

bearing my signature has been regularly and promptly paid at the Messrs. Denton and Co's banking house, where all my accounts are made payable.

"As the paragraph above quoted is calculated to do very great injury to the shareholders in the Bank of the United States, as well as to the holders of its obligations, I have to request that, as the slightest possible reparation that can be made, you will insert this letter in your paper of to-morrow, under the head of "Money Market and City Intelligence."

Your obedient servant,
"S. JAUDON.
"Agent to the Bank of the United States."

Mr. Jaudon's management in the delicate and most difficult and embarrassing circumstances under which he has been placed, has been admirable; and fully entitles him to the encomiums which have been passed upon it in England.

The negotiation of his Dutch loan does not appear to have been completed before the untoward intelligence of the suspension of the Bank arrived. Of course it has fallen through, but it does not seem to have been essential to the sustaining of a fair credit for the Bank.

The Cotton market, next in interest, is really upon a better foundation than we had a right to expect. If it is not better than at the latest advices, it certainly is no worse. Indeed, it may on the whole, be considered "washed" better. The sales had been large, and business in the article brisk. We believe it is fair to say that the cotton market at the sailing of the Liverpool, was better. The market for bread stuffs may be stated as better for Englishmen, and less favorable for us than was expected. Flour has fallen in price, and the duty risen in proportion. There is no inducement to send breadstuffs to England.

The affairs of Turkey and Egypt were still undecided. The Queen of England is certainly going to be married to her cousin Albert of Saxe Coburg.

From the Courier and Enquirer.
We cannot but consider the commercial and monetary accounts received by the steam ship Liverpool as of a decidedly more favorable character than, all things considered, was generally anticipated. We hear, after considerable enquiry, of no drafts hence having been protested, but on the contrary of those for which apprehensions were entertained, having met due honor.

Amongst the latter are drafts of the GIRARD BANK, on MORRISON, CRYDER & Co., of which large amounts were sold by Messrs. CAMMANN & WITTEBOURG, of this city, shortly before the suspension of the United States Bank. These have been promptly accepted. Mr. Jaudon, maugre the assaults made on him by part of the London press, has succeeded in meeting his engagements.

The Courier after noticing the letter of Mr. Jaudon, published above, says—"We are happy to have it in our power to act, on good authority, that Mr. Jaudon has obtained a further loan in London to the amount of £240,000 sterling on the hypothecation of State securities, and that this sum will enable him to meet all his acceptances, and post notes falling due before the first of January next."

It does not appear, after the first alarm had subsided, that the suspension of the United States Bank has materially affected the London Money Market, which, on the whole, has assumed, at the latest accounts, a more encouraging aspect. The demand for specie on the Bank of England had diminished, and her stock of billion is represented as increasing, owing to a momentary cessation in the demand to pay for foreign grain.

The institution has, however, made great exertions to produce this state of things, and among others, has for weeks been shipping 40,000 oz. of silver to Hamburg, against which it caused bills to be drawn and we see it further stated that Mr. BATES, of the house of BARNES BROTHERS, was at Paris, for the purpose of negotiating a further loan on behalf of the Bank with the Paris capitalists.

CONCERT

In the style of the celebrated PAGANINI, on the GERMAN HARP and VIOLIN.

MRS. CANDERBECK will execute on the HARP, previous to the commencement of the Concert, various different airs, to give an idea of the melody of that beautiful instrument.

MRS. CANDERBECK will imitate with great perfect accuracy as to receive the ear, all kinds of instruments, viz: a full orchestra, playing on four strings at once; the Flute, Flageolet, double Flute, Hautboy, Trumpets, French Horn, English Bugle, Scotch Bagpipe, Cymbals; music an old woman in a merry mood; a hunting piece, with the crying of an organ; the chanting of a Nun, a Monk, the celebrated Andante, on one string, in which he will imitate the Octave Flute and singing of birds.

The entire music is selected from Mozart, Weber, Rossini, the celebrated Paganini, and some compositions from Mr. Canderbeck.

