AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

T is a remarkable fact, that while the converts to the belief that Phrenology is the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are dis-posed to make concerning it. And this is more surprising since the materials already existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropri ate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same law and of divinity. But, notwithstanding the important bearings which phrenologist know their science to have on medicine, and divinity, and law, there is no publication through which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phre-nology; but these do not meet the present necessity. A periodical which is avowedly nhrenological-one, whose pages shall cor stitute a permanent depository of facts, and which shall be open for the expression of opinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, his induced the publisher to present the prospectus of "The American Phrenological Journal and Miscellany."

The object of this work will be to preserve from oblivion the most interesting of very numerous facts, confirmatory and illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and moral;) on the Medical Treatment of the Inrais) on the Medical Treatment of the In-same; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; while the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tenden-cies, suppose that they find in it an instru-ment by which to subvert the truths of revealed religion, and loosen the bonds of human accountability, and moral obligation .-A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously fearful. Such correspondents we shall always welcome to our pages, and they will always be treated with kindness; as. also, will honest and respectful objectors to Phreensure to themselves our silent contempt; chief intention of devoting himself to usefulness—in and the ignorant pretender, who seeks to overthrow a science which he will not be at general stock of information, and enlarging the sphere the pains to investigate, may expect a merit- of useful knowledge. ed rebuke.

As our object is the establishment o TRUTH, we solicit the communication of facts which are supposed to militate against Phrewe pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement in all cases on which we express our opinions, it is obvious that we cannot receive, in these instances, the opinions of non-phreno-logical or anti-phrenological writers, as to the degree in which the several organs are developed-we must, in every such case, see certified to be true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and im-

sire or expectation of gain tant it is offered to the community, but from moral coasidera tions: from a desire to know and to promul gate truth. Hence should a large subscription list be obtained, a considerable propor tion of the profits will be devoted to the enlargement and improvement of the work true, have, within a few years, most astotrue, have, within a new years, most asternal scribers. More frequent illustrations and scribers are frequent illustrations and the American continent a single periodical embellishments will, in that case, be inserted, and the attractions of the work be thus

JOURNAL AMERICAN SILK SOCIETY RURAL ECONOMIST

Ta Convention which met at Baltimore on the 11th of December last, compos ed of a great number of gentlemen from va-rious parts of the Union, distinguished for their public services, patriotism, and practi-cal intelligence, the following resolutions were unanimously adopted a Resolved, That it is the deliberate opinion

of this Convention that Silk may be grown in all the United States not only for domesplicity. Being constructed principally of tic purposes, but as a valuable article of comiron, both Horse Power and Thresher, the octavo pages, making a volume of not less than 384 pages; curresponding in point of mechanical execution with the heat court. out replenishing, supercedes the necessity of annually sent out of it for the purchase of

ought to be established under the auspices of the Executive Committee, and all the funds over and above the support of said paper the silk carse in the United States.

Under the la der resolution, J. S. SKINKER ving of oil, and prevents them from becoming dry and injuring the machine, which is sented to do so-so far as may be consisten

In the course of the discussions which took place in the Convention, all the difficulties which have been encountered, and which of the silk culture, as a great branch of American industry, were fully considered; and now, in the words of the resolution. Silk ly for domestic purposes, but as a valuable article of commercial export. The suitableness of our soil and climate to the growtl and health of the worm, and the trees which supply its food; the capabilities, the habits, and the genius of our people for conducting the business through its whole process/and the price of American labour as compared with that of silk-producing countries, all were fully canvassed, and the most sceptical became satisfied. The fact is, that ou restrained freedom in the entertainment and discussion of various and discordant doc-trines, religious and political, has imparted References to the superiority of this machine may be had in the surrounding counties of Philadelphia, Montgomery, Berks, Lancaster, Chester and Delaware, Pa.; New land, Gloucester, Burlington, Monmouth, things; American ingensity, unrestrained by Mercer and Middlesex, in New Jersey. P. S. Corn Shellers and Cutting Boxes on may it be asked, after our first cotton spinnal to concentrate and diffuse every ray of floating light on the subject, inwas the opinion of the Convention that we may realize and enjoy, in our own day, the Boon which inflolence and want of concert may procras-tinate, but which nothing short of Turkish

apathy can finally defeat. Caro- tion and bread to the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these bjects of private happiness, and of national dependence.

Independence.

