ANNAPOLIS, THURSDAY, DECEMBER 12, 1839.

NO. 59.

For publishing in the City of Baltimore  
Daily and Tri-Weekly Paper to be col-  
lected at the  
**BALTIMORE POST AND COM-  
MERCIAL TRANSCRIPT.**

The Post and Transcript will be devoted to  
Politics, Commerce, Agriculture, Arts,  
Literature and News.

**I. POLITICS.**—The Post and Transcript will be  
the firm and undeviating advocate of the doctrine of  
democratic republicanism, which constitutes the funda-  
mental elements of our social and political system. As  
this declaration imports on the great question of Na-  
tional Policy, the paper will be of the "strict con-  
structionist" school, maintaining that the action of Gov-  
ernment should be limited to the exercise of those  
powers which are specifically enumerated in the constitu-  
tion. It will consequently oppose the measures of those  
who, by a loose interpretation of this sacred char-  
ter of our liberties, seek the establishment of schemes  
subversive of the principles upon which the fair  
fabric of our government is reared, and which, when  
checked, tend to confusion and anarchy from which relief  
can be found but in despotism.

Among these schemes, regarded as of obviously dan-  
gerous tendency, is that of a National Bank, which  
however harmless or useful it might be in the full  
strength and unanimity of the republic, would, in a  
period of danger, its branches penetrating every part  
of the country, and in the words of Jefferson, "acting  
by command and in phylax," have power to inter-  
pose serious and alarming obstacles to the operation of  
Government.

The assumption of the right to impose a tariff be-  
yond the duties necessary to supply the constitutional  
want of government; the appropriation of the public  
money upon schemes of internal improvement, and the  
interference of government with the domestic indus-  
tries of the States, particularly with the institution of  
Slavery, will be equally opposed as encroachments upon  
the constitution and upon the rights of States.

The liability of the Banks to periodical convulsions,  
and their inability to comply, at all times, with the  
conditions upon which they are employed by the Treasury,  
as evinced by the suspensions of 1837, render the mea-  
sure of dispensing with their agency in conducting the  
fiscal operations of Government one of obvious neces-  
sity. The Post and Transcript will therefore advocate  
the adoption of the Independent Treasury System, as the  
safest and most judicious mode of relieving government from the con-  
tingencies which its connection with Banks renders  
indefinite, and which will insure stability and uniformity  
in its fiscal system, and reduce the potent influence of  
the Executive over a large of deposit Banks, to the  
mere power of appointing the few officers necessary to  
carry out the system. But while the Treasury System  
will be supported as a judicious fiscal measure, Bank-  
ing Institutions will not be opposed. On the contrary  
their interests—with such checks as are calculated to  
secure the object of their creation, will be supported as  
essential to the prosperity and advancement of the  
country.

Such is the outline of the doctrines for the advocacy  
of which the new paper is to be commenced, and to the  
defense and vindication of which the Editor pledges  
his best support. They are the doctrines of the present  
administration; and as their continuance and efficiency  
depend much upon the energy and zeal of those to  
whom the important office of carrying them into effect  
is entrusted, the paper will seasonably advocate the re-  
election of **MARTIN VAN BUREN** to the Presidency,  
as one who has proved himself eminently qualified  
to uphold and defend them, and insure their uninter-  
rupted action. It is believed the Post and Transcript  
will not be found an unworthy coadjutor of the demo-  
cratic paper already engaged in the cause in this city.

On the subject of State politics the paper will ad-  
vocate a judicious reform, consistent with the spirit and  
principles of our republican institutions. Awar of  
the great caution and deliberation with which this sub-  
ject should be approached, it will nevertheless fear-  
lessly advocate such changes as our own experience has  
convincingly shown to be necessary, or such as the history of  
other States in the confederacy has taught to be wise  
and salutary.

The all important subject of Internal Improvement  
will be earnestly pressed upon the public attention; the  
great necessity of a vigorous prosecution and early  
completion of the great works in which the State is al-  
ready so deeply interested, will be urged as positively  
necessary to preserve unimpaired the public faith and  
to secure the true and permanent prosperity of our City  
and State.

