T is a remarkable fact, that while the contrue, have, within a few years, most astonishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the en-quiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials al-ready existing and daily augmenting, with which to enrich such a publication, are al-

which occur, and all the new theories which are advocated in the various institutions of are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the innortant hearings, which phrendonists. the important bearings, which phrenologists know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ophemeral character, do eccasionally admit articles in favour of phrenology: but these dignot meet the present ne-cessity. A periodical which is avowedly chrenological—one whose pages shall con-stitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, his induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellung."

The object of this work will be to pre illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral;) on the Medical Treatment of the Internal Control of the Internal rals) on the Medical Fredment of the Marie on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions' from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology but of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instruwhich to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation .-A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the en-quiries and objections, not of cavillers, but of the truly candid, and the conscientiously ways welcome to our pages, and they will always be treated with kindness; as, also, will honest and respectful objectors to the projector of the proposal and the projector of the projector of the proposal and the projector of t nology. But the captious and cavillers will to themselves our silent contempt; and the ignorant pretender, who seeks to the pains to investigate, may expect a merit-

which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own Judgment of the cerebral development in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phreno-logical or anti-phrenological writers, as to to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenolo-

To encourage Phrenologists of talent (and especially professional men who are Phrenologists,) to enrich the work with their contributions, we offer for accepted matter, as liberal a compensation per printed page, as is usually afforded by the very first periodicals in our country, but the editor does not promise to endorse all which his correspondients may communicate; nor all which his corresponding and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is expected, must be so prepared as to he fit for the public eyc.

In conclusion, we may be allowed to say, the the beauty with the desired and the properties of the public eyc.

PROSPECTUS.

Tiff: undersigned proposes to publish a Weekly Newspaper in the Village of Leonard-Town, St. Mary's County, Maryland, to be entitled THE

LEONARD-TOWN HERALD.

And Saint Mary's and Charles Counties Ad-

vertiser. In presenting to the public the design of publishing a paper at Leonard-Town, it will only be necessar briefly to explain the plan to be adopted, and the prin ciples to be pursued, in its course of publication; and impressed with the belief it will be approved by the thinking portion of the community, he does not for a

moment doubt they will yield him a patronage com-mensurate with the utility of the enterprise.

It seems to be a matter of general surprise that the enerable county of Saint-Mary's, and forming too, an important part of the State of Maryland, sho remained so long destitute of a paper printed and lished within its borders—containing as it decidedly

generous public, has issued this Prospectus, with the chief intention of devoting himself to usefulness—increasing, as far as his humble means will permit, the science which he will not be at general stock of information, and enlarging the sphere f useful knowledge.

The Herald will be conducted on a neutral principle As our object is the establishment of in politics, whether of a general or local character—
and the publication of articles calculated to create perand the publication of articles calculated to create personal excitement or bad feeling in the community will he faithfully and strictly guarded against by the proprietor.

ses. A faithful account of the current intelligence (whether of a foreign or domestic nature) will be laid rion and Morality will not be disregarded.

fair intelligible type, at the moderate price of Two logical or anti-phrenological writers, as to —if not paid before the expiration of six months, the degree in which the several organs are —if not paid before the expiration of six months, the degree in which the several organs are —if not paid before the expiration of six months, the degree in which the several organs are developed—we must, in every such case, see the heat or skull, or a cast of it, properly high properly life heat or skull, or a cast of it, properly high properly life heat or skull.

F. M. JARBOE.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the de-

IMPORTANT TO FARMBRS.

A NEW PATENT IMPROVED PORTABLE HOBSE POW-ER AND THRESHING MACHINE.

THIS Horse Power will propel Threshing Machines, Clover Mills, Small Grist Mills, &c.

The subscriber takes this method of in-

forming the public, that he will be prepared bearings being surrounded with oil cups, which retain oil sufficient for one day, without replenishing, supercedes the necessity of hourly application of oil, which renders oth er machinery so liable to injury from neglect and hazardous to those who superintend them, consequently produced by applying oil during the operation, or from neglect of its machinest executive. horizontal bearings are supplied with oil by nutrition and capillary which is a great sanutrition and capillary which is a great saving of oil, and prevents them from becoming dry and injuring the machine, which is so detrimental to other machinery. The Horse Power occupies the space of 3 feet by 3 feet 6 inches, which contains the moving machinery. This machine will thresh all kinds of grain; it also appears the purpose. machinery. This machine will thresh all place in the Convention, all the difficulties kinds of grain; it also answers the purpose which have been encountered, and which vance; and for the same reason, subscriptions will be invariably required in ADVANCE.

Money sent by mail, if enclosed in the presence of the post-master, will be at the risk of the publisher; but postage must, in every case, be naid.

