

For publishing in the City of Baltimore a Daily and Tri-Weekly Paper to be called the

# BALTIMORE POST AND COMMERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

**I. POLITICS.**—The Post and Transcript will be the firm and undeviating advocate of the doctrine of democratic republicanism, which constitutes the fundamental elements of our social and political system. As this doctrine imports, on the great question of National Politics, the paper will be of the strict constructionist school, maintaining that the action of Government should be limited to the exercise of those powers which are specifically enumerated in the constitution. It will consequently oppose the measures of those who by a loose interpretation of this sacred charter of our liberties, seek the establishment of schemes subversive of the principles upon which the fair fabric of our government is reared, and which, unchecked, tend to confusion and anarchy from which no relief can be found but in despotism.

Among these schemes, regarded as obviously dangerous tendencies, is that of a National Bank, which, however harmless or useful it might be in the full strength and unanimity of the republic, would, in a state of danger, its branches penetrating every part of the country, and in the words of Jefferson, "acting by command and in phalanx," have power to interfere seriously and alarmingly to the operations of government.

The assumption of the right to impose a tariff beyond the duties necessary to supply the constitutional wants of government; the appropriation of the public means upon schemes of internal improvement, and the interference of government with the domestic institutions of the States, particularly with the institution of Slavery, will be equally opposed as encroachments upon the constitution and upon the rights of States.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the conditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the fiscal operations of Government one of obvious necessity. The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a measure calculated to remove government from the contingencies to which its connection with Banks renders it liable—one which will insure stability and uniformity in its fiscal action, and reduce the potent influence of the Executive over a large of deposit Banks, to the mere power of appointing the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Banking Institutions will not be opposed. On the contrary their interests—with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the country.

Such is the outline of the doctrines for the advocate of which the new paper is to be commenced, and to the doctrine and vindication of which the Editor pledges his best support. They are the doctrines of the present administration; and as their continuance and efficiency depend much upon the energy and zeal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presidency, as one who has proved his self eminently qualified to uphold and defend them and insure their unobscured action. It is believed the Post and Transcript will not be found an unworthy coadjutor of the democratic paper already engaged in the cause in this city.

On the subject of State politics the paper will advocate a judicious reform, consistent with the spirit and principles of our republican institutions. Aware of the great caution and deliberation with which this subject should be approached, it will nevertheless fearlessly advocate such changes as our own experience has convinced us to be necessary, or such as the history of other States in the confederacy has taught to be wise and salutary.

The all important subject of Internal Improvement will be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early completion of the great works in which the State is already so deeply interested, will be urged as positively necessary to procure unimpeded the public faith and to secure the true and permanent prosperity of our City and State.

**II. COMMERCE.**—The commercial department of the paper will be attended to with the utmost care, and no effort will be spared to render the information relative to foreign, domestic and local markets, and the general state of trade, full and satisfactory.

**III. AGRICULTURE.**—This important subject will receive more attention than has usually been paid to it in similar publications; and besides detailing facts of importance to the farmer and planter, it is intended to discuss the principles of agricultural economy and to claim for the husbandman that station as a citizen and an important producing agent, to which his independence and labors entitle him.

**IV. THE ARTS.** both fine and mechanical, will have their appropriate department, and such discussion will be entered into as will tend to elevate the true principles upon which both are founded and to foster the efforts of native genius and skill rather than of foreign ingenuity.

**V. LITERATURE AND NEWS.**—The Post and Transcript will aim at nourishing a sound and pure literary taste, and at the same time will endeavor to equal the best of its contemporaries in judicious selections and in the promptitude, accuracy and extent of its general intelligence, foreign and domestic.

The first number will be issued in the course of the present month, after which it will be regularly continued. It is desirable that the names of subscribers be returned as speedily as possible to the Publisher.

**TERMS.**—The Post and Transcript will be of the largest class of newspapers—the Daily at \$3, and the Tri-Weekly at \$5 per annum, payable in advance, or quarterly.