**II. COMMERCE.**—The commercial department of  
the paper will be attended to with the utmost care, and  
no effort will be spared to render the information rela-  
tive to foreign, domestic and local markets, and the gen-  
eral state of trade, full and satisfactory.

**III. AGRICULTURE.**—This important subject  
will receive more attention than has usually been paid  
to it in similar publications; and besides detailing facts  
of importance to the farmer and planter, it is intended  
to discuss the principles of agricultural economy and  
to claim for the husbandman that station as a citizen  
and an important producing agent, to which his indus-  
try and labors entitle him.

**IV. THE ARTS.** both fine and mechanical, will have  
their appropriate department, and such discussion will  
be entered into as will tend to evolve the true principles  
upon which both are founded and to foster the ef-  
forts of native genius and skill rather than of foreign  
ingenuity.

**V. LITERATURE AND NEWS.**—The Post and  
Transcript will aim at nourishing a sound and pure li-  
terary taste, and at the same time will endeavor to  
equal the best of its contemporaries in judicious selections  
and in the promptitude, accuracy and extent of  
its general intelligence, foreign and domestic.

The first number will be issued in the course of the  
present month, after which it will be regularly contin-  
ued. It is desirable that the names of subscribers be  
returned as speedily as possible to the Publisher.

**TERMS.**—The Post and Transcript will be of the  
largest class of newspapers—the Daily at \$8, and the  
Tri-Weekly at \$5 per annum, payable in advance, un-  
guaranteed in the city.

All letters must be addressed to S. P. SKINNER,  
Editor Post and Transcript, Baltimore, Md.  
Those containing remittances may be forwarded  
at the expense of the publisher; all others, must be paid.

UP, FOR CHILDREN'S TEETH-  
ING.**  
Prepared by himself.

**TO MOTHERS AND NURSES.**  
The passage of the Teeth through the gums produces  
troublesome and dangerous symptoms, it is known by  
mothers that there is great irritation in the mouth and  
throat during this process. The gums swell, the secre-  
tion of saliva is increased, the child is seized, with fre-  
quent and sudden fits of crying, watching, starting in  
the sleep, and spasms of peculiar parts; the child shrieks  
with extreme violence, and thrusts its fingers into its  
mouth. If these precursive symptoms are not speedily  
checked, spasmodic convulsions universally supervene,  
and soon cause the dissolution of the infant. If mo-  
thers who have their little babes afflicted with these dis-  
tressing symptoms, would apply Dr. Wm. Evans' Sooth-  
ing Syrup, which has preserved hun-  
dreds of children when thought past recovery, from being  
entirely attacked with that fatal malady, convulsions.

**A REAL BLESSING TO MOTHERS.**  
**Dr. W. Evans' Celebrated Soothing Syrup,**  
for Children Cutting their Teeth.

This infallible remedy has preserved hundreds of  
children, when thought past recovery, from convul-  
sions. As soon as the Syrup is rubbed on the gums,  
the child will recover. This preparation is so innocent,  
so efficacious, and so pleasant, that no child will re-  
fuse to let its gums be rubbed with it. When infants  
are at the age of four months, though there is no ap-  
pearance of teeth, one bottle of the Syrup should be  
used on the gums, to prevent the eruption of the teeth.  
If a young child, for if a child wakes in the night  
with pain in the gums, the Syrup immediately gives  
ease by opening the pores and healing the gums, there-  
by preventing convulsions, Fevers, &c.

**Proof Positive of the Efficacy of  
Dr. Evans' Soothing Syrup.**

To the Agent of Dr. Evans' Soothing Syrup, Dear  
Sir: The great benefit afforded to my suffering infant  
by your Soothing Syrup, in a case of protracted and  
painful dentition, most convince every feeling parent  
how essential an early application of such an inva-  
luable medicine is to relieve infant misery and torture. My  
child, who was teething, experienced such acute suffer-  
ings, that it was attacked with convulsions, and my wife  
and I, amply supposed that death would soon release the  
babe from anguish till we procured a bottle of your Syrup,  
which was so promptly applied to the gums, a wonderful  
change was produced, and after a few applications the  
change was complete, and my child is completely  
recovered and no recurrence of that awful complaint  
has since occurred, the pain and inflammation having  
entirely subsided, and the child is now as healthy as  
the child of any other mother. I give you my cheerful  
permission to make this acknowledgment public, and will  
gladly give any information on this circumstance.

