## OF THE AMERICAN PHRENOLOGICAL JOURNAL & MISCELLANY.

T is a remarkable fact, that while the converts to the belief that Phrenology is true, have, within a few years, most astoishingly multiplied, there does not exist on the American continent a single periodical whose object is to advocate its truths, repel the attacks made upon it, or answer the enquiries which even candid persons are disposed to make concerning it. And this is the more surprising since the materials al-ready existing and daily augmenting, with which to enrich such a publication, are almost inexhaustible.

The science of medicine has its appropriate media through which to present to the profession and to students all the new facts which occur, and all the new theories which are advocated in the various institutions of medical science throughout the world; and it is proper that it should be so. The same is true of the other leading professions of law and of divinity. But, notwithstanding the important bearings which phrenologists know their science to have on medicine, and divinity, and law, there is no publication which, as the appropriate channel, those bearings may be pointed out. It is true that some newspapers, and also one or two works of a less ephemeral character, do occasionally admit articles in favour of phre-

logy: but these do not meet the present ne-sity. A periodical which is avowedly arenological—one, whose pages shall conarenological—one, whose pages shall con-stitute a permanent depository of facts, and which shall be open for the expression of o-pinions and the record of principles connected with those facts, is now needed; and a strong feeling of this necessity, together with a belief that such a work is extensively demanded, and will meet with encouragement and support, has induced the publisher to present the prospectus of "The American Phrenological Journal and discellang."

The object of this work will be to preserve from oblivion the most interesting of the very numerous facts, confirmatory and containing it to the publisher, the work wil. illustrative of the truth of phrenology; to show the true bearings of this science on Education, (physical, intellectual, and morals) on the Medical Treatment of the In-sane; on Jurisprudence; on Theology, and on Mental and Moral Philosophy. On all these subjects there is encouragement to hope for contributions from several able pens; the resources of the editor himself will not, it is hoped, be found inconsiderable.

The religious character of the work will be decidedly evangelical: for one prominent object in giving it existence is, to wrest Phrenology out of the hands of those, who, in ignorance of its true nature and tendescies, suppose that they find in it an instruwhich to subvert the truths of re vealed religion, and loosen the bonds of human accountability, and moral obligation .-A frequent subject of discussion in our pages will therefore be, The Harmony between the truths of Revelation and those of Phrenology. And on the subject of the religious bearings of our science we respectfully solicit the enquiries and objections, not of cavillers, but of the truly candid, and the conscientiously tearful. Such correspondents we shall always we come to our pages, and they will aiways be treated with kindness; as, also. will honest and respectful objectors to Phre nology. But the captious and cavillers will ensure to themselves our silent contempt; and the ignorant pretender, who seeks to overthrow a science which he will not be at general stock of information, and enlarging the sphere the pains to investigate, may expect a merit-

As our object is the establishment of TRUTH, we solicit the communication of facts which are supposed to militate against Phrenology; and we pledge ourselves to publish them, in all cases in which we have satisfactory vouchers for their genuineness; and in which all the facts in the several cases are furnished to us. But as we must form our own judgment of the cerebral developement in all cases on which we express our opini ons, it is obvious that we cannot receive, in these instances, the opinions of non-phreno logical or anti-phrenological writers, as to the degree in which the several organs are developed—we must, in every such case, see the head or skull, or a cast of it, properly he true to nature.

Original Essays on Phrenological subjects will form part of the Journal; as also, Reviews of Phrenological and Anti-Phrenological works: nor shall we fail to present to our readers such matters of interest and importance as may be found in foreign Phreno logical works of standard excellence, and which are not generally accessible to the A- informs his friends and the public, that he merican public. Our FACTS we pledge our- will open on the 1st August next, that splenselves shall be bona-fide such; and, as often as practicable, we shall accompany our descriptions with illustrative cuts: indeed, we will be called the Union Hotel, and with an intend and expect that scarcely a number assurance that neither expense or labour

