IN HIS HONOR. Will Leave For The Republic of Haiti.

Councilman Watty Gives a Dinner in Honor of Bishop Handy.

Bishop James A. Handy is one of the lingering survivors of a class of Afro-Americans who in their day gained great fame and favor from both the white and black people of the country on account of the extraordinary and wonderful exhibition of traits of character which would have done credit to the most learned and cultivated gentlemen of the land.

Among those present were: Bishop James A. Handy, Reverend Messrs. Hurst, Moorman, Norris, Morgan Beckett, J. W. Beckett, Jenifer, Bragg, Jr., Lyon, Naylor, Key, Holmes, Hays, Jenkins, Carroll, Armstrong, Callis, Brown, Young, Warner, Hon. P. B. S. Pinchback, Hon. H. S. Cummings, Lawyers Dickson and Hawkins, Messrs. Samuel W. Chase, Geo. H. Siddons, J. L. H. Smith and W. W. Lewis.

Pressing Forward. The Hampton Va. Southern Workman says: "There is something fine, and to the workers for them most inspiring, in the steadfastness with

people of the land exorcise toward them, constituted a source of great strength and protection to the people of color in those days.

Bishop Handy in a few weeks, accompanied by Rev. Dr. Hurst of Bethel Church, a native of Haiti will leave this country on an Episcopal visitation of the churches of his connection in the Republic of Haiti.

The affair was in charge of Caterer Butler with about half-dozen assistants, and it was indeed one of the grandest affairs of its kind we have ever attended.

The funeral of Mr. Norris Holly of 1342 Oakton street, took place on Wednesday from Ames M. E. Church, Division street, one week after the death of his daughter Adie.

The Return of Gorman.

A majority of the qualified voters of Maryland determined on last Tuesday that they prefer a return to Democratic rule, and so the Hon. John Walter Smith, Gorman's candidate was elected Governor. The Republican party had a hard and stubborn fight and in the face of defeat they have the satisfaction of having made a gallant charge, which owing chiefly to internal factional conditions within the party prevented a glorious victory. The Republican party, led by Governor Lowndes, after a magnificent administration of the affairs of the State goes into temporary exile only to rise, in the near future, on a more permanent and enduring basis. The years that are to follow will vindicate, more and more, the glorious and unimpeachable record of reform made by our party during the few brief years it was in power. May Mr. Smith attain success.

Feverish Impulse.

It has been an almost universal with workers among our people in all kinds of endeavors, whether along moral lines, public charities, business or industrial enterprises, that there seems to be too often the absence of any staying qualities among those who start to accomplish a special object. Oftentimes it would seem as if many of them failed to adequately grasp the significance of what they readily assent to. Eager and enthusiastic at first an increasing coldness steadily supplants the ardour and vim which characterized them in the early stages of the affair. These conditions are applicable to most any and all of the various enterprises with which the race has to do. Is it any wonder, therefore, that the results attained are so miserably unsatisfactory and discouraging? We certainly do not go too far from the truth when we assert that the great majority of concerns inaugurated by members of the race are undertaken for the most part, rather on the strength of feverish impulse than as the result of calm deliberation, mindful of the magnitude of the undertaking and the inconspicuous and personal sacrifices therein involved. Hence, as soon as the fitful fever has expended itself there is, simultaneously, exhaustion and disaster. A man obligates himself to do this and this, and the strength of that resolve consists entirely in the feeling of the moment. He never for a second, questions his ability to perform what he engages to do; he does not stop to inquire whether his present liabilities will admit of additional engagements; he does not stop to estimate difficulties or barriers which might oppose themselves; but without a earnest thought he commits himself to something upon which, eventually, his honor, would be at stake. We say ordinarily for with a majority of persons, victims of

such feverish impulse, it is highly doubtful, whether they have any real sense of honor, having accustomed themselves to such chronic disregard of promises made. To accomplish good and permanent results in any enterprise or undertaking there must be an intelligent conception of what is involved, and a firm and unshaken principal of honor which would render one in a conscious state of self-discipline, should he deliberately and unceremoniously seek to release himself from a faithful discharge of the responsibilities self-imposed.

The Maryland Home for Friendless Colored Children.

