Doctor W. EVANS' SOOTHING SY RUP, FOR CHILDREN TEETH-

Prepared by himself.

TO NOTHERS AND NURSES. TO MOTHERS AND NURSES.

The passage of the Teeth through the gunss produces trealcome and dangerous symptoms. It is known by mother that there is great irritation in the meath and guns during this process. The gums swell, the secretions of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in questions of salivations of peculiar parts; the child shrick the step, and spasms of peculiar parts; the child shrick the step, and spasms of peculiar parts; the child shrick the step, and the salivations of peculiar parts; the child shrick the step and the salivation of the sal the step, and violence, and thrusts its fingers into its with extreme violence, and thrusts its fingers into its worth. If these procursory symptoms are not speedily sherhited, spasmodic coarulations universally supervene, and some cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans' Celebrated Soothing Syrup, which has preserved hundreds of infants whon thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Culting their Teeth.

This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will recover to let its gums be rubbed with it. When infants use at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should serve be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives can by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &c.

ING. INITH SUMMER COMPLAINT, card by the infallible American Soothing Syrup of Dr. W. Evans. Mrs. McPherson, residing at No. 8, Madison street, called a few days since at the medical soice of Dr. W. Evans, 100 Chatham street, N. Y. 31 purchased a bottle of the Syrup for her child, who was suffering actruciating pain during the process of featition, being momentarily threatened with convultions, its bowels too were exceedingly loose, and no foot could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely ceased, and by continuing the use of the syrup on the gums, the bowels in a short time became quite autral. As a tribute of gratitude for the benefit afforded the child, the mother came of her own accord, and freely sanctioned publicity to the above. Pray be puticular in applying at 100 Chatham street, as there are several counterfeits advertised. No other place in the city has the genuine for sale.

17 INPORTANT TO MOTHERS.—Children graerally suffer much uneasinees from cutting their teets. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly irritated and inflamed condition of the parts—therefore the principal indications of cure are to abate the inflammation, and to soften, soothe, and relax the gums. If that is effected, the infant is preserved from

-therefore the principal innectations of the and relax the the inflammation, and to soften, soothe, and relax the gams. If that is effected, the infant is preserved from subsequent fever, inflammation, spasmodic cough, tricking of tendons, croup, canker, and convulsions, displaying their fatal consequences. If mothers, nurse, or guardians have their babes tortured with painful and protracted dentition, and this notice attracts their itemlion, they should not be deterred from purchasing a bottle of EVANS SOOTHING SYRUP for Children Testing the incomparable virtue of which in sotile of EVANS SOOTHING SYRUP for Children Teething, the incomparable virtue of which in completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The remedy has restored thousands of children when on the verge of the grave, to the embraces again of their distracted parents, attacked with that awful and mortiferous malady—Convulsions.

DIDECTIONS

DIRECTIONS.

Please shake the bottle when first opened. When children begin to be in pain with their teeth shooting in their gums, put a little of the Syrup in a tanpoon, and with the finger let the child's gums be rubed for two or three minutes, three times a day. It must not be put to the breast immediately for the milk would lake the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fever, and undergoing that painful operation of lineing the gums, which always makes the next tooth much harder to come thro' and sometime; causes death. Dr. EVANS' CAMOMILE AND APERIENT PILLS. ON LOW SPIRITS.

ON LOW SPIRITS.

Low spirits as a certain state of the mind, accompanied by indig stion, wherein the greatest evils are approhended upon the slightest grounds, and the worst consequences imagined. Ancient medical writers supposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriasis.

Symptoms. The common corporeal symptoms are, fatalency in the stomach or bowels, acrid eructations, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance, or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, desponding, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The wisest and best of men are as open to this affliction as the weakert.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

THE BARON VON HUTCHELER HERB PILLS.

THE BARON VON HUTCHELER
HERB PILLS.