especially professional men who are Phreno-logists,) to enrich the work with their conlogists,) to enrich the work with their contributions, we offer for accepted matter, as liberal a compensation per printed page, as is usually afforded by the very first periodicals in our country; but the editor does not promise to endorse all which his correspondents may communicate; nor all which he may admit into the work. To error, if serious, and especially if it affect the interests of morality and religion, he claims the right of correction, in the form of reply, or of the suppression of the objectionable matter; and communications for which compensation is aspected, must be so prepared as to be fit expected, must be so prepared as to be fit Whig; Petersburgh Intelligencer; Winches

sire or expectation of gain tast it is offered to the community, but from moral considera
or expectation of gain tast it is offered to describe the Annapolis and Elk-Ridge Rail Road Company tions: from a desire to know and to promul gate truth. Hence should a large subscrip tion list be obtained, a considerable propor-tion of the profits will be devoted to the enlargement and improvement of the work, without an increase of expense to the sub-scribers. More frequent illustrations and embellishments will, in that case, be inserted, and the attractions of the work be thus

PROSPECTUS.

THE undersigned proposes to publish a Weekly Newspaper in the Village of Leonard Town, St. nty, Maryland, to be entitled THE LEONARD-TOWN HERALD,

And Saint Mary's and Charles Counties Ad-

In presenting to the public the design of publishing a paper at Leonard-Town, it will only be necessary priefly to explain the plan to be adopted, and the priniples to be pursued, in its course of publication; and appressed with the belief it will be approved by the thinking portion of the community, he does not for a moment doubt they will yield him a patronage comnensurate with the utility of the enterprise.

It seems to be a matter of general surprise that the venerable county of Saint-Mary's, and forming too, an nportant part of the State o. Maryland, should have commained so long destitute of a | er printed and pub. lished within its borders—containing as it decidedly does, so fair a proportion of citizens distinguished for

their talents, integrity and patriotism.

The projector of the proposed useful undertaking confident of a liberal support from an enlightened and generous public, has issued this Prospectus, with the chief intention of devoting himself to usefulness-in

The Herald will be conducted on a neutral principle in politics, whether of a general or local character-and the publication of articles calculated to create per sonal excitement or bad feeling in the community will be faithfully and strictly guarded against by the pro-

ses. A faithful account of the current intelligence whether of a foreign or domestic nature) will be laid before its patrons, and the general principles of Religion and Morality will not be disregarded.

The Herald will be printed on a medium sheet, with fair intelligible type, at the moderate price of Two Dollars and Fifty Cents per annum, if paid in advance —if not paid before the expiration of six months,
Three Dollars will be exacted—and Three Dollars and Fifty Cents will be charged if not paid before the expiration of the year. It will be issued as soon as practicable after a sufficient number of subscriberi tained. F. M. JARBOE.

A CARD. OHN A. JONES, formerly of the United States Hotel, Philadelphia, respectfully will be issued without two or more such cuts. have been spared, to render it one of the To encourage Phrenologists of talent (and most complete hotels in the United States,

solicits their patronage. July 18.

The following papers will each insert the for the public eye.

In conclusion, we may be allowed to say, that the pecuniary value of each number will depend much on the extent to which the work is patronised. It is not with the de-

polis and Elk-Ridge Rail Road Company to introduce and continue its Rail Road

within the limits of the City of Annapolis.

[Passed September 9, 1839.]

SECTION 1. Be it established and orderined by the Mayor, Recorder, Aldermen, and Common Council of the city of Annapolis, That the Annapolis and Elk-Ridge Rail Road Company be and it is hereby authorised to introduce, connect, locate and construct, a rail road or roads over and through any street or streets, or lot or lots of ground within the limits of the city of Annapoli , except over and through West

street and Church street in said city.
Sec. 2. And be it established and ordain-2. Each number will contain at least 32 ed by the authority aforesaid, That the said ctavo pages, making a volume of not less Annapolis and Elk-Ridge Rail Road Compaengines on any road or roads so introduced, connected, located and constructed, at its bers at 83 per annum for a single copy; 85 pleasure; provided, that the speed of any (current in Philadelphia or New York) for locomotive or steam eagine so worked and ringer copies, or 810 (current as above) for used shall not exceed the rate of four miles per hour; and provided also, that it shall be the duty of the said Company to provide for, and cause to be kept and used, at all times, spark catchers, of the most approved pat tern, on and with all the locomotives or steam engines so worked and used on any such road or roads as aforesaid.

