

\$40 Reward.

Ranaway from the Subscriber, on Wednesday, the 23^d of February last, a negro woman named NANCY. She is large built, about five and a half feet high, and has several lumps on the back of her neck which have the appearance of burns. She had on a linsey woolsey frock with black and white stripes, and several handkerchiefs. She took with her a male child, about 14 months old, of lighter color than his mother. It is supposed that she has made her way towards Queen Ann's County, as she formerly lived with Mr. William Harrison, of that county.

Whoever apprehends said woman and child, and brings them to me, or secures them so that I get them again, shall receive the above reward.

THOMAS WHITE.