The Maryland Home for Friendless Colored Children is an institution just established to supply a long felt need. In the practical absence of the Simmons Home there were left a number of poor helpless young colored girls with no one to care for them. The Maryland Home purposes to take charge of these, and to lay the foundation for a great Home a credit and ornament to the Negro race. The Board of Managers to conduct the affairs of the institution for the first year consist of:

- Walker W. Lewis, President.
- Cornelius C. Fitzgerald, Secretary.
- Alfred H. Pitta, Treasurer.
- Solomon DeCoursey,
- Rev. G. F. Bragg, Jr.
- Wm. H. Wheeler,
- Jos. L. H. Smith,
- Dr. John W. Prather,
- Dr. Milton D. Brown,
- James T. Bradford,
- William F. Stone,
- Henry F. New.

Property has been secured, and the various members of the Board have liberally subscribed towards the funds of the organization. The work itself should at once commend itself to the enthusiasm and love of all our citizens who believe in Christian philanthropy. The Board will decide in the adoption of its By-Laws what amount as an annual contribution will be asked of those who desire to share in this work and become members of the corporation. For instance, if they should decide upon an annual contribution of two dollars then every person contributing that amount will be entitled to vote and be voted for at the annual meeting, wherein the Board of Managers are elected for each year to govern the affairs of the home. It is earnestly hoped that all our good thinking citizens will take part in such a necessary work, and become identified with this Home. If you are so disposed drop a postal card to the Secretary, Lawyer C. C. Fitzgerald, 110 St. Paul Street. The names of the Board of Managers should constitute a sufficient guarantee that the affairs of the corporation will be properly administered.

A Historical Society.

The object of the club is to study Negro history and to familiarize its members and others of the race with the achievements of Negroes in every department of learning, art, science, the trades and professions. Its meetings are held weekly at the residences of its members. Biographical sketches of eminent Negroes and others papers of race interest are read and discussed. The following subject have already been treated: Rev. John Chavis of North Carolina, Phyllis Wheatley, Paul Laurence Dunbar, Toussaint L'Ouverture, Dr. Alexander Crummell, James Campbell Matthews, John M. Langston, T. Thos Fortune. These papers were both interesting and instructive. The society is growing in popularity and is beginning to develop a number of good writers, particularly among its young lady members.

If a paper is worth borrowing it ought to be worth purchasing. Don't borrow from your neighbors. Twenty-five cents will bring it to your door each week for six months. We mean the Ledger.

The Old And New Negro.

Great stress is being laid on the statement that ninety per cent of the property returned by the colored people is owned by the illiterate ones. This statement is untrue. Take our city and county for instance, the above assertion is just to the reverse. The most valuable pieces of property in the city are owned by those who have had school and college training, and this class does much to keep their property in an improved condition. There are several property owners who have had no school training but this class is small in comparison to the former.

Soon after reconstruction many of our people purchased property, and no doubt if the same number had kept what they purchased, the "ninety per cent" assertion might have been true. What is true of this city and county is no doubt true of the other cities and counties of the state. There are being yearly turned out of the schools and colleges large numbers of young men and women who are acquiring property and otherwise making improvements. This class is industrious and not found idling away their time. Of course there are a few exceptions. The great aim is to slur the educated ones among us, but the fact of their energy is too plain, and no man who is aware of the record would dare say otherwise.—Savannah Tribune.

Good Advice.

The young man starting in life and looking for a wife should take note of the following.

1. Be sure that you love her.
2. Be sure she knows how to prepare a decent meal.
3. Be sure that she knows how to clean a house.
4. Be sure that she knows how to wash and iron.
5. Be sure that she has your interest at heart.
6. Be sure that she will content herself with the salary you are getting.
7. Be sure that she is cured of that flirty disposition if you are jealous.
8. Be sure that she is willing to be obedient (according to the Bible).—Selected.

Demand For Colored Teachers.

The great demand for colored school teachers in all section of the State is conclusive evidence of the general prosperity that prevails everywhere. Heretofore white men and women who could secure no other employment sought positions as teachers in Negro schools. With the opening up of business new fields have been opened for them and they have given up their colored charges.—The Reformer, Richmond Va.

PERSONALS.

Mrs. Rosie Smith of 1300 Wood-year street is quite sick.

Mrs. Alice Piper nee Rayner was married in this city on last Wednesday to Mr. Alexander Carthon of New York.

RACE GLEANINGS.

What The Negro Is Doing.
Rock Hill, S. C., has Negro street car drivers and conductors.

The Negro population of the city of Cincinnati numbers 35,000.

The A. M. E. Church numbers 4,825 ministers and 600,000 members.

The census for last year gave Washington, D. C., a population of 277,799, of which 88,772 are Negroes.

