true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phrenology: but these do not meet the present ne-A periodical which is avowedly cessity. A periodical which is avowerly nhranological—one, whose pages shall con-will be stitute a permanent depository of facts, and which shall be open for the expression of operations of the expression of the expression of operations of the expression of the expression of operations of the expression pinions and the record of principles connect-ped with those facts, is now needed; and a very case, be paid. strong feeling of this necessity, together with a belief that such a work is extensively deand support, has induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to me.

To editors who will give this work will be to me.

bject of this work will be to preserve from oblivion the most interesting of one or two insertions, and forward a paper the very numerous facts, confirmatory and the very numerous lacts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral) on the Medical Treatment of the Insane; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instrument by which to subvert the truths of revealed religion, and loosen the bonds of hu-man accountability, and moral obligation. A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as, also, and the ignorant pretender, who seeks to averthrow a science which he will not be at the pains to investigate, may expect a merit- of useful knowledge. ed rebuke.

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge curselves to publish them, in all cases in which we have satisfacthem, in all cases in which we have satisfactory sourchers for their genuineness; and in tory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement ases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phrenothese instances, the opinions of non-pureno-logical or anti-phrenological writers, as to logical or anti-phrenological writers, as to the degree in which the several organs are the degree in which the several organs are the degree in which the several organs are the head or skill, or a cast of it, properly Fifty Cente will be charged if not paid before the excertified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to presque to

BALTIMORE POST AND COM-MERCIAL TRANSCRIPT.

The Post and Trunscript sall be devoted to Politics, Commerce, agriculture, deta-

I. POLITES.—The Past and Transmist will be the firm and underlating advector of the dectrines of henocrays arreptacions, which constinue the fund-mental elements of our social and political system. As spentia measures of our scenarios persons years, the chie declaration imports; on the great question of Ma-tional Politics the gaper well for of the retirist con-structionist" school, maintaining that the active of Ga-vernment should be limited to the extretio of these powers which are specifically enumerated in the confic fution. It will consequently oppose the measures of those, who by a loose interpretation of this micra omarra of our liberties, seek the establishment of

schemes subversive of the principles upon which the fair fabric of our government is reared, and which, un. checked, tend to confusion and anarch relief can be found but in despotism.

Among these schemes, regarded as of obviously den-gerous tendency, is that of a Mational Bank, which, forces tenopoly, is the case of the state of the full strength and constrainty of the republic, would, in a period of danger,—its branches penetrating every part of the country, and in the words of Jefferson, "acting by command and in phalanz," have power to inter-

The assumption of the right to impose a tariff to yond the duties necessary to supply the constitutional wants of government; the appropriation of the public oney upon schemes of internal improvement, and the interference of government with the d tions of the States, particularly with the institution of Slavery, will be equally opposed as encroachments upon the constitution and upon the rights of States.

The liability of the Banks to periodical convulsions,

and their inability to comply, at all times, with the conditions upon which they are employed by the Tressury, as erinced by the suspensions of 1837, render the measure of dispensing with their agency in conducting the

it liable one which its connection with Banks readen it liable one which will insure stability and uniformity in its fical action, and reduce the potent influence of the Executive ever a league of deposite Banks, to the mere power of appointing the few officers nece mere power of appeinting the few officers necessity to earry out the system. But while the Treasury System will be supported as a judicious facal measure, Bask-ing Lastintuous will not be opposed. On the contray their interests—with such checks as are calculated to secure the object of their creation, will be supported as essential to the prosperity and advancement of the

Such is the outline of the dectrines for the advocacy depend much upon the energy and zeal of those to whom the important office of carrying them into effect is entrusted, the paper will zealously advocate the re-election of MARTIN VAN BUREN to the Presiden cy, as one who has proved himself eminently qualified e aphold and defend them and insure their unemberrassed action. It is believed the Post and Transcript will not be found an unworthy co-adjutor of the democratic paper already engaged in the cause in this city. On the subject of State politics the paper will save cate a judicious reform, consequent with the spirit and principles of our republican institutions. Aware of the great caution and deliberation with which this rub-ject should be approached, it will nevertheless fearless. convinced us to be necessary, or such as the history of other States in the confedracy has taught to be wise

and salutary. The all important subject of Internal Improvement will be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early completion of the great works in which the State is al. ready so deeply interested, will be urged as positively necessary to preserve unimpaired the public faith and to secure the true and permanent prosperity of our City

AREAL BLESSING TO MOTHERS.

Dr. W. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.
This infa'ible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gams, the child will recover. This preparation is so infacent, to efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are the age of four months, though there is no apparance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should serve be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives use by opening the pores and healing the gums; thereby preventing Convulsions, Fevers, &cc.

The Proof Positive of the Efficacy of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup, Dear & The great benefit afforded to my suffering infant by our Soothing Syrup, in a case of protractel and punful dentition, must convince every feeling parent inversamilal an early application of such an invaluation did the second of the Syrup in the second of the Syrup in the second of the Syrup in the second of such an invaluation of such an invalua

PASEVERE CASE OF TEETH-ING, WITH SUMMER COMPLAINT,

ASEVERE CASE OF TEETH-ING, WITH SUMMER COMPLAINT, cared by the infallible American Soothing Syrup of Dr. W. Evans. Mrs. McPherson, residing at No. 8, Mison street, called a few days since at the medical size of Dr. W. Evans, 100 Chatham street, N. Y. and purchased a bottle of the Syrup for her child, who was safering exeruciating pain during the process of featition, being momentarily threaten-d with convulsions, its bowels too were exceedingly loose, and no first could be retained on the stormach. Almost immediately on its application, the alarming symptoms entirely eased, and by continuing the use of the syrup catheguns, the bowels in a short time became quite satural. As a tribute of gratitude for the benefit afforded the child, the mother came of her own accord, and freely sanctioned publicity to the above. Pray be juricular in applying at 102 Chatham street, as there are several counterfeits advertised. No other place in the city has the genuine for size.

In INPORTANT TO MOTHERS.—Children granilly suffer much uneasiness from cuting their text. Whatever dangerous or fatal sympoms attend this process of nature, they are produced divariably from the highly irritated and inflamed conducton of the parts—therefore the principal indications officure are to about the inflammation, and to soften, soothe, and relax the grans. If that is effected, the infant is preserved from raisequent fever, inflammation, spasmodic cough, tritching of tendons, croup, carrier, and convulsions, daylaying their fatal consequences. If mothers, nurses, or guardians have their balks tortured with painful and protracted dentition, and this notice attracts their station, they should not be deterred from purchasing a bottle of EVANS SOOTHING SYRUP for Children Texted the infant's gumas as directed by is invaluable. The remedy has respond to the infant's gumas as directed by is invaluable. The remedy has respond to the infant's gumas of directed by is invaluable. The remedy has reported thousands of children when en the verge of the grave,

We please shake the bottle when first opened.
When children begin to be be pain with their teeth a botting in their gums, put little of the Syrup in a tin-spoon, and with the finger let the child's gums be ribed for two or three minutes, three times aday. It must not be put to the broast immediately for the milk would take the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately reply the syrub; it will prevent the children haring a fever, and undergoing that painful operation of lacing the gums, which always makes the next tooth much harder to come they and sometimes causes death. Sold at Dr. W. Evank Office, 100 Chatham street, New York; and by all his Agents throughout the Union.

Annapolis, Ald.
