hanson's care, of Baltimore, a Thresher belonging to the subscriber's Grain Machine, which had been sent on them for repairs. It is a tooth machine, and the Thresher has no hopper with it. The said Thresher has never come in hand, and it is supposed that it has been forwarded to some other gentleman by mistake. Should this advertisement meet the eye of the person having it in possession, he will much oblige the owner if he will forward it to Baltimore at once, as it is much needed, to the care of Emory & Stevens, Bevel's Wharf.

**Doctor W. EVANS' SOOTHING SYRUP, FOR CHILDREN TEETHING.**  
Prepared by himself.

**TO MOTHERS AND NURSES.**  
The passage of the Teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretion of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts, the child shrieks with extreme violence, and thrusts its fingers into its mouth. If these precursory symptoms are not speedily alleviated, spasmodic convulsions universally supervene, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans' Celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

**A REAL BLESSING TO MOTHERS.**  
Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.  
This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums to open the pores. Parents should use it without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives ease by opening the pores and healing the gums, thereby preventing Convulsions, &c.

**Proves Positive of the Efficacy of Dr. Evans' Soothing Syrup.**  
To the Agent of Dr. Evans' Soothing Syrup: Dear Sir—The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, must convince every feeling parent how essential an early application of such an invaluable medicine is to relieve infant misery and tortures. My infant, while teething, experienced such acute sufferings, that it was attacked with convulsions, and my wife and family supposed that death would soon release the babe from anguish till we procured a bottle of your Syrup; which was so soon applied to the gums, a wonderful change was produced, and after a few applications the child displayed great ease and relief, and by continuing in its use, I am glad to inform you, the child has completely recovered and no recurrence of that awful complaint has since occurred, the teeth are emanating daily and the child enjoys perfect health. I give you my testimony, and will gladly give any information on this circumstance.  
WM. JOHNSON.

A gentleman who has made trial of Dr. W. Evans' Soothing Syrup in his family, writes as follows: "My child, who is now teething, has found it entirely of service in relieving pain in the gums, and preventing the consequences which sometimes follow. We cheerfully comply with his request.—N. York Sun.

We believe it is generally acknowledged by those who have tried it, that the Soothing Syrup for Children Cutting Teeth, advertised in another column, is a highly useful article for the purposes for which it is intended. Highly respectable persons, at any rate, who have made use of it, do not hesitate to give its virtues the sanction of their names. Boston Herald.

**TO SEVERE CASES OF TEETHING, WITH SUMMER COMPLAINT.**  
Cured by the infallible American Soothing Syrup of Dr. W. Evans. Mrs. McPherson, residing at No. 8, Madison street, called a few days since at the medical office of Dr. W. Evans, 109 Chatham street, N. Y., and purchased a bottle of the Syrup for her child, who was suffering excruciating pain during the process of dentition, being momentarily threatened with convulsions, its bowels too were exceedingly loose, and no food could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely ceased, and by continuing the use of the Syrup, the bowels in a short time became quite natural. As a tribute of gratitude for the benefit afforded the child, the mother came of her own accord, and freely sanctioned publicity to the above. Any particular in applying at 109 Chatham street, New York, or occasional dose of the Herb Pills.

One of the most dangerous epochs to females is at the change of life; and it is then they require a medicine which will so invigorated their circulation, and thus strengthen the constitution as may enable them to withstand the shock. This medicine is the Baron Von Hutcherler Herb Pills.  
Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and calve the imagination.  
When the Nervous System has been too largely drawn upon or overtaxed, nothing is better to cure than and invigorate the drooping constitution than these Pills.

**IMPORTANT TO MOTHERS.**—Children generally suffer much uneasiness from cutting their teeth. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly irritated and inflamed condition of the parts—therefore the principal indications of cure are to abate the inflammation, and to soften, soothe, and relax the gums. If that is effected, the infant is freed from the subsequent fever, inflammation, and morbid cough, twitching of tendons, crank, canker, and convulsions, displaying their fatal consequences. If mothers, nurses, or guardians have their babes tortured with painful and protracted dentition, and this notice attracts their attention, they should not be deterred from using a bottle of EVANS' SOOTHING SYRUP for Children Cutting Teeth, the incomparable virtue of which is completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. Who have tried it, the Soothing Syrup for Children Cutting Teeth, which always makes the next tooth much harder to come thro' and sometimes causes death. Sold at Dr. W. Evans' Office, 109 Chatham street, New York; and by all his Agents throughout the Union.

**DIRECTIONS.**  
Please shake the bottle when first opened.  
When children begin to be in pain with their teeth shooting in their gums, put a little of the Syrup in a tea-spoon, and with the finger rub it on the gums, and repeat for two or three times a day. It must not be put to the breast immediately for the milk would take the Syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the Syrup; it will prevent the child from having a fever, and undergoing the painful operation of lancing the gums, which always makes the next tooth much harder to come thro' and sometimes causes death. Sold at Dr. W. Evans' Office, 109 Chatham street, New York; and by all his Agents throughout the Union.

**HIGHLY IMPORTANT.**  
Nervous diseases, liver complaint, dyspepsia, bilious diseases, piles, rheumatism, consumption, coughs, colds, spitting of blood, pain in the chest and side, ulcers, female weakness, all delicate and mercurial diseases, successfully treated at Dr. EVANS' Medical Office, 109 Chatham street, New York.