Julius Stevens, a Negro native and formerly school teacher at Goldsboro, N. C. is now Attorney General of Liberia.—Lexington Standard.

To keep the young girls from becoming gossips and slanders, it would be well to organize a reading club, or a circle for fine needlework, or a singing society to meet weekly.—The Independent.

Europeans are in hot haste to open up all parts of Africa. No less than 45 vessels are engaged in the river traffic on the middle Congo.—The Lexington Standard.

The Negro must learn that the world is against him only whenever he is ignorant, extravagant, and idle and when he is in this censured it is but the faithful wounds of his friends.—The Gazette.

The question is often asked, why is it that Negro journals so often appeal to race pride and feeling as the chief motive of earnest endeavor. The reason is obvious, as a race we are by many held responsible for acts of individuals of the race: this, too, when we have been appealing for co-operation, not separation and for the breaking down of the barriers that separates us from other races and without avail. We shall hail the millennium, the day when the Negro can feel perfectly secure and justified in looking more beyond his own limit and doing and acting not only for the good of the race, but for the good of humanity.

As individuals those of us who conduct ourselves as become law-abiding citizens, have no cause whatever to complain of the treatment accorded us by the dominant race. But as a race we are denied the rights and privileges which fitly belong to us as men and citizens. It is this injustice of which we complain. No amount of generosity and kindness can palliate injustice or stand as a substitute for justice and equity.

It matters not how high our stations in life, let us not assume that pecunial selfishness that will cause every one to stand aloof from us. One of the greatest compliments that can be paid to a person of high estate is that he is affable and easy of approach.

"Ours," says the Times in a recent issue, "is a land which knows no Jew, no Gentile, no Ism, no sect, but the American flag is broad enough to cover every man, woman and child born upon American soil or naturalized under our laws, never mind what his parentage or whence his forefathers came." Beautiful sentiment, indeed, and worthy of the highest praise. If the press of the country would try to educate all the people up to this high plane of thinking and speaking, prejudice would soon drop out, the vexed race problem would be a thing of the past, and justice and equity would be accorded us as men to men.

That colored men the world over are noted for their patriotism, was no more readily shown than when it was known that war between Great Britain and the Transvaal Republic could not be averted, the Negroes of the British West Indies offered their service to their country.

Several weeks ago the white girls in the Manchester shirt factory struck because colored girls were employed to do the pressing. The white girls won and the colored girls forced out, and doubtless some of them are classed today as "Negro women too lazy to work."

There is no class of people who believe more sincerely than the Negro that the Scriptural injunction, "in the sweat of thy face shalt thou eat bread," applies to him more than any other class of Americans, and he is perfectly contented when he can find sufficient labor at a half way fair compensation. But while the Negro is anxious to work there are those who are using every effort to deprive him of the wherewith to earn his daily bread.

It is the bitter prejudice which causes so many idle persons among our people, and this idleness must increase with our increase of population unless the colored people learn the lesson of banding themselves together, start enterprises and thus make employment for their laboring classes.

Let us aim to be gentlemen and ladies in every sense of the word, for there is no truer benefactor to society than the genuine gentleman or gentlewoman.

There are some who delight in speaking of Negro labor as "cheap labor." Cheap labor as such, is of that class which is most expensive in the end, and is usually performed by those who are not worthy of their hire.

A Good Family Paper.

The publishers of the Ledger aim to furnish a first class family weekly at the lowest possible price, so that, on account of the smallness of the price charged, it may each week find its way into the homes of even the very poorest of the race.

We are especially desirous of increasing the out of town circulation in the various counties of Maryland as well as in other States, and to that end we desire to make the following most liberal offer. To any reliable person outside of Baltimore, who will send us 10 annual subscribers a 50c. each for the year, we will allow such an one 40 per cent. of the money thus collected as commission. That is, they collect five dollars for the ten subscribers; they retain two dollars, and send us only three; for which we will send the paper to each one for the period of one year, post-paid.

Arbitration for Samos.
 Among the anecdotes related by the
 Hon. John Bigelow in the October Cen-
 tury, in a series of extracts from his
 conversations with Von Busen, is
 this about the famous banker Roths-
 child: During the famous Congress of
 Vienna, already referred to, each of
 the several monarchs present was the
 guest of some nobleman. On one fea-
 stive occasion Baron Rothschild was
 invited par exception. He modestly
 went to take his place, not among the
 more exalted guests. When they dis-
 covered Rothschild, however, they all
 rose, one after the other, and saluted
 him, except the King of Prussia. Some-
 one asked the King why he did not
 salute the great European banker.
 "Did I not?" he replied. "Well, I sup-
 pose it was because I was the only one
 who did not owe him anything." This
 reminds one of a line in one of Pope's
 satires:
 "I never answered; I was not in debt."