Tickets 50 cents, to be had at the bar of Messrs. Swann & Iglehart's hotel, and at the door on the evening of performance.

"I know of no pursuit in which more real or important services can be rendered to any Country, than by improving its Agriculture."—WASHINGTON.

THE CULTIVATOR, BEING A CONSOLIDATION OF BUEL'S CULTIVATOR AND THE GENESSEE FARMER.

WILLIAM GAYLORD & LUTHER TUCKER, Editors.—JESSE BUEL & Co. Proprietors.

THE first number of the united paper will be issued at ALBANY, on the first of January, 1840. Albany rather than Rochester, has been selected as the place for publication, from the greater facilities of obtaining paper; the procuring and engraving of the numerous cuts required in such a work; and its generally more central and favorable situation for receiving and forwarding packages to all parts of the country.

That the interests of the subscribers will be promoted by the union of these Journals, is confidently anticipated. The vast amount of practical knowledge and skill, contributed to the columns of the separate papers, will now be embodied in one; and while each could boast of a circle of contributors of high rank in the science and practice of farming, it is scarcely possible that concentrated labor should fail of giving one of the most valuable agricultural journals of the world. To the subscribers of the Genessee Farmer, the price of the new paper will of course be enhanced; the price continuing at one dollar per year; but when the increase in the size and quality of the sheet,—the greater quantity of matter that will be given by the use of close and smaller type—the number of cuts and illustrations that will be employed, and the general improvement in the united paper are taken into consideration, it is believed it will be found as cheap as the former, and as well worthy their support and patronage.

In short, no effort shall be spared to give the united paper a character worthy of the high rank and standing which the original journals, on their separate merits, had acquired. Devoted solely to the cause of the agriculturist,—to his instruction and improvement as a cultivator of the soil, and to his moral and intellectual elevation as a man and citizen of the Republic, we trust a paper will be offered worthy the confidence and the support of the American Farmer.

In relation to the price of the Cultivator, which has been published for the last two years at one dollar a year, we copy the following from a recent number of that paper:—"The publication of the Cultivator was commenced at 25 cents per volume; the price was afterwards advanced to 50 cents, and at the commencement of the fifth volume, to One Dollar per annum. It is due to our patrons to explain the cause of this increase in price. The size of our pages has been enlarged, the quantity of matter increased, and the quality of paper improved, until the expense of type-setting and paper, the two prominent items of our expense, is now more than double what it was when the price was fifty cents, and four times as great as it was when the price was twenty-five cents. To enable the reader to judge of its now relative cheapness, compared with literary periodicals, we state, for their information, that a volume of the Cultivator, including its usual extra sheet, contains about double the quantity of matter that is contained in two volumes, published in a year, of the North American Review. The subscription price of the two volumes of the Review is Five Dollars—that of the Cultivator One Dollar. To be equal, in proportion to the quality of matter, the price of the Cultivator should be Ten Dollars a year.—We are fully enabled to print the Cultivator at this small price, from the extent of our subscriptions; and we are indebted for our liberal subscription to the kind offices of our correspondents and agents."

NOTICE.

The Commissioners for Anne-Arundel county will meet at the court house in the city of Annapolis, on TUESDAY, the 21st, day of January next for the purpose of hearing appeals and making transfers, and the said John C. Queensbury having satisfied me, by competent testimony, that he has resided two years within the state of Maryland immediately preceding the time of his application, and the said John C. Queensbury having taken the oath by the said act prescribed for the delivering up of his property, and given sufficient security for his personal appearance at the next County Court of Anne-Arundel county, to answer such interrogatories and allegations as may be made against him, and having appointed William J. Leitch his trustee, who has given bond as such, and received from the said John C. Queensbury a conveyance and possession of all his property, real, personal and mixed, I do hereby order and adjudge, that the said John C. Queensbury be discharged from his imprisonment, and that he give notice to his creditors, by causing a copy of this order to be inserted in some newspaper published in Anne-Arundel county, once a week for three consecutive months before the third Monday of April next, to appear before the said County Court, at the Court House of said County, at ten o'clock in the forenoon of that day, for the purpose of recommending a Trustee for their benefit, and to show cause, if any they have, why the said John C. Queensbury should not have the benefit of the said act, and supplements, as prayed. Given under my hand this thirteenth day of October in the year of our Lord, one thousand, eight hundred and thirty-nine.