For all orders must be addressed to S. P. BRINNER, Editor Post and Transcript, Baltimore, Md.

On those containing remittances may be forwarded at the expense of the publisher; all others, must be paid.

Doctor **W. EVANS' SOOTHING SYRUP, FOR CHILDREN TEETHING.**  
Prepared by himself.

**TO MOTHERS AND NURSES.**  
The passage of the Teeth through the gums produces troublesome and dangerous symptoms. It is known by mothers that there is great irritation in the mouth and gums during this process. The gums swell, the secretion of saliva is increased, the child is seized with frequent and sudden fits of crying, watching, starting in the sleep, and spasms of peculiar parts; the child shrieks with extreme violence, and thrusts its fingers into its mouth. If these precursory symptoms are not speedily alleviated, spasmodic convulsions universally supervene, and soon cause the little babes afflicted with these distressing symptoms, would apply Dr. William Evans' Celebrated Soothing Syrup, which has preserved hundreds of infants when thought past recovery, from being suddenly attacked with that fatal malady, convulsions.

**A REAL BLESSING TO MOTHERS.**  
Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of children from the most distressing and dangerous symptoms. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the age of five months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should never be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately given, by opening the pores and cooling the gums, thereby preventing Convulsions, Fevers, &c.

**Proof Positive of the Efficacy of Dr. Evans' Soothing Syrup.**

To the Agent of the Soothing Syrup: Dear Sir, The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and painful dentition, most convince every feeling parent the essential early application of such an invaluable medicine is to relieve infant from the most distressing and dangerous symptoms, such as acute suffering, spasms, convulsions, and with my wife and family I would that death would soon release the babe from anguish till we procured a bottle of your Syrup, which as soon as applied to the gums, the child displayed obvious relief, and by continuing in its use, I am glad to inform you, the child has completely recovered and no recurrence of that awful complaint has since occurred, the teeth are coming daily and the child is thriving, and I give you my cheerful testimony to make this acknowledgment public, and will gladly give any information on this circumstance.

**WM. JOHNSON.**  
A gentleman who has made trial of Dr. W. Evans' Soothing Syrup in his family, in a case of a wonderful infant, writes to state that he found it entirely effective in relieving pain in the gums, and preventing the consequences which sometimes follow. We cheerfully comply with his request.—*N. York Sun.*

**WE believe it is generally acknowledged by those who have tried the Soothing Syrup for Children Cutting Teeth, advertised in another column, is a highly useful article for the purpose for which it is intended. Highly respectable persons, at any rate, who have made use of it, do not hesitate to give its virtues the sanction of their names.—Boston Traveller.**

**IT IS A SEVERE CASE OF TEETHING, WITH SUMMER COMPLAINT.**  
Dr. W. Evans' American Soothing Syrup of Dr. W. Evans, Mrs. McPherson, residing at No. 8, Madison street, called a few days since at the medical office of Dr. W. Evans, 100 Chatham street, N. Y., and purchased a bottle of the Syrup for her child, who was suffering, and in the process of dentition, being momentarily threatened with convulsions, its bowels too were exceedingly loose, and no food could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely ceased, and by continuing the use of the Syrup, the child, the mother came of her own accord, and freely sanctioned publicity to the above. Place be particular in applying at 100 Chatham street, as there the genuine benefits are sold. No other place in the city has the genuine for sale.

**IT IS IMPORTANT TO MOTHERS.**—Children generally suffer much uneasiness from cutting their teeth. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly irritated and inflamed condition of the parts—therefore the principal indications of cure are to abate the inflammation, and to soothe, and relax the gums. If that is effected, the infant is preserved from subsequent fever, inflammation, spasmodic cough, triching of tendons, convulsions, and convulsions, displaying their fatal consequences. If mothers, nurses, or guardians have their babies tortured with painful and protracted dentition, and this notice attracts their attention, they should not be deterred from purchasing a bottle of **EVANS' SOOTHING SYRUP** for Children Cutting Teeth, the incomparable virtue of which in completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The remedy has restored thousands of children when at the verge of the grave, to the embraces again of their distracted parents, attacked with that awful and mortal disease—Convulsions.