**W. M. JOHNSON.**  
My Soothing Syrup has been used in my family, in case of a teeth-  
ing child, who was so tormented that he found it entirely  
impossible to relieve him in the gums, and preventing the  
consequences which sometimes follow. We cheer-  
fully comply with his request. N. York, 25th St.  
I believe it is generally acknowledged by those  
infant teething, experienced such acute suffer-  
ings, that it was attacked with convulsions, and my wife  
and I, amply supposed that death would soon release the  
babe from anguish till we procured a bottle of your Syrup,  
which was so promptly applied to the gums, a wonderful  
change was produced, and after a few applications the  
change was complete, and my child is completely  
recovered and no recurrence of that awful complaint  
has since occurred, the pain and inflammation having  
entirely subsided, and the child is now as healthy as  
the child of any other mother. I give you my cheerful  
permission to make this acknowledgment public, and will  
gladly give any information on this circumstance.

**A SEVERE CASE OF TEETH-  
ING WITH SUMMER COMPLAINT.**  
and by the infallible American Soothing Syrup of  
Dr. W. Evans, Mr. McPherson, residing at No. 8,  
Hudson street, called a few days since at the Medical  
Office of Dr. W. Evans, 109 Chatham street, N. Y.,  
and purchased a bottle of the Syrup for her child, who  
was suffering excruciating pain during the process of  
dentition, being momentarily threatened with convul-  
sions, his bowels too were exceedingly loose, and no  
relief could be retained on the stomach. The  
child, however, by continuing the use of the Syrup  
on the gums, the bowels in a short time became quite  
normal. As a tribute of gratitude for the benefit af-  
forded the child, the mother came of her own accord,  
and freely acknowledged publicly to me. Pray be  
particular in applying to 109 Chatham street, N. Y.,  
where several certificates are advertised. No other place in  
the city has the genuine for sale.

**IMPORTANT TO MOTHERS.**—Children  
generally suffer much uneasiness from cutting their  
teeth. Whether dangerous or fatal symptoms attend  
them, they are produced invariably from the  
highly irritated and inflamed condition of the parts  
—therefore the principal indications of cure are to abate  
the inflammation, and to soften, soothe, and relax the  
gums. If that is effected, the infant is preserved from  
the most dangerous, and in many cases, from the most  
excruciating disorder, *Opis*, will find relief from  
the sufferings by a course of the Herb Pills, always  
remembering that while the evacuations from the bow-  
els are kept up, the evacuations from all the other or-  
gans of the body will also be going on in the same pro-  
portion, by which means the blood invariably becomes  
purified.

Steady perseverance in the use of the Herb Pills will  
undoubtedly effect a cure even in the most severe or ob-  
stinate diseases; but in such cases the dose may be aug-  
mented, according to the inventory of the disease;  
these Pills being so admirably adapted to the constitu-  
tion, that they may be taken at all times.

In all cases of Hypochondriacism, Low Spirits, Ner-  
vous Weakness, Fluctuating Irritability, Nervous  
Weakness, Fluor Albus, Seminal Weakness, Indiges-  
tion, Loss of Appetite, Flatulency, Heartburn, Gen-  
eral Debility, Bodily Weakness, Chlorosis or Green  
Sickness, Prolapsus or Hysterical Pains, Hysteria,  
Headache, Hiccups, Sea Sickness, Night-Sweats, Gout,  
Rheumatism, Asthma, The Deafness, Cramp, Spas-  
modic Affections, and those who are victims to that  
most excruciating disorder, *Opis*, will find relief from  
their sufferings by a course of the Herb Pills, always  
remembering that while the evacuations from the bow-  
els are kept up, the evacuations from all the other or-  
gans of the body will also be going on in the same pro-  
portion, by which means the blood invariably becomes  
purified.

tion, that they may be taken at all times.

