are ENOLOGICAL

I is a remarkable fact, that while the consisting and the surface of the present will be devoted to the embelliable make opicities is advocate its truths, repet the attacks mast upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials already existing and daily augmenting, with which to crick such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present vich occur, and all advocated ices.

nology: but these do not meet the present ne-cessity. A periodical which is avowedly observed by the property of the present of the present ne-transfer of the present netrons of the stitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connectwanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellang."

The object of this work will be to serve from obligion. ed with those facts, is now needed; and a strong feeling of this necessity, together with Subscriptions, and letters of business,

illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and mo-rals) on the Medical Treatment of the In-sance on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tender cies, suppose that they find in it an instr which to subvert the truths of rerealed religion, and loosen the bonds of human accountability, and moral obligation.—
A frequent subject of discussion in our pages
will therefore be, The Harmony between the
truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the quiries and objections, not of cavillers, but remain of the truly candid, and the conscientiously of the truly candid, and the conscience of the truly candid, and the conscience of the truly candid, and the conscience of the proportion of citizens distinguished for tways welcome to our pages, and they will always be treated with kindness; as, also, always be treated with kindness; as, also, confident of a liberal support from an onlightened and confident of a liberal support from an onlightened and nology. But the captious and cavillers will pains to investigate, may expect a merit-

which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our

JONAS GREEN,

Prepared by himself.

TO MOTHERS AND NURSES. The passego of the Tooth through the guns produces real-session and dangerous symptoms. It is known by sucher that there is great irritation in the mouth and section that there is great irritation in the mouth and section that the section of the sublesseen and unique to a great irritation in the month and susters that there is great irritation in the month and sustering this process. The grams swell, the socreties of mirries is mercasco, the child is soized with freezi and sudden fits of crying, watchings, starting in the sloop, and spassus of poculiar parts; the child alresses with attento violence, and thrusts its fingers into its swith. If these procursory symptoms are not spoodily addrained, spassusous convulsions universally supervene, selece cases the dissolution of the infant. If mothers who have their little bakes afflicted with these disjustices of the symptoms, would apply Dr. William Evans' Cabrated Soothing Syrup, which has preserved hundred of infants when the origin past recovery, from being satisfully attacked with that fatal malady, convulsions.

A REAL BLESSING TO MOTHERS. Dr. IV. Evans' Celebrated Southing Sy

Dr. W. Evanz' Celebrated Nootning syrup, for Children Cutting their Teeth. This infallible ramedy has preserved hundreds of children, when thought past recovery, from cauvalsions. As soon as the Syrup is rubbed on the game, to child will recover. This preparation is so innecest, o efficacions, and so pleasant, that no child will are the ago of four months, though there is no appearance of tooth, one bottle of the Syrup should be said on the game, to open the pores. Farents should paranos of tooth, one bottle of the syrup snown are good and gums, to open the porcs. Purents should here be without the Syrup in the nursery where there are young childrent; for if a child wakes in the hight with pain in the gums, the Syrup immediately gives use by opening the porce and healing the gums; thereby persenting Convulsions, Fevers, etc.

by preventing Convulsions, Fevers, &c. ...

(F) Proof Positive of the Esseacy of Dr. Evans' Stothing Syrup:

To the Agent of Dr. Evans' Soothing Syrup:

The great benefit assorted to my sussaing infant by your Soothing Syrup, in a care of protracted and masside dentition, must convince every feeling parent we essential an early application of such an invaluational intesticine is to relieve instant misery and torture My shatt, while teching, experienced such acute suffering, that it was attacked with convulsions, and my wife at amily supposed that death would soon release the isolating supposed that death would soon release the isolating was produced, and after a few applications the sid displayed one or relies, and by continuing in its see, I am glad to inform you, the child has completely severed and nearcourrence of that awfal complaint his since occurred, the tooth are commaning daily and thicklid enjoys perfect health. Tigive you my chearful pmission to make this acknowledgement public, and migladly give any information on this circumstance.

The gentleman who has made trial of Dr. W. E. mas Soothing Syrup in his family, (in case of a toothing child), wishes us to state that he found it entirely official in relieving pain in the gume, and preventing the consequences which sometime follow. We cheerfully comply with his request.—N. York Sus.

If We believe it is generally acknowledged by those the lare tried it, that the Soothing Syrup for Children Catting Teeth, advertised in another column, is a highly refal article for the purposes for which it is intended light respectable persons, at any rate, who have made used it, do not he sitate to give its virtues the sanction of their names.—Boston Traveller.

The A SEVERE CASE OF TEETII-ING, NYTTII SUMMER COMPLAINT, card by the infallible American Soothing Syrup of Dr. W. Evans.

ING, WITH SUMMER COMPLAIN?, ered by the infallible American Soothing Syrup of I.W. Evans. Mrs. McPaurson, residing at No. 8, Maison street, called a few days since at the medical size of Dr. W. Evans. 190 Chatham street, N. Y and parchased a bottle of the Syrup for her child, who was suffering excraciating pain during the process of thation, being momentarily threatened with convulsiona, its bowels too were exceedingly losse, and no feel could be retained on the stomach. Almost immediately an its application, the alarming symptoms on fool could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely ceased, and by continuing the use of the symposite reason and the symposite reason and the symposite reason. As a tribute of gratitude for the benefit afforded the child, the mother came of her own accord, and fooly sanctioned publicity to the above. Pray be suitcular in applying at 100 Chatham stroot, as there are several counterfeits advertised. No other place in the city has the genuine for sale.

IT IMPORTANT TO MOTHERS.—Children (carally suffer much uncaraises from cutting their

Children Charles To MOTHERS.—Children Charles suffer much uncasiness from cutting their both. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly printated and inflamed condition of the parts—therefore the principal indications of cure are to abute heinflumpation and the action matter and relies the is a functional indications of curo are to abate to inflammation, and to softon, soothe, and relax the game. If that is effected, the infant is preserved from subsequent fever, inflammation, spasmodic -cough, twitching of tendens, croup, canker, and convulsions, diplaying their fatal consequences. If mothers, nurses, or guardians have their babes tortured with painful and protracted dentition, and this notice attracts their itention, they should not be deterred from purchasing a bettle of EVANS SOOTHING SYRUP for Children Tetthing, the incomparable virtue of which in bottle of EVANS SOOTHING SYRUP for Childron Tetthing, the incomparable virtue of which in completely relieving the most distressing cases (when applied to the infant's guans as directed) is invaluable. The remedy has restored thousands of childron when so the verge of the grave, to the embraces again of their citracted parents, attacked with that awful and mortiferous malady—Convulsions.

DIRECTIONS.

DIRECTIONS.

TPlease shake the bottle when first opened. When children begin to be in paintwith their tooth shooting in their gums, put a little of the Syrup in a tea-poon, and with the finger let the child's gume be rabbed for two or three minutes, three times a day. It must not be put to the breast immediately for the milk would take the syrup off too soon. When the tooth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fever, and undergoing that painful operation of lacing the gums, which always makes the next tooth such harde to come they and sometimes sances death. Seld at Dr. W. Eyans Office, 100 Chatham street, key York; and by M his Agents throughout the Union.
