FOREIGN.

LATE FROM ENGLAND.

ARRIVAL OF THE BRITISH QUEEN.
The Steam ship British Queen, Captain Robert, arrived at New York on Friday afternoon, bringing papers from London to the 2d of September, and from Liverpool to the evening of the 31st of August. We make up from the Commercial Advertiser and the Journal of Commerce the following abstract of the intelligence brought by this arrival.

THE CROPS.

The weather had been fine and the crops were coming in well. Wheat had fallen two shillings per quarter. Full extracts upon the subject will be found in our columns.

THE MONEY MARKET.

There is no improvement to be observed in the condition of money affairs. The article from the London Morning Chronicle of September 2d, which will be found below, is, perhaps, too gloomy. On the whole, the intelligence, so far as money matters are concerned, may be said to be rather unfavorable.

Mr. Poulett Thompson was soon to leave England to assume the Governorship of the Canadas.

The Northern Bank of England was dissolved by a vote of the proprietors August 29th, the outlines of a new Bank, to be called the Alliance Bank, were submitted to the meeting. A dreadful affray had occurred at Egham, August 20th, between a party of soldiers and the humble-rigging. Twelve soldiers who were left behind after the main body had retired, were severely beaten. It does not appear that any lives were lost.

The British Queen brings 200 passengers, including servants.

Advices from Bombay to the 4th of July are favorable to the British troops in Afghanistan. No opposition from Dost Mahomed was anticipated.

PROROGATION OF PARLIAMENT.

The British parliament was prorogued by her Majesty in person on the 27th of August.

IMPORTANT FROM THE EAST.

The Morning Post of 2d, contains the following important announcement from the Turkish Embassy.

SATURDAY MORNING, 9th. 45m. A. M.

See—I am directed by our secretary to give you the following substance of a despatch received by a special courier from Paris, where it arrived by telegraph:

"The French officer who was commissioned to claim the Turkish fleet, in the name of the great Powers, has received a flat refusal from Mehemet Ali, unless all his exorbitant demands are complied with, and the expenses he has been put to defrayed by the Sultan."

I have only to say that our worst anticipations are realized. In haste, your most obedient servant.

P. KASSIMON, Inter.

IMPORTANT FROM SPAIN.

The Carlist rebellion seems to be drawing to a close. Gen. O'Donnell has gained important successes over Cabrera in Valencia. His last exploit was the capture of the fort of Tales, after a battle with the Carlists which was kept up for 16 hours. He demolished the fortifications, and then returned to Valencia.

GLOBE OFFICE, MONDAY EVENING, September 2-2 o'clock.

The arrival of Saturday's mail from Paris put us in possession of later intelligence from the war in Spain. General Maroto has deserted the Carlists and joined the Queen's army, and it is even reported that Don Carlos is a prisoner in the hands of Espartero.

Three o'clock.

SURRENDER OF DON CARLOS.
We can only call attention of our readers to the rumor which will be found under our city head, dated two o'clock, to the effect that Don Carlos has surrendered to Espartero, and that Maroto has joined his forces to those of his legitimate sovereign, the Queen of Spain.

Another rumor current is that Don Carlos has surrendered to Lord John Hay, and claimed the protection of the British flag.

In either case the war in Spain is necessarily at an end.

It will be seen by the following letter from our Paris correspondent, that there is every probability of the above rumor being well founded:

Paris, Aug. 31.—A telegraphic despatch was received yesterday by the government, dated Bayonne, Aug. 30, stating that the conference between the Carlist chiefs had broken up, and that the conclusion being unfavorable to any arrangement between themselves, Maroto had recommenced his march, and made his dispositions

for putting himself into correspondence with Espartero.

A Cabinet Council was held yesterday, immediately after the receipt of the telegraphic despatch, and before 5 o'clock a telegraphic despatch in return was sent off to Bayonne. It is stated, and I believe truly, that Maroto has made overtures to France and England, inviting them to interfere to put an end to the civil war. Despatches were sent off to England last night, which had reference probably to this circumstance.

