Our Town has for some time past presente quite a busy and animated spectacle. The nu-merous arrivals of wagons freighted with produce, and attracted by the ready and excellent market which is furnished here for all the varied productions of the fortile districts which surround us, and their departure with return cargoes of salt, plaster, iron, groceries, &cc. &cc. which are purchased on the most favorable terms, together with the ceaseless puffing and hissing of our locomotives, as they almost hourthe bustle and animation of a thriving city.

Since the seeding of the fall crops was finish. ed, the farmers have been so rapidly pushing their flour into market to avail themselves of the fair and liberal prices which are obtained for it, that the agents of the ruil road company are obliged to "stir their stumps" to carry it off as fast as it is delivered. Three trains and some times four arrive and depart daily, and in one day last week we understand that they carried into Harper's Ferry eleven hundred and twenty five barrels of flour! Estimating twenty five barrels as a wagon load for five horses, it would have required to perform this service, forty-five wagons! forty-five wagoners!! and two hundred and twenty five horses!!! Again, one day this week, mpany's steamer Tennessee carried to the denot at Harper's Ferry a train of twenty-nine ears laden with 650 barrels of flour and seventy five or a hundred live hogs. A good load we would say. - Winchester Republican.
