Fact, Fun and Fancy.

TWIN PICTURES.—Here is a brief but pointed "essay on man:"

At ten a child, at twenty wild;
At thirty tame, if ever;
At forty wise, at fifty rich;
At sixty good, or never.

Here is a brief "essay on woman:"

At ten a bud, at twenty in bloom;
At thirty married, if ever;
At forty mother, at fifty aunt;
At sixty—the probability is that the old lady is something the worse for wear.

A FIGHTING COUNTRY.—A citizen of Memphis, Tenn., has just returned from a trip to Arkansas, and tells the following, which will convey an idea of how they do up things in that State:

Having occasion to stop at a small town on the river, he was compelled to remain over Sunday. After the usual cogitations incident to a Sabbath morning, he strolled through the only street in the place, and halted at the "grocery," around which a crowd of a dozen people were congregated. He remained there three hours, and in that time one man was shot and fatally wounded, and two others seriously stabbed, in three separate fights.

From a fighting country himself, our friend's equanimity was not seriously disturbed, but he was rather surprised that, after the affrays were over, the perpetrators of the shooting and stabbing should resume their previous occupation with seeming unconcern. Turning to an acquaintance, he inquired: "Don't you arrest anybody here?" "Oh, no!" was the answer, "*we ain't incorporated yet!*"

SEVERE UPON HER OWN SEX.—Lola Montez ironically remarks to young gentlemen: "You ought to know that there are four things which always more or less interest a lady—a parrot, a peacock, a monkey, and a man, and the nearer you can come in uniting these about equally in your character, the more you will be loved. This is a cheap and excellent recipe for making a dandy, a creature which is always an object of admiration to the ladies."

—An Irishman had been sick a long time and while in that state would occasionally cease breathing, and life be apparently extinct for some time, when he would come to. On one of these occasions when he had just awakened from his sleep, his friend Patrick asked him: "And how'll we know, Jimmy, when yer dead? yer after waking up every time." "Bring me a glass o'whiskey, and say to me, here's till ye, Jemmy, an' if I don't rise an' drink, then bury me."

—People say that they *shell* peas when they *un*-shell them; that they *husk* corn when they *un*-husk it; that they *dust* the furniture when they *un*-dust it, or take the dust from it; that they *skin* a calf when they *un*-skin it; and that they *scale* fishes when they *un*-scale them. I have heard many men say they were going to *weed* their gardens, when I thought their gardens were weedy enough.

Guess Nor?—Sitting by our open window, last Sabbath, enjoying the sunshine and drinking in the balmy air, we espied a little fellow three feet high sporting a gay cane and puffing away at a big cigar, leisurely sauntering down the pavement in a solitary walk. As he came opposite our window, unconscious of being observed, he soliloquized: "No, I guess we aint walking out for our health to-day! oh, no! of course not!"—*Columbus Journal.*

—A western preacher, after stating that tea, coffee, sugar, spices, pickles, preserves, milk meal, snuff and tobacco, were adulterated, stretched himself up to his full height, and with great emphasis exclaimed: "Who then will dare to deny the fact that this is a wicked and adulterous generation?"

—How few are content! The poor envy the rich; the rich envy the poor; fat people envy the lean; lean people envy the fat. The brunette wishes she was a blonde; the blonde desires the the raven tresses of the brunette. And so goes the world.

—A fellow was told at a tailor's shop that three yards of cloth, by being wet, would shrink one quarter of a yard.—"Well then," he inquired, "if you should wet a quarter of a yard, would there be any left?"

—A man out West has been severely fined for hugging a girl in church.—*Bath Times.*

If women are angels—as they are called—where a more appropriate place to display adoration for them than in church?

— Those men who destroy a healthful constitution of body by intemperance, and an irregular life, do as manifestly kill themselves, as those who hang, or drown themselves.

— Some men spend the whole prime of their lives in letting down empty buckets into empty wells, and fritter away their age in trying to draw them up again.

— Avarice is a prevailing passion of age, and as mankind becomes more fond of money, the less chance they have of enjoying it.

— Slanders issuing from red and beautiful lips, are like a foul spider, crawling from the blushing heart of a rose.

