ANXAPOLIS: Thursday, November 14, 1830.

The Managers of the Female Orphan Asylus of Anuapolis, beg leave to notify the public in general, but especially those friends and patrons of the Institution, who have been accustomed to furnish articles for sale in aid of its funds, that the ANNUAL FAR will be held early in the month of February, when it is hoped practical evidence will be given, by the abundance of materials, and the liberality of purchasers, of the power of humanity, and christian benevolence, not only to maintain, but even to increase ou charities, during a time of severe unprecedented embarassment. "He that hath pity on the poor lendeth unto the Lord; and that which he hath given will HE pay him again."

NEW YORK ELECTION.

We have little from New York in addition what we published yesterday. The New York Journal of Commerce of yesterday morning publishes returns from all the counties in the state but three, which, if correct, give the Whigs 64 members of the house and the 14cmo-crats 60. The Albany Argus in a slip issued at The tirree counties yet to be heard from are Cattarngus, which sends 2, Broome 1, Franklin 1. In the two first there is some hope that we have succeeded; if so the whigs will have a majority of one only in the House; but if these three counties have gone against us, (as they did last year ) the whig majority in that body will be 8. This is the most they have done.

lected one of the three from that district. The Journal of Commerce of yesterday morning, eays:--- If the estimates in our letter from De hi are correct, the whigs have secured at least two of the three senators of this district. The Administration men have letters, we understand, which are more favourable to them.

In the first, second and fifth districts, which elect one each, we have succeeded. The sixth is not yet heard from. In the fourth, seventh, and eighth the Whigs have succeeded. The 3rd and 6th are now the only ones in doubt. They send four Senators. One of the four as stated above, it is admitted we have elected. Should the other three be against us, the Whig strength in the Senate will be 19 to our 13. Should they be with us the Senate will be tied, in which case the Licut. Governor (Whig) has the cas-

Thus in the most favorable aspect the Whigs will have a majority on joint ballot, perhaps by the casting vote of the Licutenant Governor.— At most their majority in the Senate can Le but 6, and in the House but 8. Last year their majority in the House was 36,

Such has been the onward march of democracy in the Empire State, in spite of the com-lined strength of the Whigs and Abolitionists. The result is not quite what we could have wished, but is nevertheless gratifying as giving the surest evidence that 'hough the people may b momentarily led astray by venality & corruption yet their sober second thoughts'-their deliberate judgment will eventually bring them back to the support of sound principles. There can be no doubt that the vote of New York on the Presidential question will be for MARTIN VAN BUREN. - L'alt. Post.