> ed by the authority aforesaid, That if it locating and constructing any such road or roads as aforesaid for the said Annopolis and occupy any lot or lots of ground or other property within the limits of the said city belonging to individual citizens, the said lo or lots or other property may be so used ame obligations mentioned in the charter of the said Company for the use and occupathe said Company from its intersection with the Bartimore and Washington Rari Road to ts terminus beyond the limits of the city.

Sec. 4. And be it established and ordain ed by the authority aforesaid. That the May-or, Recorder, Aldermen and Common Coun cil aforesaid hereby reserve the power at any and all times hereafter to modify by or-dinance or ordinances the rights hereby granted or intended to be granted of lecating and constructing said road or roads, and of working and using locomotive or steam engines thereon as aforesaid, or to repeal the ordinance hereby enacted, upon giv-Ing six months notice thereof to the said Rail Road Company; provided that in case of any such modification or repeal the May-

improvements connected therewith on and nal to concentrate and diffuse every through any of said street or streets, lot or lots of ground or other property as afore-Sec. 5. And be it established and ordain-

ed by the authority aforesaid, That nothing herein contained shall be construed to prevent the Mayor, Recorder, Aldermen and Common Council aforesaid from enacting at any and all times hereafter any ordinance or ordinances to regulate the way and manner any locomotive or steam engines as aforesaid shall be allowed to pass through any street or streets on or through which the said road or roads may be located and constructed as aforesaid; provided that in case it shall be deemed necessary by the Mayor, Recorder, Aldermen and Common Council aforesaid to change the location of any such road or roads as aforesaid, or any part or of the journal, for the sake of agreeable and parts thereof, for the bezefit of the city of useful variety, a considerable portion of its Annapolis, all the expense consequent there-on, or to be incurred thereby, shall be de- and kindred subjects of agriculture, hortion, or to be incurred thereby, shall be defrayed by the Mayor, Recorder, Aldermen and Common Council aforesaid, any thing contained in this ordinance or any other ordinance to the contrary notwithstanding.

LEM'L. G TAYLOR.

AMERICAN SILK SOCIETY RURAL ECONOMIST.

JOURNAL.

A Ta Convention which met at Baltimore on the 11th of December last, composed of a great number of gentlemen from various parts of the Union, distinguished for their public services, patriotism, and practi-cal intelligence, the following resolutions were unanimously adopted:
Resolved, That it is the deliberate opinion

of this Convention that Silk may be grown in all the United States, not only for domestic purposes, but as a valuable article of com-mercial export—thereby giving an active emmercial export—thereby giving an active em-ployment to American labour, and retaining structionist" school, maintaining that the setion of continuous of dullars in our country, that are vernment should be limited to the exercise of the annually sent out of it for the purchase of powers which are specifically enumerated in the co silken goods.

Resolved, That a National Silk Journal

ought to be established under the auspices of CHARTA of our liberties, seek the establishmen the Executive Committee, and all the funds schemes subversive of the principles upon which over and above the support of said paper ought to be devoted to the advancement of checked, tend to confusion and anarchy from which

the silk cause in the United States.

Under the latter resolution, J. S. SKINNEN, postmaster, of Baltimore, was invited to beome the editor of the work, and has con sented to do so-so far as may be consistent with the strict perfermance of his public du-In the course of the discussions which took

shall become necessary for the purpose of place in the Convention, all the difficulties which have been encountered, and which government.