This machine can be transported in a com mon cart or wagen, without any inconvenience. A further description is deemed unnecessary, as those who would wish to purhase, will call and examine for themselves. The subscriber has constantly on hand the above described machines, at his manufacto- the business through its whole process, and ry, in Brandywine Village, Del. where orders will be received and the machines sent to any part of the neighbouring States. Hundreds of certificates can be produced that it is superior to any thing of the kind they have yet seen.

References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Berks, Lancaster, Chester and Delaware, Pa.; New Castle, Kent and Sussex, Del.; Cecil, Kent, quired in ages, where all is dull conformity Queen-Anne's, Talbot, Dorchester, Anne-Arundel and Harford, Md.; Salem, Cumberland, Gloucester, Burlington, Monmouth, Mercer and Middlesex, in New Jersey. THE COURSES OF

AMBRICAN SILK SOCIETY

RURAL ECONOMIST. A T a Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practical intelligence, the following resolutions

were unanimously adopted:
Resolved, That it is the deliberate opinion forming the public, that he will be prepared to supply all orders at the shortest notice. The superiority over other machines, consists in ease of operation, durability and simplicity. Being constructed principally of iron, both Horse Power and Thresher, the bearings being augmented with oil one mercial export—thereby giving an active em-ployment to American labour, and retaining millions of dollars in our country, that are millions of dollars in our country, that are annually sent out of it for the purchase of

silken goods.

Resolved, That a National Silk Journal ought to be established under the auspices of the Executive Committee, and all the funds them, consequently produced by applying on during the operation, or from neglect of its over and above the support of said paper fair fabric of our government is reared, and which, we mechanical construction. The vertical and the city cause in the United States. the silk cause in the United States.

Under the lacter resolution, J. S. SKINNER

may yet be apprehended, in the prosecution of the silk culture, as a great branch of American industry, were fully considered; and the result was an universal conviction that, now, in the words of the resolution, Silk may be grown in the United States, not only for domestic purposes, but as a valuable article of commercial export. The suitableness of our soil and climate to the growth and health of the worm, and the trees supply its food; the capabilities, the habits, and the genius of our people for conducting the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that our un-restrained freedom in the entertainment and discussion of various and discordant doc-trines, religious and political, has imparted to us, as to our English ancestry, an omniand routine of thought and of action! Thus has it happened in manufactures as in other their interests—with such checks as are calculated to things; American ingenuity, unrestrained by prejudice or law, has triumphed over difficulties apparently insurmountable! How long, may it be asked, after our first cotton spindle was put in motion before Yankee 'Low-ells' were sold at a profit in China? So will it nal to concentrate and diffuse every ray of floating light on the subject, it was the opinion of the Convention that we may realize

Let all then who may feel any concern as cultivators, manufacturers, or venders of silk, or as patriots willing to offer suitable occupation and bread to the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national

dependence. Though Silk, and every thing connected with its production; and all improvements in machinery for its preparation and manufacture, will constitute the chief design and aim Ouief Judge of the Orphans Court of of the journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of agriculture, horticulture, and rural and domestic economy.— Hence, the adjunctive title Rural Econo-

BALTIMORE POST AND COM. MERCIAL TRANSCRIPT.

he Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

I. POLITICS.—The Post, and Transcript will be the firm and understing advocate of the doctrines of prince arrustication, which constitute the fundamental elements of our social and political system. As powers which are specifically enumerated in the consti-tution. It will consequently oppose the measures of those, who by a loose interpretation of this MAGEA CRARTA of our liberties, seek the establishment of es subversive of the principles upon which the relief can be found but in despotism.

Ameng those schemes, regarded as of obviously dan gerous tendency, is that of a National Bank, which, however harmless or useful it might be in the full strength and unanimity of the regulic, would, in a period of danger,-its branches penetrating every part of the country, and in the words of Jefferson, "acting by command and in phalanx,"-have power to inte

government.

The assumption of 'ne right to impose a tariff be:
yend the duties necessary to supply the constitutional wants of government; the appropriation of the public money upon schemes of internal improvement, and the interference of government with the domestic institu-tions of the States, particularly with the institution of Slavery, will be equally opposed as encroachments upconstitution and upon the rights of States.

and their inability to comply, at all times, with the com litions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the mea-sure of dispensing with their agency in conducting the fiscal operations of Government one of obvious neces-sity. The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, 22 a tingencies to which its connection with Banks renders it liable—one which will insure stability and uniformly in its fiscal action, and reduce the petent influen the Executive over a league of depo mere power of appointing the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal mean ing Institutions will not be opposed. On the contrary secure the object of their creation, will be supported as

Such is the outline of the doctrines for the advecacy of which the new paper is to be commenced, and to the delence and vindication of which the Eurron pledge his best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zeal of these to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the re-election of MARTIN VAN BUREN to the Presidency, as one who has proved himself eminently qualified uphold and defend them and insure their unembarrassed action. It is believed the Post and Transcript will not be found an unworthy co-adjutor of the democratic paper already engaged in the cause in this city.