THE ELECTIONS.
NASH'S MAJORITY CLAIMED TO BE 20,000 IN OHIO.
TAYLOR WINS IN KENTUCKY

Combination of Republicans and Brown Democrats Composes the Defeat of Goebel—Fusion Forces Victorious in Nebraska—McKinley and Bryan Win Their Respective States—Other States.

In Maryland the Democratic State ticket was elected by a majority of about 10,000. The House of Delegates will be Democratic by a large majority. The Senate will be close.

The Democrats carried Baltimore city by a plurality of 8,208 plurality.

Republican victory in Ohio is claimed by a plurality of about 80,000. John R. McLean, Democratic candidate for Governor, does not concede defeat. Samuel M. Jones, non-partisan candidate for Governor, polled about 100,000 votes.

Returns indicate the election of William S. Taylor, Republican, for Governor of Kentucky, over William Goebel, Democrat, by about 7,000 plurality. Chairman Blankburn, of the Democratic State Committee, is claiming victory for Goebel. Little trouble occurred at the polls, except in Louisville, where militia were ordered out to see that minority representatives were allowed to see the count of ballots.

The Nebraska fusionists, whose cause was championed by Hon. William J. Bryan, have won their fight. Returns indicate the election of Silas A. Holcomb, candidate for Judge of the State Supreme Court, and head of the fusion ticket, by 10,000 to 12,000 plurality over M. B. Reese, Republican.

The Tammany ticket won in Greater New York by majorities ranging from 65,000 to 70,000. In the State at large a Republican Assembly was chosen. In that body the Republicans will have a plurality of about 36. Robert Mazot, Republican, chairman of the Mazot investigating committee, was defeated for re-election to the Assembly from a New York city district.

The election in Virginia was for members of the House of Delegates and one-half the members of the State Senate. The vote throughout the State was light, and there was practically no opposition to the Democratic candidates. The Legislature chosen will elect a United States Senator to succeed Hon. Thomas S. Martin, whose term expires March 3, 1901.

The majority for A. H. Longino, Democrat, for Governor of Mississippi, is estimated at 80,000.

Iowa is Republican. The Republicans claim 50,000 majority in that State.

New Jersey elected a Republican Legislature.

The Republican majority in Massachusetts shows a falling off about 18,000. It is about 65,000.

Pennsylvania went Republican by about 100,000.

Republicans confidently claim victory in South Dakota by 10,000 plurality. Democrats admit that the State is Republican.

MISSISSIPPI.
 Jackson, Miss., (Special.)—The election passed off very quietly throughout the State. The Democratic majority is estimated at 90,000. Returns are very meager so far, and indicate a close vote on the Noel amendment for elective judiciary.

The chief interest in the day centered in Yalobusha county, where a senatorial primary was held, in conjunction with the regular election. A bitter personal fight was made on Senator Sullivan, who is a candidate for the short term ending March 4, 1901. Returns from nearly all the precincts indicate that he has received the instruction by a majority of nearly two to one. McLaurin received the long-term instruction by an overwhelming majority.

MASSACHUSETTS.
 Boston, Mass., (Special.)—The result of 331 cities and towns, including Boston, out of the 353 in the state, was: Crane, Rep., 154,721; Paine, Dem., 97,096. The same towns and cities in 1898 gave Wolcott 174,845; Bruce, Dem., 100,770. This shows a Republican loss of twenty-two per cent, and a Democratic loss of four per cent. On this basis, the Republicans have carried the state by 65,000.

SOUTH DAKOTA.
 Sioux Falls, S. D., (Special.)—Sioux Falls Argus leader, basing estimates on reports thus far received from points in South Dakota, claims the election of the Republican nominee for State Supreme Court by 10,000 majority. This is also the estimate of the national Republican committee.

VIRGINIA.
 Richmond, Va., (Special.)—Never before in the history of the city was there a quieter election. The vote was small. About the only reminder that an election was in progress was the fact that the front doors of the barrooms were closed.