The assum Elk-Ridge Rail Road Company to use and of the silk culture, as a great branch of Aoccupy any lot or lots of ground or other merican industry, were fully considered; and the result was an universal conviction that. may be grown in the United States, not only for domestic purposes, but as a valuable Slavery, will be equally opposed as encrosehment article of commercial export.? The suita; on the constitution and upon the rights of States. and health of the worm, and the trees which tion, purchase or condemnation of the land supply its food; the capabilities, the habits, used for the line and tracks of the road of and the genius of our people for conducting and the genius of our people for conducting the business through its whole process, and the price of American labour as compared were fully canvassed, and the most sceptical the adoption of the Independent Treasury System, and restrained freedom in the entertainment and discussion of various and discordant doctrines, religious and political, has imparted in its fiscal action, and reduce the potent influence to us, as to our English ancestry, an omni-verous appetite for knowledge, and a capacity to learn in a few years what cannot be ac-quired in ages, where all is dull conformity and routine of thought and of action! Thus has it happened in manufactures as in other ties apparently insurmountable! How long, may it be asked, after our first cotton spinor, Recorder, Aldermen and Common Council aforesaid will and shall guaranty to the said Company a sufficient indemnity for the expense incurred by the said Company in constructing said road or roads and other long it shall take us? With a monthly journal to concentrate and diffuse every ray of the said concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said to concentrate and diffuse every ray of the said contains the floating light on the subject, it was the opinion of the Convention that we may realize and enjoy, in our own day, the boon which indolence and want of concert may procras-tinate, but which nothing short of Turkish

apathy can finally defeat.

Let all then who may feel any concern as cultivators, manufacturers, or venders of silk, or as patriots w 11 og to offer suitable occupation and bread t. /the unemployed and the helpless, come forward in support of a work to be faithfully and honestly devoted to these objects of private happiness, and of national independence.

Though Silk, and every thing connected with its production; and all improvements in machinery for its preparation and manufac culture, and rural and domestie economy, Hence, the adjunctive title Rural Econo mist.

BALTIMORE POST AND COM-MERCIAL TRANSCRIPT.

The Post and Transcript will be devoted to Politics, Commerce, Agriculture, Arts, Literature and News.

I. POLITICS.—The Post and Transcript will ! the firm and undevisting advocate of the doctrines
DEMOCRATIC REPUBLICANISM, which constitute the fun mental elements of our social and political system. his declaration imports, on the great question of tution. It will consequently oppose the measurer those, who by a loose interpretation of this are fair fabric of our government is reared, and which, relief can be found but in despotism.

Among these schemes, regarded as of obviously gerous tendency, is that of a National Bank, which however harmless or useful it might be in the strength and unanimity of the rapublic, would, in eriod of danger,—its branches penetrating every p of the country, and in the words of Jefferson, "acti by command and in phalanz,"-have power to int rose serious and alarming obstacles to the operations

The assumption of the right to impose a tariff youd the duties necessary to supply the constitution wants of government; the appropriation of the publi interference of government with the domestic ins tions of the States, particularly with the institution Slavery, will be equally opposed as encroschments The liability of the Banks to periodical convulsi

and their inability to comply, at all times, with the con ditions upon which they are employed by the Treasury as evinced by the suspensions of 1837, render the mes sure of dispensing with their agency in conducting the rice of American labour as compared fiscal operations of Government one of obvious neer that of silk-producing countries, all sity. The Post and Transcript will therefore advocate measure calculated to relieve government from the co tingencies to hich its connection with Banks rende it liable—one which will insure stability and uniformi the Executive over a league of deposite Banks, to t mere power of appointing the few officers necessary carry out the system. But while the Treasury Sr avill be supported as a judicious fiscal measure, Bank ing Institutions will not be opposed. On the contra their interests—with such checks as are calculated secure the object of their exeation, will be supported essential to the prosperity and advancement

Such is the outline of the doctrines for the adve of which the new paper is to be commenced, and to the detence and vindication of which the Eprron pledger his best support. They are the doctrines of the prese administration; and as their continuance and efficient depend much upon the energy and zeal of these whom the important office of carrying them into effec is entrusted, the paper will zealously advocate the reelection of MARTIN VAN BUREN to the Presider cy, as one who has proved himself eminently qualified o uphold and defend them and insure their nnember will not be found an unworthy co-adjutor of the demo cratic paper already engaged in the cause in this city.