The government had not, up to 2 o'clock, received any thing new from the East, but the last communications are said to be very satisfactory. It is generally believed that the question of Syria will be partially ceded to the Viceroy, but that good guarantees will be taken against the probability hereafter of any disturbance of the peace between Turkey and Egypt, through the warlike propensities of Ibrahim.

OBITUARY.

Died, in this city, on Saturday morning last, Mr. FRANCIS WALCH, for many years past warden of Anne-Arundel county jail.

A NEW THEORY!

INTERESTING AND APPLICABLE TO THE AFFLICTED WITH

Diseases of the Stomach, or Nerves;

Such as *DYSPEPSIA*, either Chronic or Casual, under the worst symptoms of restlessness; *Louness of Spirits*, and *General Emaciation*; *Consumption*, whether of the Lungs or Liver; *Liver Affections*; *Jaundice*, both *Biliary* and *Spasmodic*; *Costiveness*; *Worms of a very variety*; *Rheumatism*, whether *Acute or Chronic*; *together with Gout, Scrofula, Pains in the Head, Back, Limbs, and Side*, *Zyphus Fever*, *Scarlet Fever*, *Putrid Sore Throat*, *Fever and Ague*, *Spasmodic Palpitation of the Heart and Arteries*, *Nervous Irritability*, *Nervous Weakness*, *Hysterics*, *Tic Douloureux*, *Cramps*, *Female Obstructions*, *Heartburn*, *Headache*, *Cough*, *the Common or Humid*, and *the Dry or the Whooping*; *Asthma*, *Gravel*, and *Dropsy*.

The Blood has hitherto been considered by Empirics and others, as the great regulator of the human system, and as the vehicle of the adherents to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence Life, health, vigour, energy, and, in short, every power, sickness, disease, and death. Not so with Dr. Hunt, whose extensive research and practical experience so eminently qualify him for the profession of which he has been one of the most useful members. He contends, and a moment's reflection will convince any reasoning mind of the correctness of his views—that the stomach, liver, and the associated organs are the primary and great regulators of health, and that the blood in very many instances is dependent on these organs, and that unless medicine reaches THE ROOT OF THE DISEASE, the superficial remedies usually prescribed, serve but as foils to cover the ravages of deep-rooted maladies. Under these convictions, at the expense of close application, the doctor has discovered a medicine whose searching powers are irresistible, and in prescribing, it is with a knowledge of its being a radical cure in the various diseases already enumerated, even if applied in the most critical cases; but he does not pretend to ascribe to it any supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that when every other earthly remedy has been given up,

HUNT'S PILLS are never known to fail in effecting two very gratifying results, that of raising from the bed of sickness and disease those who have tested their efficacy, and thus amply rewarding Dr. Hunt for his long and anxious study to attain this perfection in the *HEALTHY ANXIOUS*.

DR. HUNT'S PILLS.

In the midst of a general and in many instances not unfounded prejudice against many of the medical remedies of the day, Dr. Hunt's Pills have the enviable distinction of universal approbation. They are perhaps the only medicine publicly advertised that has full and unreserved testimony of medical men in its favour, if not the only one which gives full satisfaction to its purchasers. Dr. Hunt has the satisfaction of knowing, that his Pills are not only recommended and prescribed by the most experienced physicians in their daily practice, but also taken by those gentlemen themselves, whenever they feel the symptoms of those diseases which these Pills have the power to cure. He knows this to be generally the case in New York, Philadelphia, Albany, Boston, and other large cities, in which they have an extensive sale. That they should thus conquer professional prejudice and interested opposition, is a strong proof of the merit of the medicine, and best evidence in the country to render them useful to all classes, can be fairly ascribed to their undeniable and preeminent virtues.