PROSPECTUS FOR THE CONGRESSIONAL GLOBE AND APPENDIX.

These works have been published by us for 7 years. There are now more subscribers for them, probably than for any other paper published in the United States; certainly more than there are for any other paper published in the District. This large and increasing subscription is conclusive evidence of their usefulness. They are invaluable to all who feel an interest in the proceedings of Congress. No other publication gives so full, nor half so cheap. It is, indeed, the cheapest publication in the United States—perhaps in the world. Our position at the seat of Government enables us to print them at so low a rate. We are compelled to publish the proceedings of Congress in the detail, for our daily paper. This done, it requires, comparatively, but a small additional expense to charge them to the forms of the Congressional Globe and Appendix. If it were not for these circumstances, we could not publish them for four times the sum charged. In some parts of the United States, the white paper, upon which these works are printed, would sell for as much as we charge for the publications.

The approaching session of Congress will probably continue several months; and as it immediately precedes the Presidential election, all the prominent political questions which divide the country, will, no doubt, be fully discussed. These considerations induce us to believe that the CONGRESSIONAL GLOBE will make five hundred, and the APPENDIX, between six and seven hundred royal quarto pages.

The CONGRESSIONAL GLOBE is made up of the daily proceedings of the two houses of Congress, and the speeches of the members condensed. The years and days on all important subjects are given. It is published weekly, with small type, on sixteen royal quarto pages.

The APPENDIX contains the speeches of the members, at full length, written out by themselves, and is printed in the Congressional Globe. It is published as far as the speeches can be arranged. Usually there are more numbers printed for a session than there are weeks in it.

Each of these works is complete in itself. But it is desirable for every subscriber to have both; because, if there should be any ambiguity in the synopsis of a speech in the Congressional Globe, or any denial of its correctness, it may be removed at once, by referring to the speech in the Appendix.

Indexes to both are sent to subscribers, as soon as they can be prepared after the adjournment of Congress.

TERMS: For one copy of the Congressional Globe, \$1 One copy of the Appendix, 81 Six copies of either of the above works will be sent for \$5, twelve copies for \$10, and a proportionate number of copies for a larger sum.

Payments may be transmitted by mail, postage paid, at our risk. The notes of any incorporated bank in the United States, current in the section of the country where a subscriber resides, will be received. But when subscribers can procure the notes of banks in the Northern and Middle States, they will please send them.

To insure all the numbers, the subscriptions should be here by the 9th of December next.

The Democratic papers with which we exchange, will please give this prospectus a few insertions.

No attention will be paid to any order unless the money accompany it. BLAIR & RIVES. mWashington City, October 10, 1839.

Anne-Arundel County, Sec.

ON application to the subscriber, Chief Judge of the Orphans Court of Anne-Arundel County, by petition in writing, of John C. Queensbury of Anne-Arundel County, stating that he is now in actual confinement for debt, and praying for the benefit of the act of the General Assembly of Maryland, entitled, "An act for the relief of sundry insolvent debtors, passed at December session 1805, and the several supplements thereto, on the terms therein mentioned, a schedule of his property, and a list of his creditors on oath, so far as he can ascertain the same, being annexed to his petition, and the said John C. Queensbury having satisfied me, by competent testimony, that he has resided two years within the state of Maryland immediately preceding the time of his application, and the said John C. Queensbury having taken the oath by the said act prescribed for the delivering up of his property, and given sufficient security for his personal appearance at the next County Court of Anne-Arundel county, to answer such interrogatories and allegations as may be made against him, and having appointed William J. A NEW THEORY!