**DIRECTIONS.**  
Please shake the bottle when first opened.

When children begin to be in pain with their teeth shooting in their gums, put a little of the Syrup in a spoon, and with the finger let the child's gums be rubbed for two or three minutes, three times a day. It must not be put to the breast immediately for the milk would take the Syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the Syrup; it will prevent the children having a fever, and undergoing that painful operation of cutting the gums, which always makes the next tooth much harder to come thro' and sometimes causes death.

**HIGHLY IMPORTANT.**  
Nervous diseases, liver complaint, dyspepsia, biliousness, piles, rheumatism, consumption, coughs, colic, spitting of blood, pain in the chest and side, ulcers, female weakness, all delicate and mercurial diseases are

successfully treated at Dr. EVANS' Medical Office, 100 Chatham street, New York.

**Dr. EVANS' CAMOMILE AND APERIENT PILLS.**  
ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompanied by indigestion, wherein the greatest evils are apprehended upon the slightest grounds, and the worst consequences ensue. Ancient medical writers proposed this disease to be confined to those particular regions of the abdomen technically called hypochondria, which are situated on the right or left side of that cavity, whence comes the name hypochondriac.

**Symptoms.**—The common corporeal symptoms are, flatulency in the stomach or bowels, acrid eruptions, costiveness, spasmodic pains and often an utter inability of fixing the attention upon any subject of importance or engaging in any thing that demands vigour or courage. Also languidness—the mind becomes irritable, thoughtful, depending, melancholy and dejected, accompanied by a total derangement of the nervous system. The mental feelings and peculiar train of ideas that haunt the imagination and overwhelm the judgment, exhibit an infinite diversity. The best of men are as open to this affliction as the weakest.

**Causes.** A sedentary life of any kind, especially severe study, protracted to a late hour in the night, and rarely relieved by social intercourse or exercise, a dissolute habit, great excess in eating and drinking, immoderate use of mercury, violent purgatives, the suppression of some habitual discharge, (as the obstruction of the menses) or long continued eruption; relaxation or debility of one or more important organs within the abdomen is a frequent cause.

**Treatment.** The principal objects of treatment are, to remove indigestion, strengthen the body, and soothe the spirits, which may be promoted by exercise, early hours, regular meals, pleasant conversation—the bowels (if costive) should be carefully regulated by systematic use of a mild aperient. We know nothing better adapted to obtain this end, than Dr. Wm. Evans' Aperient Pills—being mild and certain in their operation. The bowels being once cleansed, his inestimable Camomile Pills, (which are tonic, anodyne, and anti-spasmodic) are an infallible remedy, and without dispute have proved a great blessing to the numerous patients.

Some physicians have recommended a free use of mercury, but it should not be resorted to; in many cases it greatly aggravates the symptoms.

**THE BARON VON HUTCHLER HERB PILLS.**

These Pills are composed of Herbs, which exert a specific action upon the human system; the blood is quickened and equalized in its circulation through all the vessels, whether of the skin, the parts situated internally, or the extremities; and as all the secretions of the body are drawn from the blood, there is a consequent increase of every secretion, and the quickened action of the absorbent and exhalent, or discharging vessels. Any morbid action which may have taken place is corrected, and obstructions are removed, the blood is purified, and the body resumes a healthy state.

These Pills, after much anxious toil and research, having been brought by the Proprietor to the present state of perfection, supersede the use of the innumerable other medicines; and are so well adapted to the frame, that the use of them, by maintaining the body in the due performance of its functions, and preserving the vital stream in a pure and healthy state, causes it to last many years longer than it otherwise would, and the mind to become so composed and tranquil, that old age when it arrives, will appear a blessing, and not too many who have not the health or constitution, or had them injured by medicines administered by ignorance a source of misery and abhorrence.