These Pills are composed of Herbs, which exert a specific action upon the heart, give an impulse or strength to the arterial system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and a quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthful state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives, will appear a blessing, and not (as too many who have neglected their constitutions, or had them injured by medicines administered by ignorance) a source of misery and abhorence

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other viscera, they expel the bad, acrid or morbid matter, which renders the blood impure, out of the circulation, throw the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the Herb Pills, always remembering that while the evacuations from the bowels are kept up, the excretons from all the other vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the mos

Rheumatism, Ashma, Tic Deuloureux, Cramp, Spasmodic Affections, and those who are victims to that
most exeruciating disorder, Geut, will find relief from
their sufferings, by a course of the Herb Pills.
Nausca, Vomiting, Pains in the Side, Limbs, Head,
Stomach or Back, Dimness or Confusion of Sight,
Noises in the inside, alternate Flushings of Heat and
Chillness, Tremors, Watchings, Agitation, Anxiety,
Bad Droams, Spasms, will in every case be relieved by
an occasional dose of the Herb Pills.
One of the most dangerous epochs to females is at
the change of life: and it is then they require a medicine which will so invigorate their circulations, and
thus strengthen their constitutions as may enable them
to withstand the shock. This medicine is the Baron
Von Hutcheler Herb Pills.
Those who have the care and education of females,
whether the studious or the sedentary part of the community, should never be without a supply of the Herb
Pills, which remove disorders in the head, invigorate
the mind, strengthen the body, improve the memory,
and enliven the imagination.
When the Nervous System has been too largely
drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these
Pills.

MISCELLANEOUS.

THE LATE ADMIRAL SIR ISAAC COF. FIN.

[From the Boston Transcript.] There were some things about this personage too much out of the common course to allow of letting him go down to his grave without a vol-Our readers all know that the Admiral was a Bostonian. He loved to speak of the times when he was a "dirty faced little rascal licking molasses with the boys on Long Wharf.' This was before the Revolution. The veterans say that his family, which we have always heard was rather of humble condition than otherwise,

resided in Province House Court. Isaac was not destined, however, to be always licking molasses. There was a spirit in him which yearned for activity and adventure, and we find him in the British Navy at a very early date. In this service no man more thoroughly carned that advancement and reputation which enough to discharge the hardiest aspirant. During this long service he must have lived over strange scenes. Indeed, we know very well that he did so, and can only regret that we hear nothing of a memoir appearing which should

embody the spirit of these things. At one time the Duke of Clarence was under him-as midshipman, we believe. William got greatly attached to his commander too, who, though "rude in speech" sometimes, had yet, as the Indians say, a soft heert and a large one. As Duke and King, the middy afterward did all he could for Coffin's promotion, nor was he con-tent to relinquish his society after coming to the throne. It is about three years since William, inviting him to dine, was informed by the Admiral that the gout, his great enemy, had wholly disabled him; he was obliged to be trundled about in an easy chair." "Well, pletely nonsuited the plaintiff; he'll never do hereby order and adjudge, that the said then, come with your chair," was Royal Sailor's casy chair he did. He had long before this received a splendid medal on some occasion from his Sovereign's hand. This he carried with him on land and sea, and he had it when he was cast adrift on the Atlantic ten years or more ago by the burning of the "Boston." It was the only article saved out of all his chattels, but his happiness was complete when it was held up to him on Captain Mackay's deck, while the helpless hero lay there flat on his back.

This we have from a spectator of the scene. Our neighbor, Osgood, the artist, was on board he Boston. He describes the fire, (lightning in a cottonship,) and the whole scene, as terrific. The sea ran mountains high, and it seem d doubtful if a boat could live, yet the Admiral never blenched. He was disabled, and his companions were very anxious to save him. Mr. D. says that as several were about to go below for that purpose, they encountered the veteran at the head of the cabin stairs. He, having heard of the danger, had ascended thus far by the assis-tance of his servant, and with great and pain-ful exertion. A matrass was laid in the whaleboat, which was on the quarter. On this he was placed, with his servant by his side, while a man was stationed at each tackle. He at the bows seemed well aware of the critical situation in which they were placed: but the man at the stern took out his knife, and, when the wave

rose to the boat, cut the tackle, so that when the latter rose again, the other end being fast, the boat was half filled with water, and the seiler at the stern thrown into the deep. By tar taken, half drowned, from the sea, to receive a pretty severe reprimand from the feared in a cold bath.