INTERESTING AND APPLICABLE TO THE AFFLICTED WITH

Diseases of the Stomach, or Nerves; Such as DYSPPEPSIA, either Chronic or Acute, under the worst symptoms of restlessness; Loss of Spirit, and General Emaciation; Consumption, whether of the Lungs or Liver; Liver Affections; Jaundice, both Biliary and Spasmodic; Costiveness; Worms of every variety; Rheumatism, whether Acute or Chronic; together with Gout, Scrofula, Pains in the Head, Back, Limbs, and Side, Typhus Fever, Scarlet Fever, Putrid Sore Throat, Fever and Ague, Spasmodic Palpitation of the Heart and Arteries, Nervous Irritability, Nervous Weakness, Hysteria, Tic Douloureux, Cramps, Female Obstructions, Heartburn, Headache, Cough, the Common or Humid, and the Dry or the Whooping; Asthma, Gravel, and Dropsy.

The Blood has hitherto been considered by Empirics and others, as the great regulator of the human system, and such is the devotedness of the adherents to that erroneous doctrine, that they content themselves with the simple possession of this fallacious opinion, without enquiring into the primary sources from whence the blood is derived, and the manner in which it is formed, and the manner in which it is purified, and the manner in which it is distributed to the various organs of the body, and the manner in which it is renewed, and the manner in which it is eliminated. The doctor has discovered, and has demonstrated, the true cause of the disease, and has discovered the true mode of curing it. He has discovered the true mode of curing it, and has demonstrated the true mode of curing it. He has discovered the true mode of curing it, and has demonstrated the true mode of curing it. He has discovered the true mode of curing it, and has demonstrated the true mode of curing it.

HUNT'S PILLS

A supernatural agency, although from positive proofs within the knowledge of hundreds, he is prepared to show, that each and every other earthly remedy has been given in vain.

HUNT'S PILLS

have never been known to fail in effecting two very gratifying results, that of raising from the bed of sickness, and disease those who have tested their efficacy, and thus amply verifying the words of the Holy Scriptures, "and thus shall ye stand in the perfection of the Heavens."

DR. HUNT'S PILLS.

In the midst of a general and in many instances ungrounded prejudice against many of the medical remedies of the day, Dr. HUNT'S PILLS have the happy distinction of universal approbation. They are perhaps the only medicine publicly advertised that has the full and unreserved testimony of medical men in its favor, if not the only one which gives full satisfaction to its purchasers. Dr. Hunt has the satisfaction of knowing that his Pills are not only recommended and prescribed by the most experienced physicians in their daily practice, but also taken by those gentlemen themselves, whenever they feel the symptoms of those diseases in which they are generally the most successful.

It is not to be generally known that Dr. Hunt has the honor of being a native of New York, Philadelphia, Albany, Boston, and other large cities, in which they have an extensive sale. That they should thus conquer professional prejudice and increased opposition, and secure the agency of the most eminent and distinguished physicians in the world, is a tribute to their utility to all classes, can be fairly ascribed to their undeniable and prominent virtues.

Enviably however, as this distinction is, it can easily be accounted for from the therapeutic and peculiar properties of the medicine itself. It does not pretend to be such, and it accomplishes all its promises. Dr. Hunt does not pretend, for instance, that his Pills will cure all diseases by merely purifying the blood; but he does pretend, and he has the authority of daily proofs for positively asserting that these medicines, taken as recommended, will cure a great majority of the diseases of the stomach, the lungs, and the liver, by which the unfortunate sufferer is afflicted. The blood is made impure by the action of the lungs, and as it performs its duty in circulating through the veins and arteries, has its yellow or bilious excrement, which is the cause of the disease, and bearing it in its course, the blood is manufactured and prepared; and it is therefore obvious that the state of these should be the first consideration of the physician. Now there are various causes which will affect and derange the operation of the stomach, and bearing it in its course, the blood is made impure by the action of the lungs, and as it performs its duty in circulating through the veins and arteries, has its yellow or bilious excrement, which is the cause of the disease, and bearing it in its course, the blood is manufactured and prepared; and it is therefore obvious that the state of these should be the first consideration of the physician.