Though Silk, and every thing connected with its production; and all improvements in machinery for its preparation and manufacture, will constitute the chief design and aim journal, for the sake of agreeable and useful variety, a considerable portion of its pages will be dedicated to the justly popular and kindred subjects of agriculture, hortiulture, and rural and domestic econ Hence, the adjunctive title Rural Econo-

The Journal of the American Silk Society will be published monthly, in pamphlet form, each number will contain thirty-two pages, printed on new type and handsome paper,

PROSPECTOR For publishing in the City of Baltimore a Daily and Tri-Weekly Paper to be call-ed the BALTIMORE POST AND COM-MERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

I. POLITICS.—The Post and Transcript will be the firm and undeviating advocate of the doctrines the firm and undersating nervocate or the sections of DEMOCRATIC REPUBLICANISM, which constitute the funds, mental elements of our social and political system. As mental elements of our social and political system. As this declaration imports, on the great question of Na-tional Politics, the paper will be of the "strict con-structionist" school, maintaining that the action of Ga-vernment should be limited to the exercise of these powers which are specifically enumerated in the constitution. It will consequently oppose the measures of those, who by a loose interpretation of this macra CHARTA of our liberties, seek the establishment of nes subversive of the principles upon which the fair fabric of our government is reared, and which, warelief can be found but in despotism.

Among these schemes, regarded as of obviously dangerous tendency, is that of a National Bank, which, owever harmless or useful it might be in the full strength and unanimity of the republic, would, in a riod of danger,-its branches penetrating every part of the country, and in the words of Jefferson, "acting by command and in phalanx,"—have power to inter. ose scrious and alarming obstacles to the operations of

The assumption of the right to impose a tariff be ond the duties necessary to supply the constitutional wants of government; the appropriation of the public money upon schemes of internal improvement, and the interference of government with the domestic institu-tions of the States, particularly with the institution of Slavery, will be equally opposed a meneroachments upon the constitution and upon the nights of States.

The liability of the Banks to periodical convulsions, and their inability to comply, at all times, with the con-

ditions upon which they are employed by the Treasury, as evinced by the suspensions of 1837, render the mea-sure of dispensing with their agency in conducting the fiscal operations of Government one of obvious neces. sity. The Post and Transcript will therefore advocate the adoption of the Independent Treasury System, as a neasure calculated to relieve government from the con

it liable-one which will insure stability and uniformit n its ficeal action, and reduce the potent influence of the Executive over a league of deposite Banks, to the ere power of appointing the few officers necessary to carry out the system. But while the Treasury System will be supported as a judicious fiscal measure, Bank. ing Institutions will not be opposed. On the contrary their interests—with such checks as are calculated to recure the object of their creation, will be supported as sential to the prosperity and advancement of the

of which the new paper is to be commenced, and to the detence and vindication of which the Euron pledger his best support. They are the doctrines of the presen hom the important office of carrying them into effect ey, as one who has proved himself eminently qualified o uphold and defend them and insure their unembarssed action. It is believed the Post and Transcrip vill not be found an unworthy co-adjutor of the democratic paper already engaged in the cause in this city.

cate a judicious reform, consonant with the spirit and the great caution and deliberation with which this subet should be approached, it will nevertheless fearlessly advocate such changes as our own experience has onvinced us to be necessary, or such as the history of other States in the confedracy has taught to be wise

The all important subject of Internal Imprevement rill be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early mpletion of the great works in which the State is all ready so deeply interested, will be urged as positively necessary to preserve unimpaired the public faith and secure the true and permanent prosperity of our City

II. COMMERCE.—The commercial department of the paper will be attended to with the utmost care, and no effort will be spared to ronder the information tive to foreign, domestic and local markets, and the general state of trade, full and satisfactory.

Price-Three Dollars per annum Delor IV. EVANS' SOOTHING SY RUP, FOR CHILDREN TEETH

Prepared by himself.

TO MOTHERS AND NURSES.

The passage of the Teeth through the gums produces stable some and dangerous symptoms. It is known by sother that there is great irritation in the mouth and familiaring this process. The gums swell, the secrepos of saliva is increased, the shid is secied with frequest and studen fits of crying, watchings, starting in he slop, and spanns of poculiar parts; the child shricks riteraturem violence, and thrusts its fingers into its most. If these precursory symptoms are not specify alevited, spassodic convulsions universally supervene, and some cause the dissolution of the infant. If mothers who have their little babes afflicted with these distensing symptoms, would apply Dr. William Evans' Cobstated Soothing Syrup, which has preserved hunderly of infants when thought past recovery, from being silled attacked with that fatal malady, convulsions. TO MOTHERS AND NURSES.