— Three things that never agree—two cats over one mouse, two wives in one house, and two lovers after one girl.

— Don't mind the caprices of fashionable women: they are as gross as poodles fed on milk and muffins.

— If you think that it is an easy thing to square the circle, just go and settle your wife's bill for hoops.

— Never answer a calumniator. If you will only give a rattlesnake time enough, he will sting himself, and die of his own venom.

— A man when he is "hard up," is mostly *down* in the world.

— In these degenerate days, character is weighed with a "cash balance."

SOLUBLE AMMONIATED PHOSPHATIC GUANO.

MADE OF GUANOS OF OUR OWN DIRECT IMPORTATION, and under the [illegible] and direction of Dr. R [illegible], Chemist, of this city.

This Fertilizer we confidently recommend, as the most complete and cheapest article offered to the public. Being composed of No. 1 Peruvian and Sombrero Guanos of our own direct importation, *WE WARRANT IT IN EVERY RESPECT.* The Sombrero Guano, before [illegible] is rendered *soluble* by the addition of sulphuric acid. This Manure is especially recommended for [illegible] and subtropical climates. Without it the [illegible] of the two guanos is not so [illegible], and consequently comparatively inefficient.

The [illegible] of the Ammoniated [illegible] GUANOS we know of no [illegible] chemical combination, in a [illegible] manner.

To Farmers and Planters

PER-MANIPULATED GUANO,

A COMBINATION OF

Best Peruvian and the best Phosphatic Guano, made with the best Machinery and most expert Workmen.

☞ *On most soils it is found to be superior to SUPERPHOSPHATE of Lime, or any other Guano.*

By Dr. James Higgins,

ANALYTICAL CHEMIST FOR TWENTY YEARS

State Agricultural Chemist

OF MARYLAND.

THIS combination of Peruvian and the Phosphatic Guanos was first recommended by me [illegible] years ago, and very successfully used by many farmers and planters in the South. Its [illegible] in Baltimore city has [illegible] due to its merits. If this statement be doubted, I have abundant proof of its correctness.

A long experience as a practical planter and farmer, with a critical analytical examination for more than ten years of every kind of manure in our market, (advantages possessed by none others in the trade,) will enable me always to furnish the use who may favor me with their orders with the *best, purest,* and therefore the *cheapest* Manures.

Farmers, planters and others will be furnished with all the Guanos sold in our market. Also, with PLASTER OF PARIS, and PURE or MAGNESIAN LIME, according to the wants of the soil—and too much care cannot be taken in adopting the proper lime to soils; for the want of this thousands of dollars have been annually lost to our State. Also, the following Artificial Manures:

HIGGINS' SUPER-PHOSPHATE OF LIME, prepared under his own direction; and

HIGGINS' NITRATED SALINE FERTILIZER, an admirable top-dressing for wheat, oats or grass, which has been very successfully used, and prevents, to a great extent, the wheat from being straw-fallen; where the wheat is pale, sickly or yellow, it at once changes it into a bright, healthy green, and rapidly increases its growth, and greatly promotes the yield.

All manures sold in our markets are liable to differ naturally, though coming from the same place and bearing the same mark. Still more are they liable to *adulteration, &c.* and for these things *our Inspection System has never afforded an adequate protection.*

All Manures sold by me will have my name stamped on each bag or barrel, be carefully analyzed, and for their purity, the buyer is pledged a *legal guarantee* and my *personal honor.*

The Manures sold by me will be at the same rate as those sold by others in the trade.

Persons wishing to obtain any of the Manures manufactured by me, or any others of my selection, should so specify in their orders to their agents in Baltimore.

TERMS CASH, or accepted Baltimore city paper.

☞ I will also attend to the **Buying of Real Estate,** and EVERYTHING connected with the Farming and Planting interest.

For sale now, several *very fine FARMS* on the Baltimore and Washington road, one of them with elegant improvements and every convenience, in the most beautiful and elegant location on it, and several large tracts in Virginia, with negroes, stock, &c. attached.

AGRICULTURAL
Implements and Machinery,
SEEDS, &c.
For the Spring of 1860.