They are so compounded, that by strengthening and equalizing the action of the heart, liver, and other organs, they cure the most anxious and morbid, which renders the blood impure, out of the circulation, thro' the excretory ducts into the passage of the bowels, so that by the brisk or slight evacuations, which may be regulated by the doses of the **HERB PILLS**, always remembering that while the exertions from all the vessels of the body will also be going on in the same proportion, by which means the blood invariably becomes purified.

Steady perseverance in the use of the Herb Pills will undoubtedly effect a cure even in the most acute or obstinate disease; but in such cases the dose may be augmented, according to the inveteracy of the disease; these Pills being so admirably adapted to the constitution, that they may be taken at all times.

In all cases of Herbs, Nervous Irritability, Nervous Weakness, Flur Albus, Seminal Weakness, Indigestion, Loss of Appetite, Flatulency, Heartburn, Green Debility, Bodily Weakness, Chlorosis or Green Sickness, Flatulent or Hypochondriacal Pains, Hysterics, Headache, Hiccough, Sea Sickness, Night-Mare, Gout, Rheumatism, Asthma, Tics, Deconvulsions, Cramp, Spasmodic Affections, and those who are victims to that most execrable disorder, *Gout*, will find relief from their sufferings, by a course of the Herb Pills.

**Causes.** Vomiting, Pains in the Side, Limbs, Head, Stomach or Back, Dimness or Confusion of Sight, Noises in the inside, alternate Flushings of Heat and Chillsness, Tremors, Watchings, Agitation, Anxiety, Bad Dreams, Spasms, will in every case be relieved by an occasional dose of the Herb Pills.

One of the most dangerous epochs to females is at the change of life; and it is then they require a medicine which will so invigorate their circulations, and thus strengthen their constitutions as may enable them to withstand the shock. This medicine is the Baron von Hutchler Herb Pills.

Those who have the care and education of females, whether the studious or the sedentary part of the community, should never be without a supply of the Herb Pills, which remove disorders in the head, invigorate the mind, strengthen the body, improve the memory, and soothe the imagination.

When the Nervous System has been too largely drawn upon or overstrained, nothing is better to correct and invigorate the drooping constitution than these Pills.

## POETRY.

*From the Lancaster Intelligencer.*  
**AUTUMN.**

Sweet Sabbath of the year  
When evening lights decay,  
The parting steps, methinks I hear  
Steal from the world away.

Along thy sunset skies  
Their glories melt in shade;  
And like the things we fondly prize,  
Seem lovelier as they fade.

A deep and crimson streak,  
The dying leaves disclose;  
As on Consumption's waning cheek,  
'Mid rain, blooms the rose.

Thy ear each vision brings,  
Of beauty in decay;  
Of joys that come no more;  
Too exquisite to stay;

Of joys that come no more;  
Of flowers whose bloom is fled;  
Of芳wells wept upon the shore;  
Of friends estranged, or dead.

Of all that now may seem,  
To memory's tearful eye;  
The vanished beauty of a dream,  
O'er which I gaze and sigh.

## MISCELLANEOUS.

**THE NUMBER SEVEN SACRED.**

In 6 days creation was perfected and the 7th was consecrated to rest. On the 7th of the 7th month a holy observance was ordained to the children of Israel, who fasted 7 days and remained 7 days in tents; the 7th year was directed to be a sabbath of rest for all things—and at the end of the 7 times 7 years commenced the grand jubilee—every 7th year the land lay fallow—every seventh year there was a general release from all debt and all bondmen were set free. From this law may have originated the custom of binding young men to 7 years apprenticeship, and of punishing incorrigible offenders by transportation for 7 years, twice 7 or 3 times 7 years; every 7th year the law was directed to be read to the people; Jacob served 7 years for the possession of Rachel, and also another 7 years: Noah had 7 years warning of the flood, and was commanded to take the fowls of the air into the ark by 7's, and the clean beasts by 7's, the ark touched the ground on the 7th month, and in 7 days a dove was sent, & again in 7 days after. The 7 years of plenty and the 7 years of famine were foretold in Pharaoh's dreams, by the 7 fat and 7 lean beasts, and the 7 ears of full corn, and the 7 ears of withered corn. The young animals were to remain with the dam 7 days, and at the close of the 7th taken away.

