

PROSPECTUS OF THE AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

It is a remarkable fact, that while the country is so full of talent, and the press is so full of matter, yet there is no journal devoted to the advancement of the mind...

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world...

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and illustrative of the truth of phrenology...

The religious character of the work will be decidedly evangelical; for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion...

IMPORTANT TO FARMERS. A NEW PATENT IMPROVED PORTABLE HORSE POWER AND THRESHING MACHINE.

This Horse Power will propel Threshing Machines, Clover Mills, Small Grist Mills, &c. The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice.

The subscriber takes this method of informing the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consists in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings being surrounded with oil cups, which retain oil sufficient for one day, without replenishing, supercedes the necessity of hourly application of oil, which renders other machinery so liable to injury from neglect and hazardous to those who superintend them, consequently produced by applying oil during the operation, or from neglect of its mechanical construction.

This machine can be transported in a common cart or wagon, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purchase, will call and examine for themselves.

References to the superiority of this machine may be had in the surrounding countries of Philadelphia, Montgomery, Berks, Lancaster, Chester and Delaware, Pa.; New Castle, Kent and Sussex, Del.; Cecil, Kent, Queen Anne's, Talbot, Dorchester, Anne Arundel and Harford, Md.; Salem, Cumberland, Gloucester, Burlington, Mumfords, Mercer and Middlesex, in New Jersey.

AMERICAN SILK SOCIETY. A CONVENTION WHICH MET AT BALTIMORE ON THE 11TH OF DECEMBER LAST, COMPOSED OF A GREAT NUMBER OF GENTLEMEN FROM VARIOUS PARTS OF THE UNITED STATES, DISTINGUISHED BY THEIR PUBLIC SERVICES, PATRIOTISM, AND PRACTICAL INTELLIGENCE.

Resolved, That it is the deliberate opinion of this Convention that silk may be grown in all the United States, not only for domestic purposes, but as a valuable article of commercial export—thereby giving an active employment to American labour, and retaining millions of dollars in our country, that are annually sent out of it for the purchase of silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper ought to be devoted to the advancement of the silk cause in the United States. Under the latter resolution, J. S. SKINNER, postmaster, of Baltimore, was invited to become the editor of the work, and has consented to do so—so far as may be consistent with the strict performance of his public duties.

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which may yet be apprehended, in the prosecution of the silk culture, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, 'Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export.'

The ability of the Banks to periodical contributions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity.

Such is the outline of the doctrines for the advocacy of which the new paper is to be commenced, and to its defence and vindication which the Editor pledges his best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zeal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presidency, as one who has proved himself eminently qualified to uphold and defend them and insure their unobscured action.

Let all then who may feel any concern as cultivators, manufacturers, or vendors of silk, or as patriots willing to offer suitable occupation and bread to the unemployed and helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though silk, and every thing connected with its production; and all improvements in machinery for its preparation and manufacture, will constitute the chief design and aim of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of agriculture, horticulture, and rural and domestic economy.

The Journal of the American Silk Society will be published monthly, in pamphlet form, each number will contain thirty-two pages, printed on new type and handsome paper, with a printed coloured cover.

All persons friendly to the objects of the Journal will please collect at once and transmit the names and subscription money of those who may feel disposed to patronize it.

Two Dollars a year, or six copies for Ten Dollars, always to be paid before the work is sent. All subscriptions to begin with the first number of the year, and in no case will the work be sent to any subscriber longer than it shall have been paid for.

All Editors of papers who may desire to see Silk added to the list of American Staples, and who will have the kindness to insert this prospectus, will be entitled to a copy of the Journal.

Baltimore, January, 1839.

COLLECTOR'S NOTICE. PERSONS residing in the First Collection District of Anne Arundel county, are hereby notified that H. W. COWMAN, Esq. of the said County, is authorized to receive for the Collector of said district for the year now due.

RICHARD C. HARDESTY, Collector of the First Collection District, Anne Arundel County.

SHERIFFALTY. At the friendly solicitation of a number of the Voters of Anne Arundel County, the subscriber is induced to offer his services as a Candidate for SHERIFF of said County, and will endeavour so to discharge the duties, if honored with their confidence, as to give satisfaction.

JOHN S. SELBY.

FOR PUBLICATION IN THE CITY OF BALTIMORE, BY THE POST AND TRANSCRIPT, A WEEKLY COMMERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

I. POLITICS.—The Post and Transcript will be the first and abiding advocate of the doctrine of DEMOCRATIC REVOLUTION, which constitutes the fundamental elements of our social and political system. As this doctrine is the basis of the National Policy, the paper will be of the strict constructionist school, maintaining that the actions of Government should be limited to the exercise of those powers which are specifically enumerated in the constitution. It will consequently oppose the measures of those, who by a loose interpretation of the same CHARTER of our liberties, seek the establishment of schemes subversive of the principles upon which the fair fabric of our government is reared, and which, unchecked, tend to confusion and anarchy from which no relief can be found but in despotism.

Among these schemes, regarded as of obviously dangerous tendency, is that of a National Bank, however harmless or useful it might be in the full strength and unanimity of the republic, would, in a period of danger, its branches penetrating every part of the country, and in the words of Jefferson, "being by command and in phalanx,"—have power to interfere serious and alarming obstacles to the operations of government.

The assumption of the right to impose a tariff beyond the duties necessary to supply the constitutional wants of government; the appropriation of the public money upon schemes of internal improvement, and the interference of government with the domestic institutions of the States, particularly with the institution of Slavery, will be equally opposed as encroachments upon the constitution and upon the rights of States.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity.

Such is the outline of the doctrines for the advocacy of which the new paper is to be commenced, and to its defence and vindication which the Editor pledges his best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zeal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presidency, as one who has proved himself eminently qualified to uphold and defend them and insure their unobscured action.

Dr. EVANS' CAMON APERIENT PILLS ON LOW SPIRITS.

Printed and Published by JONAS GREEN, At the Brick Building on the Public Circle. Price—Three Dollars per annum.

Low spirits is a certain state of the mind by indignation, wherein the great preponderance upon the slightest grounds consequences imagined. Ancient medical men used this disease to be confined to the regions of the abdomen technically called which are situated on the right or left side, whence comes the name hypochondriac. The common consequences of flatulency in the stomach or bowels, costiveness, spasmodic pains and other of fixing the attention upon any lance, or engaging in any thing, or ceasing. Also languishing, the irritable, thoughtful, desponding, melancholy, accompanied by a total derangement of the mental feelings and judgment, exhibit an infinite variety of men as open to this affliction.

Causes. A sedentary life of an active state, protracted to a late hour rarely relieved by social intercourse, a habit, great excess in eating moderate use of mercury, violent purges, a habitual discharge, (of the menses) or long continued exertion or debility of one or more important organs is a frequent cause.

Dr. Wm. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth. The infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions, and the most violent and dangerous symptoms, which would otherwise have proved fatal.