**DR. EVANS' CAMOMILE AND  
APERIENT PILLS.**  
ON LOW SPIRITS.

Low spirits is a certain state of the mind, accompa-  
nied by indigestion, wherein the greatest evils are ap-  
prehended under the slightest grounds, and the worst  
consequences imagined. Ancient medical writers sup-  
posed this disease to be confined to those particular re-  
gions of the abdomen technically called hypochondria,  
which are situated on the right or left side of that cav-  
ity, whence comes the name hypochondriasis.

**Symptoms.** The common corporeal symptoms are,  
flatulency in the stomach or bowels, acid eructations,  
costiveness, spasmodic pains and often an utter inabil-  
ity of fixing the attention upon any subject of impor-  
tance or engaging in any thing that demands vigour  
or courage. Also languidness—the mind becomes ir-  
ritable, thoughtful, desponding, melancholy and defect-  
ed, accompanied by a total derangement of the nervous  
system. The mental feelings and peculiar train of  
ideas that haunt the imagination and overwhelm the  
judgment, exhibit an infinite diversity. The wisest and  
best of men are as open to this affliction as the weak-  
est.

**Cause.** A sedentary life of any kind, especially  
severe study, protracted to a late hour in the night,  
and rarely relieved by social intercourse or exercise, a dis-  
solvent habit, great excess in eating and drinking, im-  
moderate use of mercury, violent purgatives, the sup-  
pression of some habitual discharges, (as the obstruction  
of the menses) or long continued emotion, relaxation  
or debility of one or more important organs within the  
abdomen is a frequent cause.

**Treatment.** The principal objects of treatment are,  
to remove indigestion, strengthen the body, and enliven  
the spirits, which may be promoted by exercise, early  
rising, regular meals, pleasant conversation—the bow-  
els (if costive) should be carefully regulated by the oc-  
casional use of a mild aperient. We know nothing  
better adapted to obtain this end, than Dr. Wm. Evans'  
Aperient Pills—being mild and certain in their opera-  
tion. The bowels being once cleansed, his inestimable  
Camomile Pills, (which are tonic, anodyne, and anti-  
spasmodic) are an infallible remedy, and without doubt  
have proved a great blessing to the numerous pub-  
lic.

Some physicians have recommended a free use of  
mercury, but it should not be resorted to; in many cas-  
es it greatly aggravates the symptoms.

**THE BARON VON HUTCHIELER  
HERB PILLS.**

These Pills are composed of Herbs, which exert a  
specific action upon the liver, give an impulse or  
strength to the arterial system, the blood is quickened  
and equalized in its circulation through all the vessels,  
whether of the skin, the parts situated internally, or  
the extremities; and as all the secretions of the body  
are drawn from the liver, a consequent effect  
of every secretion, and a quickened action of  
the absorbent and exhalant, or discharging vessels. Any  
morbid action which may have taken place is correct-  
ed, and obstructions are removed, the blood is purified,  
and the body resumes a healthy state.

These Pills, after much anxious toil and research,  
having been brought by the Proprietor to the present  
state of perfection, supersede the use of the innumera-  
ble other medicines, and are so well adapted to the  
frame, that the use of them, by means of the body  
in the due performance of its functions, and preserving  
the vital stream in a pure and healthy state, causes it  
to last many years longer than it otherwise would, and  
the mind to become so composed and tranquil, that old  
age may be attained, with a serene and happy mind,  
and many who have neglected their constitutions, or  
had them injured by medicines administered by igno-  
rance, a source of misery and abhorrence.

They are so compounded, that by strengthening and  
equalizing the action of the liver, the heart, and other  
organs, they effect a cure even in the most severe or ob-  
stinate diseases; but in such cases the dose may be aug-  
mented, according to the inventory of the disease;  
these Pills being so admirably adapted to the constitu-  
tion, that they may be taken at all times.

