take. Should this advertisement meet the
eye of the person having it in possession, he

ward it to Baltimore at once, as it is much
needed, to the care of Emory A. Stevens,

Mr. and Mrs. S. F. STREETER'S
Boarding and Day School for
Young Ladies,
SARATOGA STREET, BALTIMORE
MRS. HAMILTON having relinquished
the Boarding Department of her Institution for
the education of young Ladies, in Saratoga street,
to Mr. and Mrs. STREETER, it becomes necessary to
submit to their former patrons and the public the ar-
rangements for the ensuing year, consequent on the
change so recently taken place. In transferring so
important a charge to themselves, their pupils
and their friends, induces them to express their entire
confidence in the zeal, ability, and full qualifications of
their successors. Mr. Streeter is a graduate of Har-
vard University, and has had long experience as Prin-
cipal in our first schools in the city of Boston. He
will unquestionably win the same approbation here,
with which his labours of instruction have been re-
garded elsewhere. Mrs. S. is eminently qualified to
guide the young of her sex, secure their obedience and
command their respect. They are sincerely con-
nected to the continued patronage of the former friends of
the establishment, and to the favour of the public.
Mr. and Mrs. STREETER respectfully announce
that they will receive the entire charge of the *Board-
ing Department* in the Institution formerly under the
care of Mr. & Mrs. Hamilton, in Saratoga street, Bal-
timore, on the first Monday in September next.
Sensible of the importance of female education, and
desirous of raising the standard of attainment in all
its branches, they are desirous to afford a liberal
and judicious course of instruction, and to afford a
young lady the opportunity of acquiring a liberal
education, and to render its acquisition as agreeable, as to excite a
desire for improvement which will continue after the
relations of mere scholastic life have been dissolved,
and the pupils have entered on the higher and wider
school of human life.
It will be the endeavor of Mr. & Mrs. Streeter to
render their home in every sense a home to those who
may be placed under their care, and to maintain, as far
as possible, an authority strictly parental. All the
branches of solid education, together with those light
and pleasing studies which polish the female character, and
prepare her for the duties of her station, will be
taught, and will receive the same attention, and be
conducted, and the terms upon which boarding scholars
will be received, may be obtained of Mr. STREETER
at his dwelling, late the residence of Mr. Hamilton,
Saratoga street, Baltimore.
The **DAY SCHOOL**, connected with the Boarding
School of Mr. & Mrs. Hamilton, will be under the
associated care of Mr. Hamilton, and Mr. and
Mrs. Streeter, and the next regular session will com-
mence on the first Monday in September next. The
pupils will be prepared to attend the day school, and
the establishment will be open to the reception of
scholars, which are believed to be in all respects
equal, and in many, superior to those of similar in-
stitutions.
If it is earnestly desired that pupils will have
their children introduced as nearly as possible at the
commencement of the school, that an early organiza-
tion may be made, and the publication of the year ca-
talogue best facilitated.

The Blood has hitherto been considered by Em-
pirics and others as the great regulator of the human
system, and such is the devotedness of its adherents
to that erroneous doctrine, that they content them-
selves with the simple possession of this fallacious op-
inion, without enquiring into the primary sources
from whence Life, Health, and vigour emanate, and
what causes pain, sickness, disease and death. Not so
with Dr. Hunt, whose scientific researches and prac-
tical experience so eminently qualify him for the pro-
fession of which he has been one of the most useful
members. He contends—and a moment's reflection
will convince any reasoning mind of the cor-
rectness of his views—that the stomach, liver, and the asso-
ciated organs are the primary and great regulators of
health, and that the blood in very many instances is
dependent on these organs, and that unless medicine
reaches THE ROOT OF THE DISEASE, the
beneficial effects usually prescribed, were but as foils
to cover the ravages of deep seated maladies. Under
these convictions, at the expense of close application,
the doctor has discovered a medicine whose sea-
soning powers are irresistible, and in prescribing it, is with a
knowledge of its being a radical cure of the various
diseases already enumerated, even if applied in the
most critical cases; but he does not pretend to ascribe
to it the power of raising from the bed of affliction
a suppurated abscess, although from positive proofs
within the knowledge of hundreds, he is prepared to
show, that when every other earthly remedy has been
given up.
HUNT'S PILLS
have never been known to fail in effecting two very
valuable results, that of raising from the bed of afflic-
tion, and disease those who have tested their efficacy,
and thus supply a reward Dr. Hunt for his long and
anxious study to attain this perfection in the *HEALTHY*
ART.

DR. HUNT'S PILLS.
In the midst of a general and in many instances
not unfounded prejudice against many of the medical
remedies of the day, Dr. HUNT'S PILLS have the
enviable distinction of universal approbation. They
are perhaps the only medicine publicly advertised that
has the full and unqualified sanction of all the great
physicians of the day. If it is the only one which gives full sa-
tisfaction to its purchasers, Dr. Hunt has the satis-
faction of knowing, that his Pills are not only recom-
mended and prescribed by the most experienced phy-
sicians in their daily practice, but also taken by those
gentlemen who are afflicted with the various symp-
toms of those diseases in which they well know them-
selves to be afflicted. He knows this to be generally the
case in New York, Philadelphia, Albany, Boston, and
other large cities, in which they have an extensive sale.
That they should be so generally and so professionally re-
commended and prescribed, is a strong evidence of their
superiority to all other medicines, and secures the agency of
the most eminent and best informed physicians in the
country to render them useful to all classes, can be
fairly ascribed to their undeniable and preeminent vir-
tues.
Enviably however, as this distinction is, it can easily
be accounted for from the intrinsic and peculiar prop-
erties of the medicine itself. It does not pretend to
cure any disease, but it accomplishes all its purposes, and
is a favour if not the only one which gives full sa-
tisfaction to its purchasers. Dr. Hunt has the satis-

tisfaction to its purchasers, Dr. Hunt has the satis-
faction of knowing, that his Pills are not only recom-
mended and prescribed by the most experienced phy-
sicians in their daily practice, but also taken by those
gentlemen who are afflicted with the various symp-
toms of those diseases in which they well know them-
selves to be afflicted. He knows this to be generally the
case in New York, Philadelphia, Albany, Boston, and
other large cities, in which they have an extensive sale.
That they should be so generally and so professionally re-

superiority to all other medicines, and secures the agency of
the most eminent and best informed physicians in the
country to render them useful to all classes, can be
fairly ascribed to their undeniable and preeminent vir-
tues.