**DR. W. EVANS' CAMOMILE AND PINKETTS PILLS.**  
ON LOW'S PRINCIPLES.  
Low spirits is a certain state of the system, accompanied by indigestion, the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondriac regions, on the right or left side of that cavity, whence comes the name hypochondriasis. The common corporeal symptoms are flatulency in the stomach or bowels, acid eructations, nervousness, spasmodic pains and often an morbid propensity of fixing attention upon any subject impotently, or engaging in anything that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings are peculiarly morbid, and that haunt the imagination and overwhelm the

mind, exhibit an insidious stealth. The wisest and bravest of men are so open to this affliction as the weak.

**Case.** A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and strictly relieved by social intercourse or amusements, a disordered habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruptions; relaxation or debility of one or more important organs within the abdomen is a frequent cause.  
**Treatment.** The principal objects of treatment are, to remove indigestion, strengthen the body, and enliven the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by the occasional use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti-spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous public.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in any case as it greatly aggravates the symptoms.

**THE BARON VON HUTCHERLER HERB PILLS.**

These Pills are composed of Herbs, which exert a powerful action on the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalant, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthy state.

The Herb Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, surpasses the use of the innumerable other medicines; and are so well adapted to the human frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that it is able to bear the most arduous and fatiguing labors, and to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that it is able to bear the most arduous and fatiguing labors, and to last many years longer than it otherwise would.

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the morbid matter, which clogs the blood, and purifies it, and thus the blood is drawn from the circulation, thro' the excretory ducts into the passage of the bowels, so regulated by the doses of the Herb Pills, that the morbid matter is expelled from the system, and the body is kept up, the secretions from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate disease; but in such cases the dose may be augmented, according to the severity of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at any time.  
In all cases of Hypochondriacism, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Fluor Albus, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, Headache, Biliousness, Flatulency, Chloric, Green Jaundice, Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dizziness or Confusion of Sight, Noises in the inside, alternate Flushings of Heat and Chills, Tremors, Watchings, Anxiety, Nervousness, Bad Dreams, Spasms, with in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous epochs to females is at the change of life; and it is then they require a medicine which will so invigorated their circulation, and thus strengthen the constitution as may enable them to withstand the shock. This medicine is the Baron Von Hutcherler Herb Pills.

**Mr. and Mrs. S. F. STREETER'S**  
Boarding and Day School for Young Ladies,  
SARATOGA STREET, BALTIMORE.

MR. and MRS. HAMILTON having relinquished the Boarding Department of their Institution for the education of Young Ladies, in Saratoga-street, to Mr. and Mrs. STREETER, it becomes necessary to submit to their former patrons and the public the arrangements for the ensuing year, consequent on the change which has thus taken place. In transferring so important a charge, justice to themselves, their pupils and their friends, induces them to express their entire confidence in the zeal, ability, and full qualifications of their successors. Mr. Streeter is a graduate of Harvard University, and has had long experience as Principal in one of the first schools in the city of Boston, with which his labours of instruction have been rewarded elsewhere. Mrs. S. is eminently qualified to guide the young of her sex, secure their obedience and command their respect. They are sincerely commended to the continued patronage of the former friends of the establishment, and to the favor of the public.

Mr. and Mrs. STREETER respectfully announce that they will resume the entire charge of the Boarding Department in the Institution formerly under the care of Mr. & Mrs. Hamilton, in Saratoga street, Baltimore, on the first Monday in September next.

Sensible of the importance of the formation of a sound mind, and the standard of attainment in all that contributes to elevate the female character and prepare young ladies for the responsibilities of womanhood, the Principals will employ every resource within their reach for cultivating the mind, elevating the feelings and polishing the manners of their pupils. Regarding education, not so much as an end, as prospective in its results, they will give careful attention to those branches essential to the formation of a sound intellectual and moral character, and their grand aim will be to present knowledge in so attractive a light and to render its acquisition so agreeable, as to excite a desire for improvement which will continue after the relations of mere scholastic life have been dissolved, and the pupils have entered on the higher and wider school of domestic life.

It will be the endeavor of Mr. & Mrs. Streeter to render their house in every respect a home to those who may be placed under their care, and to maintain, as far as possible, an authority strictly parental. All the branches of a solid education, together with those light branches of a social education, which impart a polish to the manners and intellect, and above all, those moral principles, which should form the basis of all character, will receive full attention. The elements of English and the French Language and Literature cultivated by judicious use during domestic intercourse. Conversations will also be held at stated periods in the French language, in which the pupils will be conversed with, under the superintendence of the French teacher, or a French lady, who will be chosen with care and whose talents will be brought forward for the double purpose of improving the minds and adding to the conversational tact of the students.

Of the healthful and advantageous location of the establishment and its great conveniences, it cannot be necessary to speak. More particular information relative to the principles on which the school will be conducted, and the terms upon which boarding scholars will be received, may be obtained of Mr. STREETER at his dwelling, late the residence of Mr. Hamilton, Saratoga-street, Baltimore.

THE DAY SCHOOL, connected with the Boarding School of Mr. & Mrs. Streeter will hereafter be under the immediate care of Mr. Hamilton and Mr. and Mrs. Streeter, and the next regular session will commence on the first Monday in September next. No notice to the parents of the children of the establishment, which are to be held at all respects, health and in many, superior to those of similar institutions.

The departments of Modern Languages, Chemistry, Music and Dancing, will, as usual, be under the charge of competent Professors; Mr. Streeter will give attention to the instruction of the Latin or Greek Language. Lectures on literary and scientific subjects will be delivered from time to time. Applications for admission may be made to Mr. S. at his residence in Saratoga-street, (late Mr. Hamilton's) where he will be happy to give any information relative to the terms, &c.

It is earnestly desired that parents will have their children in attendance as nearly as possible at the commencement of the school, that an early organization may be made, and the publication of the year catalogue best facilitated.