AREAL BLESSING TO MOTHERS. Dr. IV. Evan's Celebrated Soothing Sy-

rup, for Children Cutting their Tecth.

A REAL DLE STAND 10 MOITTERS.

Dr. W. Evant' Celebrated Soothing Syrup, for Children Cutting their Tecth.

This infallible remedy has preserved handreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gams, the child will recover. This preparation is so innocent, the fictious, and so pleasant, that no child will refuse to let its gams be rubbed with it. When infants are at the age of four months, though there is no apparance of teeth, one bottle of the Syrup ishould be used on the gams, to open the pores. Parents should serve by without the Syrup in the nursery where there are young children; for if a child wakes in the night with pila in the gams, the Syrup immediately gives see by opening the pores and healing the gams, there by prevening Convulsions, Fevera, &c.

(T. Proof. Positive of the Efficacy of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup: Dear Sir—The great benefit alforded to my suffering infant by your Soothing Syrup, in a case of protracted and minful dentition, must convince every feeling parent lew easential ane arrly application of such an invalua his medicine is to relieve infant misery and torture. My isfant, while tecthing, experienced such acute sufferings, that it was attacked with convulsions, and my wife and, amily supposed that death would soon release the hale flow may be a supplied to the gams a wonderful change was produced, and after a few applications the child displayed obv our relief, and by continuing in its us, I am glad to inform you, the child has completely recovered and no recurrence of that awful complaint has since occurred, the teeth are emanating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgment public, and will gladly give any information on this circumstance.

I'We believe it is generally acknowledged by those who have tried it, that the Soothing Syrup fo

ING, WITH SUMMER COMPLAINT, ING, WITH SUMMER COMPLAINT, cared by the infallible American Soothing Syrup of Dr. W. Evans. Mrs. McPherson, residing at No. 8, Madison street, called a few days since at the medical slice of Dr. W. Evans, 100 Chatham street, N. Y. and purchased a bottle of the Syrup for her child, who was suffering exeruciating pain during the process of leatition, being momentarily threatened with convolution, its bowels too were exceedingly loose, and no food could be retained on the stomach. Almost immediately on its application, the alarming symptoms entirely caused, and by continuing the use of the syrup on the gums, the bowels in a short time became quite natural. As a tribute of grathands for the benefit afforded the child, the mother came of her own accordand freely sanctioned publicity to the above. Pray be particular in applying at 100 Chatham street, as there are several counterfeits advertised. No other place in the city has the genuine for sale.

the city has the genuine for sale.

IMPORTANT TO MOTHERS.—Children IT IMPORTANT TO MOTHERS.—Chairen guarally suffer much uneasiness from cutting their testh. Whatever dangerous or fatal symptoms attend this process of nature, they are produced invariably from the highly irritated and inflamed condition of the parts—therefore the principal indications of cure are to abate the inflammation, and to soften, soothe, and relax the mereure the principal measurons of cure are to asset the inflammation, and to soften, soothe, and relax the gams. If that is effected, the infant is preserved from subsequent fever, inflammation, epasmodic cough, witching of tendons, croup, canker, and convulsions, displaying their fatal consequences. If mothers, nursa, or guardinas have their babes tortured with painful and protracted dentition, and this notice attracts their attention, they should not be deterred from purchasing a bottle of EVANS SOOTHING SYRUP for Children Tecthing, the incomparable virtue of which in completely relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The ramedy has restored thousands of children when enthe verge of the grave, to the embraces again of their distracted parents, attacked with that awful and mortiferous malady—Convulsions.

DIRECTIONS.

DIRECTIONS.

Please shake the bottle when first opened.

When children begin to be in pain with their teeth shooting in their gums, put a little of the Syrup in a teaspoon, and with the finger let the child's gums be rabbed for two or three minutes, three times a day. It must not be put to the breast immediately for the milk would take the syrup off too soon. When the teeth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fever, and undergoing that painful operation of luncing the gums, which always makes the next tooth much harder to come thro' and sometimes causes death. Sold at Dr. W. Evans' Office, 100 Chathanguren. New York; and by all his Agents throughout the Union.