**DR. WM. EVANS' CELEBRATED  
FEVER AND AGUE PILLS.**

These pills, so admirably adapted to afford uniform  
relief in the different modifications of these distressing  
maladies, are particularly recommended to public so-  
cieties. On the accession of the cold stage, when the  
face and limbs of the sufferer become pale, and the sen-  
sation of cold and languor, is felt pervading the whole  
system—their administration is accompanied with asto-  
nishing success—they soon lessen the subsequent dis-  
tressing shivering and violent shagreening, and by contin-  
ing in their use, (as directed) will ultimately cure the  
most obstinate ague. These pills are of signal utility  
in those distressing cases, where there is a sallowess  
of complexion, pain in the region of the liver, tension  
and distress in the epigastric region, with other symp-  
toms indicating the existence of morbid action, or chro-  
nic disease of the stomach, liver, bowels, meconity of  
spleen, which consequences so generally supervene  
from protracted intermittents. They permanently re-  
move these distressing symptoms, and the same time give tone  
to the stomach, cleanse and strengthen the bowels and im-  
part health, vigour and energy to the system.

Many persons emigrate to the rich and fertile soil of  
the West, in the hope of attaining a future competence  
by the cultivation of the soil, but alas! how many of  
them appear with impaired and enfeebled constitutions,  
suffering from attacks of that direful terror of the  
West, Fever and Ague. If such persons had resorted to  
the use of the above pills, the sunken pallid coun-  
tenances would have been restored to a florid hue, the  
vital energy re-established, and the whole system puri-  
fied and invigorated. They are now regarded as an in-  
estimable public blessing, and indispensable to the  
health, comfort, and even the local prosperity of the  
inhabitants of many portions of our western country.

The attacks usually occur every third day, the  
fever is attended with a morbid action, and is accompa-  
nied with a total derangement of the nervous system,  
and is attended with a total derangement of the nervous  
system. The mental feelings and peculiar train of  
ideas that haunt the imagination and overwhelm the  
judgment, exhibit an infinite diversity. The wisest and  
best of men are as open to this affliction as the weak-  
est.

**Dr. Wm. Evans' Purifying Pills.**  
The celebrated teacher, Rabbi Meir, sat dur-  
ing the whole of the Sabbath day in the public  
school, instructing the people. During his ab-  
sence from the house his two sons died, both of  
them of uncommon beauty, and enlightened in  
the law. His wife bore them to her bed cham-  
ber, laid them upon the marriage bed, and spread  
a white covering over their bodies. In the  
evening the Rabbi Meir came home.

"Where are my two sons," he asked, "that I  
may give them my blessing?" I repeatedly look-  
ed round the school, and did not see them there."

She reached him a goblet. He raised the  
Lord at the going out of the Sabbath, drank—  
and again asked—  
"Where are my sons, that they too may drink  
of the cup of blessing?"  
"They will not be far off," she said, and placed  
food before him, that he might eat.  
He was in a gladsome and genial mood; and  
when he had said grace after the meal, she thus  
addressed him:

"Rabbi, with thy permission, I would fain  
propose to thee one question."  
"Ask it then, my love!" he replied.  
"A few days ago, a person entrusted some  
jewels to my custody, and now he demands them  
again; should I give them up?"  
"This is a question," said Rabbi Meir, "which  
my wife should not have thought it necessary  
to ask. What wouldst thou hesitate or be re-  
luctant to restore to every one his own?"  
"No," she replied, "but yet I thought it best  
not to restore them without acquainting thee  
therewith."

She led him to the chamber, and, stepping  
to the bed, took the white covering from the dead  
bodies.  
"Ah! my sons, my sons!" thus loudly lamen-  
ted the father; "my sons! the light of my eyes  
and the light of my understanding—I was your  
father, but ye were my teachers in the law."  
The mother turned away and wept bitterly.  
At length, she took her husband by the hand  
and said:

"Rabbi, didst thou not teach me that we must  
not be reluctant to restore that which was en-  
trusted to our keeping? See, the Lord gave, the  
Lord has taken away, and blessed be the name  
of the Lord!"  
"Blessed be the name of the Lord!" echoed  
Rabbi Meir, "and blessed be his name for thy  
sake too, for well it is written, 'Whoso hath  
found a virtuous wife, hath a greater treasure  
than costly pearls; she openeth her mouth with  
wisdom, and in her tongue is the law of kind-  
ness.'"