On the subject of State polities the paper will adve cate a judicious reform, consonant with the spirit and principles of our republican institutions. Aware of ject should be approached, it will nevertheless fearlessly advocate such changes as our own experience has convinced us to be necessary, or such as the history of other States in the confedracy has taught to be wise and salutary.

will be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early empletion of the great works in which the State is al ready so deeply interested, will be urged as positively necessary to preserve unimpaired the public faith and to secure the true and permanent prosperity of our City

Price-Three Dollars per annum. Doctor W. EVANS' SOOTHING SY. RUP, FOR CHILDREN TEETH-ING.

Prepared by himself.

TO MOTHERS AND NURSES.

The passage of the Teeth through the gume produces treakeome and dangerous symptoms. It is known by mothers that there is glent iffitation in the mouth and gums during this process. The gums well, the secretion of saliva is increased, the child is seized with frequent and sudden fits of crying, watchings, starting in the sleep, and spasms of peculiar parts; the child shricks with extreme violence, and thrusts its fingers into its mooth. If these precoursory symptoms are not speedily alleviated, sparmodic convulsions universally supervene, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply. Dr. William Evans' Celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

A REAL BLESSING TO MOTHERS. Dr. W. Evans' Celebrated Soothing, Sy-

rup, for Children Cutting their Teeth,

Dr. W. Evans' Celebrated Soothing, Syrup, for Children Cutting their Teeth. This infallible remedy has preserved hundreds of failtren, when thought past recovery, from convolutions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so directors, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the guns, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives case by opening the pores and healing the guns; thereby preventing Convulsions, Ferers, &c.

(P. Proof Positive of the Efficacy of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup. Dear Sir—The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, must convince every feeling parent low essential an early application of such an invalua les medicine is to relieve infant misery and torture. My infant, while teething, experienced such acute sufferings, that it was attacked with convulsions, and my wife and, amily supposed that death would soon release the habe from anguish till we precured a bottle of your Syrup; which as so m as applied to the gums a wonderful change was produced, and after a few applications the child displayed obv ous relief, and by continuing in its use, I am glad to inform you, the child has completely recovered and no recurrence of that awful complain the since occurred, the teeth are emanating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgment public, and will gladly give any information on this circumstance.

WM. JOHINSON.

Ur A gentleman who has made trial of Dr. W. Evans' Soothing Syrup in his family, (in case of a teething child, wishes us to state that he found

f their names.—Boston Traveller.

OF A SEVERE CASE OF TEETH-ING, WITH SUMMER COMPLAINT, ING, WITH SUMMER COMPLAINT, cared by the infallible American Soothing Syrup of Dr. W. Evans. Mrs. McPherson, residing at No. 8. Madison street, called a few days since at the medical calculation of the best of Dr. W. Evans. 100 Chatham street, N. Y. and purchased a bottle of the Syrup for her child, who was suffering excruciating pain during the process of tentition, being momentarily threatened with convolutions, its bowels too were exceedingly loose, and no food could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely ecased, and by continuing the use of the syrup cat the guns, the bowels in a short time became quite natural. As a tribute of gratitude for the benefit affected the child, the mother came of her own accord, and freely sanctioned publicity to the above. Pray be particular in applying at 100 Chatham street, as there are several counterfeits advertised. No other place in the city has the genuine for sale.

"IT IMPORTANT TO MOTHERS.—Children gracely and the grace of Appetite, Flather the Waterser Augustons of the liteart, Nevel weakness, Fluor Albus, Sem Waterser Augustons of the liteart, Nevel weakness, Fluor Albus, Sem Waterser and process of the requirement of the profile of the body will also be go portion, by which means the Laurence of the own accord, and freely sanctioned publicity to the above. traching of fendons, croup, canker, and consulsions, traching of fendons, croup, canker, and consulsions, implaying their fatal consequences. If mothers nurses, or guardians have their babes tortured with rainful and protracted dentition, and this notice attracts their stention, they should not be deterred from purchasing a bottle of EVANS SOOTHING SYRUP for Children Teething, the incomparable virtuo of which in completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The remedy has restored thousands of children when eaths verge of the grave, to the embraces again of their distracted parents, attacked with that awful and mortificers malady—Convulsions.

DIRECTIONS.

DIRECTIONS.

IP Please shake the bottle when first opened. When children begin to be in pain with their toeth whosing in their gums, put a little of the Syrup in a teaspoon, and with the finger let the child's gums be rubbed for two or three minutes, three times a day. It must not be put to the breast immediately for the milk would take the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fever, and undergoing that painful operation of lineing the gums, which always makes the next tooth much harder to come thro' and sometimes causes death. Sold at Dr. W. Evans' Office, 160 Chatham street, Nev York; and by albhis Agants throughout the Union.