DR. GOODE'S CELEBRATED FEMALE PILLS.

These Pills are strongly recommended to the notice of the Ladies as a safe and effectual remedy for the most distressing complaints peculiar to their sex, from want of Exercise, or general Debility of the System, Obstructions, Suppressions, and Irregularity of the Menstruation; at the same time strengthening, cleansing, and giving tone to the Stomach and bowels, and producing a sweet and healthy action throughout the system generally. They treat Appetite, correct Indigestion, remove Giddiness and Nervous Headache, and are eminently useful in those Fluxional Complaints which distress Females so much as the "Worm or Lard." They regulate Costiveness, and counteract all Hysterical and Nervous Affections, likewise afford soothing and permanent relief in Fluor Albus, or Whites, and in most obstinate cases of Chlorosis, or Green Sickness, they invigilate and restore the pallid and delicate female to health and vigor.

These Pills have gained the sanction and approbation of the most eminent Physicians in the United States, and many mothers can likewise testify to their extraordinary efficacy. To married females, whose expectations of the tenderest pledges of conjugal happiness have been defeated, these Pills may be truly esteemed a blissful boon. They soon renovate all functional debility, and if taken, according to the directions, obviates all morbid actions. They dissipate that fulsome and disagreeable sensation common to females at each monthly return, likewise the attendant pains in the back, side or loins; they generally counteract the nausea, vomiting and other nervous affections in Chlorosis, or green sickness, in a few days, and if continued (according to directions) soon effect a perfect cure. Nothing is so highly efficacious in restoring the pallid and sickly female (who has been during her life irregular and sensitive) as the FEMALE PILLS. These Pills invigilate the nervous system, improve the stomach, and restore tranquil repose. Many hundred testimonies testify of their efficacy, and many Physicians (in this city, as also throughout the United States) can bear testimony to their merits and extraordinary virtues. They are an invaluable to enfeebled and relaxed females, who from repeated and difficult labours are afflicted with weakness and infirmities, in which case they are highly useful, strengthening at the time the stomach, the back, the weakened organs, and the whole constitution.

Dr. Goode's Celebrated Female Pills. These Pills are of two kinds, namely: No. 1, or Laxative Pills, and No. 2, or Restorative Pills. They are for all the following diseases: Suppression, Irrregularity or Retention of the Menstruation, Fluor Albus, Chlorosis or Green Sickness, Costiveness, Gravel, Incontinence of Urine, Nervous Affections, Hysteria, Trapped Uteri, or falling of the Womb, and Piles.—These Pills are also particularly adapted to the cure of all the following diseases: Nervous Disease, Liver Complaint, Dyspepsia, Bilious Diseases, and all cases of Hypochondriacism, Low Spirits, Palpitation of the Heart, Nervous Irritability, Nervous Weakness, Indigestion, Loss of Appetite, Heartburn, General Debility, Local Weakness, or Flatulency, Headaches, Nightmares, Rheumatism, Asthma, Tic Douloureux, Cramp, Spasmodic Affections, and those who are vitiated to that most excruciating disorder, Green Sickness, in Chlorosis, Sick, Cholic, Limbs, Head, Stomach or Back, Dimness or Confusion of Sight, alternate flushes of Heat and Chillsiness, Tremors, Watchings, Agitation, Anxiety, bad Dreams and Spasms.

This Medicine is acknowledged to be one of the most valuable ever discovered, as a purifier of the blood and fluids. It is superior to Sarsaparilla, whether as a sudorific or alterative.

Directions for use.—Pills No. 1 must be taken from three to six, or more, at bed time, sufficient to operate until the desired object is effected. Take No. 2 according to the directions as on the box.

In all cases, both kinds of the pills are to be used at the same time, in the following manner.—Take three pills or more of No. 1 every night on going to bed, increasing the number if they do not act over the bowels; also, take three of the pills No. 2, half an hour before each meal, three times daily.

Sold at 100 Chatham-street, N. Y. Agent, JEREMIAH HUGHES, Annapolis, Md. Sept. 10. 19.