**ARISTOCRACY IN RELIGION.**  
In Catholic countries, the Churches are usu-  
ally erected at the expense of the Government,  
or out of the vast resources which accumulate  
in the treasury of the Pope. These churches  
are thrown open to all. Free alike to the rich  
and the poor, the humble peasant and the proud  
courier. Even the distinction of color does  
not cause the separation in Europe it does in  
Democratic America, for there no classification  
is known, except that made by the Searcher of  
Hearts. Strange inconsistency, that in Aristoc-  
ratic Society in Europe, in perfect equality devoted  
to the worship of God such perfect equality should  
exist, while here, in American Democracy, the  
only spot where distinctions are clearly marked,  
the lines of society tangibly drawn out is to be  
found in places of religious worship. Catholic  
Churches in Europe are open at certain hours

daily to all classes. The humble penitent in  
sackcloth, kneels by the side of costly rank and  
princely splendor, all supplicating aid from a  
common Father.—*Northampton Courier.*

**PUMPKIN PIE.**  
The Cincinnati Republican copies from a  
useful volume entitled the Practical Farm, the  
subjoined bill of particulars, as to the most ap-  
proved mode of making pumpkin pie, "for the  
information of all those ladies who have not yet  
learned the process!"  
Pumpkin Pie.—Put common family pumpkin  
pie, three eggs do very well to a quart of milk.  
Stew your pumpkin and strain it through a sieve,  
or colander. Take out the seeds, and pare the  
pumpkin or squash. Stir in the stewed pump-  
kin, till it is as thick as you can stir it round  
rapidly and easily. If you want to make your  
pie richer, make it thinner, and add another egg.  
One egg to a quart of milk makes very decent  
pie. Sweeten it to your taste, with molasses  
or sugar; some pumpkins require more sweeten-  
ing than others. Two teaspoonfuls of salt; two  
great spoonfuls of sifted cinnamon; one great  
spoonful of ginger. Ginger will answer very  
well alone for spice. If you use enough of it,  
The outside of a lemon grated in is nice. The  
more eggs the better the pie; some put an egg to  
a gill of milk. They should bake from forty to  
fifty minutes, and even ten minutes longer, if  
very deep.

**POETRY.**  
**LINES TO A BUNCH OF CHERRIES.**  
BY S. D. THAYER.

(Written while eating them.)  
Beautiful cluster! passing fair  
Ye grew on your perch, in the shining air;  
Ye swung like a circle of merry boys  
In the morning's gale and the noonday rays;  
With an awning over you of such bright leaves  
And with eddies of perfume breathing around,  
From green-wood grove and from blossomy ground;  
O, crimson cluster! fresh and fair  
Did your life laugh on in the shining air!

But, alas for beauty! Ye are riven now  
From the shelter and shade of the dancing bough;  
Ah! never again will ye gather bright dyes,  
Priceless and pure, from these sunny skies:  
Ye shall not no more to the morning gale,  
Though it weak for eye, over meadow and vale:  
Nor ever shall twilight breeze bring—  
From the wood or the wave, in Summer or Spring—  
Nor the fire-fly's gleam, nor the silver dew,  
Motion, or perfume, or verdure to you!

So Friendship fade; so Love's bright eye  
Grows dim, like a star in a stormy sky,  
When the trial clouds of sorrow and strife,  
Ere its noon is yet welcomed, sweep over life;  
On the greenest branch of Youth's bright bower  
Affections all rapture blush to an hour.  
Beautiful cluster! would that to be  
Were to be for ever, for things like thee!  
Oh, would that on all fair things the bloom  
Told not, like the victim's wrath, of the tomb!