On the subject of State politics the paper will adve ate a judicious reform, consonant with the spirit and principles of our republican institutions. Aware the great cautien and deliberation with which this soli ject should be approached, it will nevertheless fearless ly advocate such changes as our own experience ha convinced us to be necessary, or such as the history other States in the confedracy has taught to be wis and salutary.

The all important subject of Internal Improvement cill be earnestly pressed upon the public attention; the great necessity of a vigorous prosecution and early completion of the great works in which the State is al ready so deeply interested, will be urged as positive ceessary to preserve unimpaired the public faith and to secure the true and permanent prosperity of our City

II. COMMERCE.—The commercial department of he paper will be attended to with the utmost care, and no effort will be spared to ronder the information rela ive to foreign, doinestic and local markets, and the general state of trade, full and satisfactory.

III. AGRICULTURE.—This important subject will receive more attention than has usually been paid to it in similar publications; and besides detailing facts of importance to the farmer and planter, it is intende discuss the principles of agricultural economy and to claim for the husbandman that station as a citize and an important producing agent, to which his inde pendence and labours entitle him

IV. The ARTS, both fine and mechanical, will have heir appropriate department, and such discussion w be entered into as will tend to evolve the true princi-ples upon which both are founded and to foster the efforts of native genius and skill rather than of foreig

V. LITERATURE AND NEW S .- The Post and Transcript will aim at nour ning a sound and pure li terary taste, and at the same time will endeavour qual the best of its cotemporaries in judicious seletions and in the promptitude, accuracy and extent of its general intelligence, foreign and domestic.

The first number will be issued in the course of the present month, after which it will be regularly contiued. It is desirable that the names of subscribers be eturned as speedily as possible to the Publisher.

TERMS.—The Post and Transcript will be of the

Price-Three Bollars per annum. Doctor W. EVANS' SOOTHING SY RUP, FOR CHILDREN TEETH.

Prepared by himself.

TO MOTHERS AND NURSES. To NOTHERS AND NURSES.

The passage of the Teeth through the guma produces trablesome and dangerous symptoms. It is known by mothers that there is great pritation in the mouth and gum during this process. The gums swell, the secretion of saliva is increased, the child is seized with frequent and studien fits of crying, watchings, starting in the sleep, and spasms of peculiar parts; the child shrinks with extreme violence, and thrusts its fingers into its with extreme violence, and thrusts its fingers into its with extreme violence, and thrusts its fingers into its month. If these precursory symptoms are not specify alerited, spasmodic convulsions universally supervene, and soon cause the dissolution of the infant. If mothers who have their little babes afflicted with these distressing symptoms, would apply Dr. William Evans' Celebrated Soothing Syrup, which has preserved handeds of infants whea thought past recovery, from being stilled attacked with that fixed malkly, convulsions.

A REAL BLESSING TO MOTHERS. Dr. W. Evan? Celebrated Soothing Sy-

Dr. IV. Evans' Celebrated Soothing Syrup, for Children Cutting their Teeth.
This infallible remedy has preserved hundreds of children, when thought past recovery, from convulsions. As soon as the Syrup is rubbed on the gums, the child will recover. This preparation is so innocent, so efficacious, and so pleasant, that no child will refuse to let its gums be rubbed with it. When infants are at the ago of four months, though there is no appearance of teeth, one bottle of the Syrup should be used on the gums, to open the pores. Parents should server be without the Syrup in the nursery where there are young children; for if a child wakes in the night with pain in the gums, the Syrup immediately gives even by opening the pores and healing the gums, thereby preventing Convulsions, Fevers, &c. by preventing Convulsions, Fevers, &c. Proof Positive of the Efficacy of

In preventing Convulsions, Fevers, &c.

(Proof Positive of the Efficacy of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup.

