## AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

T is a remarkable fact, that while the converts to the belief that Phrenelegy is true, have, within a few years, most astonishingly multiplied, there does not exist on mishingly multiplied, there does not exist on the American continent a single periodical embellishments will, in that case, be inserted, and the attractions of the work be thus multiplied. the attacks made upon it, or answer the enquiries which even candid persons are dis-

know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do necasionally admit articles in favour of phrenology: but these do not meet the present no nology: but these do not meet the present necessity. A periodical which is avowedly whrenological—one, whose pages shall constitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement manded, and will meet with encouragement and support, has induced the publisher to prese t the prospectus of "The Imerican Phrenological Journal and Miscellany."

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and

illustrative of the truth of phrenelogy; to show the true bearings of this science on Education, (physical, intellectual, and morals) on the Medical Treatment of the Insane; on Inc Meanca: A realment of the Meane; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is housel be found inconsiderable. It is hoped, be found inconsiderable-

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendencies, suppose that they find in it an instruwhich to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation.—
A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as, also, will honest and respectful objectors to-Phre nology. But the captious and cavillers will ensure to themselves our silent contempt; chief intention of deroting himself to usofulness—an the ignorant pretender, who seeks to overthrow a science which he will not be at general stock of information, and enlarging the sphere the pains to investigate, may expect a merit- of useful knowledge.

which are supposed to militate against Phre-nology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement own judgment of the cerebral developement in all cases on which we express our opiningion and Morality will not be disregarded.

The Herald will be printed on a medium sheet, with ons, it is obvious that we cannot receive, in these instances, the opinions of non-phrenothese natiances, the opinions of the best of the degree in which the several organs are developed—we must, in every such case, see lift contains will be exacted—and Three Dollars and Fifty Cents per annum, if paid in advance—if not paid before the expiration of six months, the degree in which the several organs are developed—we must, in every such case, see lifty Cents will be charged if not paid before the expiration of the paid before the paid the

Postmasters throughout the country will please to act as agents for this Journal. August 23.

PROSPECTUS.

THE undersigned proposes to publish a Weekly Newspaper in the Village of Leonard. Town, St. Mary's County, Maryland, to be entitled THE

LEONARD-TOWN HERALD, And Saint Mary's and Charles Counties Ad-

In presenting to the public the design of publishing a paper at Leonard-Town, it will only be necessar briefly to explain the plan to be adopted, and the prin ciples to be pursued, in its course of publication; and impressed with the belief it will be approved by the hinking portion of the community, he does not for a moment doubt they will yield him a patronage com-

ensurate with the utility of the enterprise. It seems to be a matter of general surprise that the venerable county of Saint-Mary's, and forming too, an important part of the State of Maryland, sho emained so long destitute of a paper printed and published within its borders-containing as it decided does, so fair a proportion of citizens distinguished fo their talents, integrity and patriotism.

The projector of the proposed useful undertaking confident of a liberal support from an enlightened and generous public, has issued this Prospectus, with the creasing, as far as his humble means will permit, the

The Herald will be conducted on a neutral principle As our object is the establishment of in politics, whether of a general or local characterand the publication of articles calculated to create per sonal excitement or bad feeling in the community will be faithfully and strictly guarded against by the

ses. A faithful account of the current intelligence (whether of a foreign or domestic nature) will be laid before its patrons, and the general principles of Refi-

Declor W. EVANS' SOOTHING SY RUP, FOR CHILDREN TEETH-

Prepared by himself.

TO NOTHERS AND NURSES. TO MOTHERS AND NURSES.

Talpasses of the Teeth through the gums produces treakesoms and dangerous symptoms. It is known by sathers that there is great irritation in the mouth and guns dering this process. The gums swell, the secretion of saliva is increased, the child is seized with frequest and sudden fits of crying, watchings, starting in the sleep, and spasmas of poculiar parts; the child shrieks with extrame violence, and thrusts its fingers into its noth. If these procursory symptoms are not speedily alwisted, spasmodic convulsions universally supervene, and soon cuse the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans (Celebrated Soothing Syrup, which has preserred hundred of infants when thought past recovery, from being stiling attacked with that fattal malady, convulsions.

A REAL BLESSING TO MOTHERS.

De. IV. Evans' Celebrated Soothing Sy

A REAL BLESSING TO MOTHERS.

Dr. IV. Evant' Celebrated Soothing Syrup, for Children Cutting their Tecth.
This infallible remedy has preserved hundreds of children, when thought past recevery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recever. This preparation is so innocent, reficietions, and so pleasant, that ne child will receive the tits gums be rubbed with it. When infants are at the age of four months, though there is no appurance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should sive be without the Syrup in the interty where their are young children; for if a child wakes in the night with pain in the gums, the Syrup inmediately gives use by opning the pores and iscaling the gums, thereby persenting Convulsions, Fevers, &c.

The Proof Positive of the Efficacy of Dr. Evans' Soothing Syrup.

Teths Agent of Dr. Evans' Soothing Syrup. Dear &the great benefit afforded to my suffering infant by your boothing Syrup, in a seast of pretracted and sunfiel deatitism, must convince every feeling parent law eas mind as early application of such an invalua hymedicine is to relieve infant misery and torture. My safant, while tecthing, experienced such acute suffering, that it was attacked with convulsions, and my wife and amily supposed that death would soon release the bub from anguish til we procured a bottle of your Syrup, which as so as a applied to the gums a wonderful chinge was produced, and after a few applications the child displayed oby our relief, and by continuing in its set, I am glad to inform you, the child has completely received and no recurrence of that awful complaint has since occurred, tue tech are emanating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledguent public, and will gladly give any information on this circumstance.

WM JOHNSON.

LT A gentleman who has made trial of Dr. W. E. rups Soothing Syrup in his family, (in case of a tooth.

will gladly give any information on the returnation.

If A gestleman who has made trial of Dr. W. E. rans Soothing Syrup in his family, in case of a teething child,) wishes us to state that he found it entirely effectual in relieving pain in the gums, and preventing the consequences which sometime follow. We cheerfully comply with his request.—N. York Sass.

If We believe it is generally acknowledged by those we have tried it, that the Soothing Syrup for Children Catting Teeth, advertised in another column, is a highly seefal article for the purposes for which it is intended. Ilighly respectable persons, at any rate, who have made use of it, do not hesitate to give its virtues the sanction of their names.—Besten Traseller.

of their names.—Boston Traveller.

The ASEVERE CASE OF TEETH-ING, WITH SUMMER COMPLAINT. ING, WITH SUMMER COMPLAINT, carel by the infallible American Soothing Syrup of Dr. W. Evans. Mrs. McPherson, residing at No. 8, Muisson stroat, called a faw days since at the medical wars of Dr. W. Evans, 100 Chatham street, N. Y. all purchased a bottle of the Syrup for her child, who was rafaring excruciating pain during the process of imition, being momentarily threatened with convulsions, its bowds too were exceedingly loose, and no fird could be retained on the stonnech. Alread immediately on its application, the alarming symboms entirely ceased, and by continuing the use of the syrup on the gums, the bowels in a short time became quite autral. As a tribute of gratitude for the benefit afferded the child, the mother came of her own accord, and freigh sunctioned publicity to the above. Pray be puticular in applying at 100 Chatham street, as there are averal counterfeits advertised. No other place in the city has the gamine for sale.