By the old law man was commanded to forgive his offending brother 7 times; but the meekness of the last revealed religion extended his humanity and forbearance 70 times 7 times. If Cain should be revenged 7 fold, truly Lameth 70 times 7. In the destruction of Jericho, 7 priests bore trumpets 7 days; on the 7th day surrounded the wall seven times, and after the 7th time the wall fell. Balazam prepared 7 bullocks and 7 rams for sacrifice; 7 of Saul's sons were hanged to stay famine; Laban pursued Jacob 7 days journey; Job's friends sat with him 7 days and 7 nights, and offered 7 bullocks and 7 rams as an atonement for that wickedness; David in bringing up the ark, offered 7 bullocks and 7 rams. Elishah sent his servant 7 times to look for the cloud; Hezekiah in cleaning the temple offered 7 bullocks and seven rams, and seven he goats for a sin offering. The children of Israel, when Hezekiah took away the strange altars kept the feast of unleavened bread 7 days, and again 7 other days. King Asmerus had 7 chamberlains, at 7 days feast, sent for the Queen on the 7th day, and in the 7th year of his reign she was taken to him.

Queen Esther had 7 maids to attend her; Solomon was 7 years building the temple; in the dedication of which he feasted 7 days—in the tabernacle were 7 lamps; 7 days were appointed for an atonement upon the altar; and the priest's son was ordained to wear his father's garment 7 days; the children of Israel ate unleavened bread 7 days; Abraham gave 7 ewe lambs to Abimelech as a memorial for a well; Joseph mourned 7 days for Jacob; the Rabban said God employed the power of answering this number to perfect the greatness of Samuel, his name answering the value of the letters in the Hebrew word which signifies 7—when Hannah, his mother, in her thanks says, "that the barren had brought fourth seven." In the Scriptures are enumerated 7 resurrections, the widow's son by Elias, the Shunamite's son by Elishah, the soldier who touched the bones of the prophet, the daughter of the ruler of the synagogue, the widow's son of Nain, Lazarus, and our blessed Lord. Out of Mary Magdalene was cast 7 devils.

The apostles chose 7 deacons. Enoch who was translated, was the 7th after Adam, and Jesus th 7th in a direct line. Our Saviour spake 7 times from the cross on which he remained 7 hours; he appeared 7 times after he remained 7 days he sent the Holy Ghost.

In the Lord's prayer are 7 petitions, expressed in 7 times 7 words, omitting those of mere grammatical connexions. Within this number are contained all the mysteries of the Apocalypse, revealed to the seven churches of Asia; there appeared 7 golden candlesticks, and 7 stars in the hand of him that was in the midst; 7 lamps bearing 7 spirits of God. The book with 7 seals, lamb with 7 horns and 7 eyes, 7 angels with 7 seals, 7 Kings, 7 thousand men slain. The dragon with 7 heads; and the 7 angels bearing 7 vials of wrath. The vision of Daniel 70 weeks.

The fiery furnace was made 7 times hotter for Shadrach, Meshack and Abednego; Nebuchadnezzar ate grass on the field 7 years. The elders of Israel were 70. There are also numbered 7 heavens, 7 planets, 7 stars, 7 wise men, 7 champions of Christendom, 7 notes in music, 7 primary colours, 7 deadly sins, 7 sacraments in the Roman Catholic Church; the 7th son was considered as endowed with pre-eminent wisdom. The 7th son of a 7th son is still thought by some to possess the power of healing diseases spontaneously. Perfection is likened to gold seven times purified in the fire, and yet we say, "you frighten me out of my seven senses."

