

It will be perceived that the Journals are deficient from 1715 to 1728—that there are no proceedings for 1772, 1775, 1778, and a break of 23 years from 1780 to 1804, and likewise of the years 1824 and 1825, making altogether an apparent loss of 40 years.

From the Committee Room of the Senate the following manuscripts have been received, to wit:—