THE subscriber, having just returned from his annual tour throughout the New England States, where he is engaged extensively in the manufacture of agricultural Implements and Machinery, would call the attention of Farmers and Dealers in agricultural implements to his facilities for furnishing them with all articles in that line.

At the North (whence I have just returned) I have made arrangements that will enable me to furnish all goods in my line

AT PRICES BEYOND COMPETITION!
CHEAPER than any House South of New York.

Through the representations and experience of many intelligent farmers, I am introducing in this part of the country several new and important features in Farming Implements and Machinery, as also, new and important improvements on machinery now in use.

I enumerate, in part, Implements and Machinery for this season, as follows:

Plows, &c.

A LARGE STOCK OF PLOWS, particularly Minor & Horton's 2-horse Plow, with wrought Shears; improved by Hartshorn.

WHEAT FANS, with balance wheels, a new feature, made expressly to my order.

Corn Shellers, Corn and Cob Crushers

Hay, Straw and Corn-stalk Cutters

Horse and Ox Carts, Hay Presses, Churns

Horse Hoes, edge & drill cultivators, any ever offered in this market.

In fact, every other Machine and Implement used for agricultural purposes.

New Flour & Grist Mill,

that will grind one barrel of flour per hour or ten bushels of corn meal—can be run with any two or four horse power.

☞ All Machinery warranted and carefully put up. All I have to say in regard to my workmanship.

Being thoroughly conversant with all the various branches of agricultural machinery, I can guarantee to the purchaser that the machinery I offer for sale is the best of the kind now in use, and frequently obtain orders on the strength of my having made a machine that has proved satisfactory to the purchaser, when all others have failed. I am prepared to put up machinery in a workmanlike manner, and to receive orders for the erection of mills, and will undertake to put up machinery in any part of the country. Persons purchasing machinery from me will be furnished with a competent man to put it up, at my own expense, if the machinery does not prove satisfactory in every respect. All machinery sold by me will be sold cheap for cash, or approved paper, and warranted to be as represented in every case. If it fails in any respect, it will be taken back and the money refunded. All orders promptly attended to. Letters of inquiry will receive prompt attention. Address me at Washington, D. C.

Bone Dust!

Having [illegible] Bone Mill on Rock Creek, near Post [illegible] Bone Meal, I am prepared to offer BONE DUST of [illegible] than ever offered in the District of Columbia.

Guanos! Guanos!!

Peruvian, Co'Squimbo, Baltimore & Electric Mixed Guanos, and Land Plaster. People can depend on [illegible] on hand, and will be sold on the [illegible]

Seeds! Seeds!! Seeds!!!

Orchard Grass, Timothy Seeds, and all other [illegible]

ALSO, The [illegible] of English, French and American GARDEN SEEDS ever offered in the District.

Being thankful to the farming community for [illegible] I hope to merit a continuance of the same.

BAUGH & SONS,
Wholesale Office and Store
No. 20 South Wharves, between Market and Chestnut Streets, Phila.

Cash Price,
$45 per 2000 Pounds—2 1-2 cts. per lb.

IN the preparation of our Super-Phosphate of Lime, BONES ARE USED IN THEIR RAW STATE ONLY. They have never been steamed or calcined. They are thus in a natural state for the Farmer, containing all the Animal Matter, which adds the value of the Bone to the soil, and which is destroyed, more or less, in a concentrated form, by steaming or calcining. Bones prepared in this way, in a concentrated form, are liable to burn and injure the vegetation of the soil, instead of improving it.

Our Super-Phosphate of Lime is prepared from our stock of Bones, which is always kept dry and sweet, and ground very fine, so that it can be more readily dissolved by the acid, and more evenly distributed through the soil, thereby producing a more healthy growth of the plant, and a more perfect development of the seed.

Our Super-Phosphate of Lime is prepared with the greatest care, and we warrant it to be free from adulteration, and to contain the full amount of Phosphoric Acid and Ammonia stated on the package.

Phosphoric Acid and Ammonia.

The [illegible] contained in the "BAUGH'S RAW BONE SUPER PHOSPHATE" are given to the soil in an [illegible] and *available state*, furnishing all the needful ammonia for the growing crop, giving it ample [illegible] and leave the land permanently benefitted, so that its [illegible] can be traced for years afterwards.