Anciently a child was not named before 7 days, not being accounted fully to have life before that periodical day. The teeth spring out in the 7th month, and are shed and renewed in the 7th year, when infancy is changed into childhood. At thrice 7 years the faculties are developed, manhood commences, and we become legally competent to all civil acts; at 3 times 7 a man is in full possession of all his strength; at 5 times 7 he is fit for the business of the world; at 6 times 7 he becomes grave and wise or never; at 7 times 7 he is in his apogee and from it he decays. At 8 times 7 he is in his first climacteric; at 9 times 7 or 63, he is in his grand climacteric, or year of danger; at 10 times 7, or 3 score years and 10, has by the royal prophet been pronounced the natural period of life.

There were 7 chiefs before Thebes. The blood was sprinkled 7 times before the altar. Naman was to be dipped 7 times in Jordan. Apuleia speaks of dipping the head 7 times in the sea for purification. In all solemn rites of purgation, dedication and consecration, the oil of water was 7 times sprinkled. The house of wisdom in the Proverbs, had 7 pillars.—*Old Colony Memorial.*

**DR. WM. EVANS' CELEBRATED FEVER AND AGUE PILLS.**

These pills, so admirably adapted to afford uniform relief in the different modifications of these distressing maladies, are particularly recommended to public notice. On the accession of the cold stage, when the face and limbs of the sufferer become pale, and the sensation of cold and languor is felt pervading the whole system—their administration is accompanied with astonishing success—they soon loosen the subsequent distressing shivering and violent shaking, and by continuing in their use, (as directed) will ultimately cure the most obstinate ague. These pills are of signal utility in those distressing cases, where there is a salivaceous complexion, pain in the region of the liver, tension and distress in the epigastric region, with other symptoms indicating the existence of morbid action, or chronic disease of the stomach, liver, bowels, mesentery or spleen, which consequences so generally supervene from protracted intermittents. They permanently overcome those diseases—at the same time give tone to the stomach, cleanse and strengthen the bowels and impart health, vigour and energy to the system. Many persons unacquainted with the rich and fertile soil of the West, in the hope of attaining a future competency, but alas! ere long that hope becomes blasted, when they appear with impaired and enfeebled constitutions, resulting from attacks of that direful terror of the West, Fever and Ague. If such persons had resorted to the use of the above pills, the sunken pallid countenance would have been restored to its florid hue, the vital energy re-established, and the whole system purified and invigorated. They are now regarded as an indispensable public blessing, and indispensable to the health, comfort, and even the local prosperity of the inhabitants of many portions of our western country.

In all cases of bilious and Nervous Fever, Hypochondriacal, Low Spirits, Palpitations of the Heart, Nervous Irritability, Nervous Weakness, Flur Albus, Seminal Weakness, Indigestion, Loss of Appetite, Pains in the Side, Limbs, Head, Stomach or Back, will invariably be removed by the use of the Pills.

On first feeling the premonitory symptoms occur, it is advisable to commence their use at once, and continue them until the system is cleared thoroughly of the morbid matter. In no way can this be better and less inconveniently effected, than by taking a few doses of

**DR. EVANS' PURIFYING PILLS,**  
the value and well-authenticated virtues of which medicine have been, and still are, too apparent to call for further comment. They tend to promote a healthy secretion of the bile, and render the system capable of receiving with benefit the invigorating and strengthening Pills.

**Directions are as follow:**—Take four or more of the Purifying Pills on the first accession of Fever, and continue the same number every other night, till with the additional use of the Invigorating Pills, a permanent cure is obtained.

Take three of the Invigorating Pills in the morning, three at noon, and three in the evening, on the days when the attacks do not occur.

The attacks usually occur every other day.

Price One Dollar a pack, containing both kinds of Pills. Sold at Dr. EVANS' Medical Establishment, 100 Chatham street, N. Y., and by his authorized Agents throughout the Union.