Thus this seeme went on till all were affoat in boats, three hundred miles from land. One soon died of exhaustion. The rest were on allowances of a third of a buscuit and a gill of water a day. The Admiral not only shared all, but he alone kept up the life of the company, giving them every encouragement, and winding up occasionally with one of his best songs. "Oh, my lads," he roared out at one songs. "Oh, my lads," he roured out at one time, "don't look so eagerly at my old carease. Here's a young painter will make a much better meal." Fortunately this last a bath and a day. The passengers got into this port not long after. The Admiral went to the Tre-mont again, just as if all was not lost. Moreover, he sat to the artist, and paid him double price. He also gave Capt. Mackay, who rescued the company, a douceur of five hundred dollars and a splendid gold watch.

This is a long story, but it shows the whole man. He was a sailor of the old school.—
Smollett would have gloried in him, but he was too good for Smollett. With all his little eccentricities, and ill-disciplined as he was, there was a sound sense and sterling Yankee spirit at the bottom, which still kept him erect, and sent him ahead. Yet, to his shrewdness were added a gallantry and generosity that flinched from nothing. His impulses were noble, and he vielded to them. He once commanded a ship when a man was knocked overboard in a gale; his comrades heritated, but not Coffin; in five minutes he had the fellow on deck again, heels over head. "Ah, you blackguard," he cried, as he shook the water out of his trowsers, "You've cest me a new hat."

At another time he had a fire, suddenly discovered below, which proved to be close to the magazine, and even the old sailors were so frightened that sixty of them swam ashore. The Admiral, however, led on the rest to the escue, and the fire was with great exertions extinguished. As to liberality, his character is well known. We see that he has lately been publicly thanked as a leading benefactor of the "Naval School." Every body knows that the Coffin School, consisting chiefly of persons of that family, has long been flourishing, by his beneficence at Nantucket, where there are said to be at least five hundred of the name. The old man loved Americans best, after all. There was nothing like Boston to him. Much more might be added to this gossip; but enough. We hope that some of the Admiral's contemporaries who are qualified will let us hear from them. Meanwhile, as we said before, they'll excuso this "volley."

A SPIRIT OF LITIGATION REDUCED.

Some years ago, a man who had more sparo noney than good sense, suffered himself to be sued for the sum of two dollars; enraged at what he considered the audacity of the plain-tiff, he resolved to put every engine of the law in force to "keep him out of his money," and necordingly applied to a gentleman of the bar for his professional aid to effect his object. After listening to his statement of the case, the attorney demanded a fee of only three dollars, which the defendant promptly paid down, highly gratified with the smallness of the sum .-The atterney went to the magistrate's office and paid the debt and costs with the three dollars which he had just received from his client. They met in a few days after, when ho inquired of the atterney whether he had atten-ded the case, and what had been the result. pletely nonsuited the plaintiff; he'll never trouble you more. - Independent Rep.

Mr. Bildad of K_n, one of the pleasantest towns in Plymouth county, Massachusetts, was a stone cutter and withal given to hard jokes. One morning, as he was busily at work surrounded as usual by a number of tombstones carved out with the usual inscription—"In memory," he was greeted by Dr. E——, who was riding by on a visit to some of his patients. "Good morning, Mr. W____," said the doctor; "hard at work, I see; you finish your grave stones as far as in memory of,' and then wait, I suppose, to see who wants a monument next." "Why, yea," replied the old man, resting a moment on his mallet, "unless somebody is sick, and you are doctoring them, and then I keep right on!" [Northern Courier.