A. C. Worsham, the only man who ran against the Democratic nominee for the House of Delegates, was buried under nearly all the ballots cast. The election in Virginia settles it beyond the peradventure of a doubt that Senator Thomas S. Martin will succeed himself. There are comparatively few Republicans and Independents elected. Of the "regular" Mr. Martin has an overwhelming majority.

Arbitration for Samos.
 Washington, (Special.)—Assistant Secretary Hill, for the United States, Mr. Tower, for Great Britain, and Mr. Munn von Schwarzenstein, on the part of Germany, of the State Department, signed a convention providing for the adjustment by arbitration of claims of inhabitants of Samoa for damages resulting from the naval and military operations there last spring.

THE ELECTIONS.
NASH'S MAJORITY CLAIMED TO BE 20,000 IN OHIO.
TAYLOR WINS IN KENTUCKY

Combination of Republicans and Brown Democrats Composes the Defeat of Goebel—Fusion Forces Victorious in Nebraska—McKinley and Bryan Win Their Respective States—Other States.

In Maryland the Democratic State ticket was elected by a majority of about 10,000. The House of Delegates will be Democratic by a large majority. The Senate will be close.

The Democrats carried Baltimore city by a plurality of 8,208 plurality.

Republican victory in Ohio is claimed by a plurality of about 80,000. John R. McLean, Democratic candidate for Governor, does not concede defeat. Samuel M. Jones, non-partisan candidate for Governor, polled about 100,000 votes.

Returns indicate the election of William S. Taylor, Republican, for Governor of Kentucky, over William Goebel, Democrat, by about 7,000 plurality. Chairman Blankburn, of the Democratic State Committee, is claiming victory for Goebel. Little trouble occurred at the polls, except in Louisville, where militia were ordered out to see that minority representatives were allowed to see the count of ballots.

The Nebraska fusionists, whose cause was championed by Hon. William J. Bryan, have won their fight. Returns indicate the election of Silas A. Holcomb, candidate for Judge of the State Supreme Court, and head of the fusion ticket, by 10,000 to 12,000 plurality over M. B. Reese, Republican.

The Tammany ticket won in Greater New York by majorities ranging from 65,000 to 70,000. In the State at large a Republican Assembly was chosen. In that body the Republicans will have a plurality of about 36. Robert Mazot, Republican, chairman of the Mazot investigating committee, was defeated for re-election to the Assembly from a New York city district.

The election in Virginia was for members of the House of Delegates and one-half the members of the State Senate. The vote throughout the State was light, and there was practically no opposition to the Democratic candidates. The Legislature chosen will elect a United States Senator to succeed Hon. Thomas S. Martin, whose term expires March 3, 1901.

The majority for A. H. Longino, Democrat, for Governor of Mississippi, is estimated at 80,000.

Iowa is Republican. The Republicans claim 50,000 majority in that State.

New Jersey elected a Republican Legislature.

The Republican majority in Massachusetts shows a falling off about 18,000. It is about 65,000.

Pennsylvania went Republican by about 100,000.

Republicans confidently claim victory in South Dakota by 10,000 plurality. Democrats admit that the State is Republican.

MISSISSIPPI.
 Jackson, Miss., (Special.)—The election passed off very quietly throughout the State. The Democratic majority is estimated at 90,000. Returns are very meager so far, and indicate a close vote on the Noel amendment for elective judiciary.

The chief interest in the day centered in Yalobusha county, where a senatorial primary was held, in conjunction with the regular election. A bitter personal fight was made on Senator Sullivan, who is a candidate for the short term ending March 4, 1901. Returns from nearly all the precincts indicate that he has received the instruction by a majority of nearly two to one. McLaurin received the long-term instruction by an overwhelming majority.

MASSACHUSETTS.
 Boston, Mass., (Special.)—The result of 331 cities and towns, including Boston, out of the 353 in the state, was: Crane, Rep., 154,721; Paine, Dem., 97,096. The same towns and cities in 1898 gave Wolcott 174,845; Bruce, Dem., 100,770. This shows a Republican loss of twenty-two per cent, and a Democratic loss of four per cent. On this basis, the Republicans have carried the state by 65,000.

SOUTH DAKOTA.
 Sioux Falls, S. D., (Special.)—Sioux Falls Argus leader, basing estimates on reports thus far received from points in South Dakota, claims the election of the Republican nominee for State Supreme Court by 10,000 majority. This is also the estimate of the national Republican committee.

VIRGINIA.
 Richmond, Va., (Special.)—Never before in the history of the city was there a quieter election. The vote was small. About the only reminder that an election was in progress was the fact that the front doors of the barrooms were closed.