Evil as however, as this distinction is, it can easily be accounted for from the intrinsic and peculiar properties of the medicine itself. It does not pretend to touch, and it accomplishes all its promises. Dr. Hunt does not pretend, for instance, that his Pills will cure all diseases merely by purging the blood, but he certainly does pretend, and he has the authority of daily proofs for positively asserting that these medicines, taken as recommended, will cure a great majority of the diseases of the stomach, the lungs, & the liver, by which the contents of the stomach, as it is termed, are vitiated, and the blood is rendered impure. The blood, as it is termed, is the vital principle of the system, and as it performs its duty in circulating through the veins and arteries, has its yellow or bilious excrement, which may be termed its refuse or worn out sediment, collected and discharged by the liver. These vitiated elements, or the anatomical mechanism or apparatus by which the blood is manufactured and preserved; and it is therefore obvious that the state of these should be the first consideration of the physician. Now there are various causes that will vitiate the blood, but the most common, and best understood, is the impure food which the blood has nothing whatever to do. Thus the stomach may be utterly debilitated in one moment, by fright, grief, disappointment, heat of the weather, or any other nervous action, and the blood is rendered impure. It is the blood, and not the nervous action of long continuance which produces settled dyspepsia, with headache, bile, mental and physical, and a general retinue of other evils. It is the blood to blame for that Intemperance, by indigestion, the coats of the stomach, and leaving in the lobe, which, though timely remedies may prevent, no earthly skill can cure. Is the blood of the fair and blooming victim to blame for this? So the liver, when climate, sedentary habits, intemperance, or other prostrating causes have withered away, or paralyzed it, with distention, becomes unable to carry off the bile from the circulation, and instead of discharging its strength through the gall bladder, leaves it to come through the skin in jaundiced and sallow fluids, and to rush upon the stomach in irregular and excessive quantities. Is the unfortunate blood to blame for this? No: these vital organs are never affected by the blood, until after the blood has been affected by them; they are its makers and masters, and it is merely their work and their passive agent.

Dr. Hunt prescribes his beautifully efficacious Pills, acknowledged by medical men who have analyzed and recommended them, to be equal to any in the world—in cases which require the cleansing of the stomach and bowels.

These Pills are emphatically recommended for the following complaints, and directions for use accompany them: dyspepsia, in all its forms; bilious and liver affections, in every stage and degree; female sicknesses, more particularly the nausea incident to morning sickness; fever and ague; indigestion or derangement of the liver or lungs; headache and giddiness; loss of appetite; nervous tremors; inebriation, or delirium tremens; spasmodic affections of all kinds; rheumatism, whether chronic or inflammatory; nervous and bilious fevers of every variety; scrofula;

measles, and all blotches, bad humours, and impure complexion of the skin; restlessness at night, and daily irritability and melancholy; the summer complaint, and cholera morbus or diarrhoea in general; worms and distension, with bad breath; chlorosis and palpitations of the heart and head; changes of female constitution; and for impaired and disorganized constitutions in either sex which have not been permanently relieved by any other medicine.

The purchaser should be careful to get them genuine at 100 Chatham street, New York, or of the authorized agents, as all others are base and ignorant imitations. For further particulars, see especially in this the public to peruse the other advertisements and medical papers, which may be depended upon for their strict and acknowledged truth.

Dr. The above valuable Medicine, together with Dr. Good's Celebrated Female Pills; Dr. Evans' Camomile & Aperient Pills; Dr. Evans' Soothing Syrup for Children; Dr. Evans' Fever and Ague Pills, and Baron Von Hutscheler's Herb Pills, are to be obtained at

Morimer & Mowbray, Lewis Johnson, Thomas Sutton, Thos. H. Dawson & Sons, James Sangston & Son, N. T. Hyman, Parsons & Goody, JEREMIAH HUGHES, Annapolis, George W. Wilson, James L. Hamilton, Baltimore, Md. Washington, D. C. Centreville, Easton, Denton, Chestertown, Salisbury, Upper Marlboro', Leesburgh.