To the Agent of Dr. Evans' Soothing Syrup: Dear Sr.—The great benefit afforded to my suffering infant by your Soothing Syrup, in a case of protracted and pinful dentition, must convince every feeling parent how essential an early application of such an invalua by medicine is to relieve infant misery and torture. My infant, while tecthing, experienced such acute sufferings, that it was attacked with convulsions, and my wife and amily supposed that death would soon release the base from anguish till we precured a bottle of your Syrup; which as so mad applied to the gums a wonderful change was produced, and after a few applications the child displayed do yous relief, and by continuing in its use, I am glad to inform you, the child has completely recovered and no recurrence of that awful complaint hus since occurred, the teeth are emunating daily and the child enjoys perfect health. I give you my cheerful permission to make this acknowledgment public, and will gladly give any information on this circumstance.

WM. JOHNSON.

If A gentleman who has made trial of Dr. W. E. vars' Soothing Syrup in his family, (in case of a teething child,) wishes us to state that he found it entirely of fectual in relieving pain in the gums, and preventing the consequences which sometime follow. We cheerfully comply with his request.—N. York Sun.

If We believe it is generally acknowledged by those where tried it, that the Soothing Syrap, for Children Catting Toeth, advertised in another column, is a highly useful article for the purposes for which it is intended their names.—Biston Traceller.

(\*\*P. A SEVERE CASE OF TEE TII-

OF A SEVERE CASE OF TEETH-ING, WITH SUMMER COMPLAINT. ING. WITH SUMMER COMPLAINT.

croi by the infallible American Soothing Syrup of
Br. W. Evans. Mrs. McPherson, residing at No. 8,
thelicon street, called a few days since at the medical
slice of Dr. W. Evans. 190 Chatham street, N. Y.
and purchased a bottle of the Syrup for her child, who
was suffering exeruciating pain during the process of
deathion, being momentarily threathened with convulsions, its bowels too were exceedingly losse, and no
find could be retained on the storach. Almost imanediacly on its application, the alarming symptoms entrely ceased, and by continuing the use of the syrup
on too gums, the bowels in a short time became quite
subral. As a tribute of gratitude for the benefit affield the child, the mother came of her own accord, estimal. As a tribute of granted of her own accord, field the child, the mother came of her own accord, and freely sanctioned publishy to the above. Fray be putiedly in applying at 199 Chatham street, as there are several counterfeits advertised. No other place in

as city has the genuine for sale.

17 INPORTANT TO MOTHERS.—Children in ally suffer much uneasiness from cutting their teth. Whatever dangerous or fatal symptoms attend his process of nature, they are produced invariably from the highly irritated and infilmed condition of the parts—therefore the principal indications of cure are to abute atheretive the principal indications of cure are to abte the inflammation, and to soften, soothe, and relax the rams. If that is effected, the infant is preserved from absequent fever, inflammation, spremodic cough, tritching of tendons, croup, can'er, and convultions, deplaying their fatal consequences. If mothers, nursia, or gardians have their bales tortured with painful and protracted dentition, and this notice attracts their fatal coupling the district of four purchasing a all protracted dentition, and this notice attracts their attents, they should not be deterred from purchasing a still of EVANS SOOTHING STRUP for Childra Teetking, the incomparable virtue of which in campitally relieving the most distressing cases (when applied to the infant's gums as directed) is invaluable. The tenady has restored thousands of children when eithering of the grave, to the embraces again of their estreted parents, attacked with that awful and mortificus malady—Convulsions.

DIRECTIONS.

\*\*EPPlease Sight the hottle when "rest opened."

DIRECTIONS.

When chiliren begin to be in pain with their toeth shooting in their gums, put a little of the Syrup in a terpoon, and with the finger let the child's gums be rabed for two or three minutes, three times a day. It must not be put to the brast immediately for the milk weald take the syrup off too soon. When the toeth are just coming through their gums, mothers should immediately apply the syrup; it will prevent the children having a fover, and undergoing that painful operation of lucing the gums, which always makes the next tooth which harder to come thro' and sometimes causes death. Sold at Ur. W. Evans' Office, 103 Chatham street, flew York; and by all his Agents throughout the Union.