A. C. Worsham, the only man who ran against the Democratic nominee for the House of Delegates, was buried under nearly all the ballots cast. The election in Virginia settles it beyond the peradventure of a doubt that Senator Thomas S. Martin will succeed himself. There are comparatively few Republicans and Independents elected. Of the "regular" Mr. Martin has an overwhelming majority.

Escaped from Jail.
 Oakland, Md., (Special.)—Charles Williams, who was in jail awaiting the action of the grand jury on the charge of burglarizing the store of Carney & Pendergast at Huttons, in Garrett county, escaped from prison. Sheriff Lewis was absent and one of his boys opened the jail door to put in some coal, when Williams rushed over the wall and got away.

San Francisco's Mayor.
 San Francisco, (Special.)—Ninety-five precincts complete give the following on mayor: Phelps, Dem., 1,204; Davis, Rep., 1,100. If the present ratio is maintained the city's majority will be about 100.

Chief of Police Killed.
 St. Louis, Mo., (Special.)—John Y. Bennett, chief of police of St. Louis, was shot and killed by E. H. Hollingsworth, traveling representative of a patent washing machine. The shooting occurred in a quarrel over business matters.

Hall's Catarrh cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh cure is taken internally, acting directly on the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that fails to cure. Sent for list of testimonials. Address F. J. CUREY & CO., Toledo, O.

THE EMINENT DIVINE'S SUNDAY DISCOURSE.

Subject: Our Father's House - God's Homestead, Built on the Hills of Heaven, Provides Rooms for All - World Picture of the Celestial Home.

Copyright, Louis Klopsch, 1893. Washington, D. C. - In a unique way the heavenly world is discussed...

There is a better medicine than is a cure all. The disciples were and Christ offered heaven as an alternative, a stimulant and a tonic. He shows them that their sorrows are only a dark background of a bright picture of coming felicity.

This divinely authorized comparison of heaven to a great homestead of large accommodations is not only a beautiful and very commodious habitation. He must have room for all his children. The rooms come by the hundreds and thousands.

An ingenious statistician, taking the statements made in the Revolution, twenty-first chapter, that the heavenly Jerusalem was measured and found to be 12,000 furlongs and that the length and height and breadth of it are equal, says that would make heaven in size six million 384,000 square feet, and then, reserving a certain portion for the court of heaven and the streets and estimating that the world may have a hundred thousand years of life...

Another room in our Father's house will be the family room. It may correspond somewhat with the family room on earth. At morning and evening, you know that is the place where we meet. Though every member of the household have a separate room, in the family room they all gather, and eyes and sorrows and joys and all styles are there rehearsed. Sacred room in all our dwellings, whether it be luxurious with ottomans and divans and books...

But now into that reception room pour the purified kindred, hosts of earthly relations to let you know them, but with out their wounds or their sicknesses or their sorrows. See what heaven has done for these - no grief, no grief, so transparently lovely! They call you by name. They greet you with an ardor proportioned to the anguish of your parting and the length of your separation.

THE TRAMP NUISANCE.

The manner in which it is being dealt with in France.

The number of tramps in France is not proportionately so large as in this country, but it is large enough to attract the attention of legislators. The frequency of crimes recently committed by tramps showed the necessity of preparing a law concerning beggars and tramps of more practical benefit than the municipal ordinances posted at the limits of every commune or township.

It imposes severe penalties on professional beggars, or tramps who refuse to work without proper reason. Unlike the existing laws, the new bill deals mildly with the tramps and unfortunate who are able and willing to work, but cannot find any employment.

These are to be taken before a justice of the peace, who is to send them to the "house of labor," which every department in France is to be compelled to open, where they will be occupied at some work until employment is found for them in private workshops.

The trials of beggars and tramps have amounted, on an average, to 35,000 a year. Inquiry regarding the condition of the temporary refugees, such, for instance, as our workhouses, showed that in 1895 they had been visited by 466,000 individuals, who had spent one night there. In 1895 a general order was sent to all the gendarmes, or police corps, through France, requiring agents to make inquiries regarding all individuals unknown in their own district who were found on the public roads.

The police were instructed to ask these individuals to produce documents or to furnish explanations concerning their identity and profession so that a kind of statistics and numbering could be obtained. Of course many individuals could not have been reported by the gendarmes; nevertheless, it was shown that on a single day in 1895 the names of 25,000 tramps were recorded on the lists of the rural police.