DR. GOODE'S CELEBRATED FEMALE PILLS.
These Pills are strongly recommended to the notice of the Ladies as a safe and efficient remedy in removing those complaints peculiar to their sex, from want of Exercise, or general Debility of the System, Obstructions, Suppressions, and Irregularity of the Menstrue; at the same time strengthening, cleansing, and giving tone to the Stomach and Bowels, and producing a healthy action throughout the system generally. They create Appetite, correct Indigestion, remove Giddiness and Nervous Headache, and are eminently useful in those Platent Complaints which distress Females so much as the "TUM or LUMP." They also relieve the most distressing and painful Menstrual Affections, likewise afford soothing and permanent relief in Menstrual or Whites, and in most obstinate cases of Chlorosis, or Green Sickness, they invariably restore the pallid and delicate female to health and vigour.

These Pills have gained the sanction and approbation of the most eminent Physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of conjugal happiness have been defeated, these Pills may be truly esteemed a blissful boon. They soon renovate all functional debility, and if taken, (according to directions) obviate all morbid action. They dispel the gloom and dispiriting sensations, and counteract all morbidly monthly return, likewise the attendant pains in the back, side or loins; they generally counteract the nausea, vomiting, and other nervous affections in Chlorosis, or green sickness, in a few days, and if continued according to directions, soon effect a perfect cure. Nothing is so signally efficacious in recruiting the pallid and sickly female (who has been during her life irregular and sensitive) as the Female Pills. These pills invigorate the whole system, improve the memory, and give the imagination, create appetite and restore tranquil repose. Many hundred females can testify to their efficacy, and many Physicians (in this city, as also throughout the United States) can bear testimony to their merit and extraordinary virtues. They are invaluable to the distressed and ailing female, who from repeated and difficult labours are afflicted with weakness and infirmities, in which case they are highly useful, strengthening at the time the stomach, the back, the weakened organs, and the whole constitution.

Dr. Good's Celebrated Female Pills. These Pills are of two kinds, namely: No. 1, or Laxative Pills, and No. 2, or Restorative Pills. They are for all the following Diseases: Suppression, Irregularity or Retention of the Menstrue, Flooz Albus, Chlorosis, or Green Sickness, Costiveness, Gravel, Incontinence of Urine, Nervous Affections, Hysterics, Profluxus Uteri, or falling of the Womb, and Piles. These Pills are also particularly adapted to the male as well as the female sex, for the cure of the following Diseases: Nervous Diseases, Liver Complaint, Dyspepsia, Bilious Diseases, and all cases of Hypochondriacal, Low Spirits, Palpitation of the Heart, Nervous Irritability, Nervous Weakness, Indigestion, Loss of Appetite, Headache, Stomachic Back, Dimness of Vision, or Watery Eyes, Headaches, Nightmares, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are victims to that most execrating disorder, Gout; also, Pains in the Side, Chest, Lungs, Head, Stomach or Back, Dimness of Vision, or Confusion of Sight, alternate flushes of Heat and Chillsiness, Tremors, Watchings, Agitation, Anxiety, bad Dreams and Spasms.

This Medicine is acknowledged to be one of the most valuable ever discovered, as a purgative, whether as a sudorific or alterative.

Directions for use.—Pills No. 1 must be taken from three to six, or more, at bed time, sufficient to operate briskly, till the desired effect is effected. Take No. 2 according to directions on the box.

In all cases, both kinds of the pills are to be used at the same time, in the following manner—Take three pills or more of No. 1 every night on going to bed, increasing the number if they do not open the bowels; also, take three pills of No. 2, half an hour before each meal, three times daily.

A THRESHER ASTRAY.

ABOUT the 20th of June last, Messrs. A. & W. Smith, of Newark, Delaware, forwarded to Mr. Thomas Hanson's care, of Baltimore, a Thresher belonging to the subscriber's Grain Machine, which had been sent on to them for repairs. It is a tooth machine, and it is supposed that it has been forwarded to some other gentleman by mistake. Should this advertisement meet the eye of the person having it in possession, he will much oblige the owner if he will forward it to Baltimore at once, as it is much needed, to the care of Emory & Stevens, Bowley's Wharf.
