—It is not what people eat, but what they digest, that makes them strong—

A little girl showing her little cousin (a boy about four years of age) a star, said: "That star you see up there is bigger than this world."

—We have heard of an economical man who always takes his meals in front of a mirror—

—An editor in Maine has never been known to drink any water. He says he never heard water was used as a general remedy but once—in the time of Noah—
