The command then proceeded to the residence of Charles D. Illinks, Eagl, No. 257 West Lombard street. The bell was ring and quickerly followed by a heavy ray on the door. For exemple, the second days past a young child of Mr. Hinks family has been quite sick, and at the time the bell was rung. Mrs. Hinks was up administering to its wants. She work to the window and observed the files of followers, and instanctly surmised the object of the visit. She asked what was wanted, when an observe replied that they had come to arrest Mr. Hinks. Mrs. Hinks requested their to hand as lattle noise as possible, as there was nickless in the familie. We would only that; Mr. Hinks was his prisoner, and he wanted him. Mrs. Hinks then awoke her bushand. He went to the window and told the officer that he would be flown in a few minutes! For more than a year past Mr. Hinks has been in very delicate health, and he occupied some few minutes in dressing. The minutes. For more than a year post Mr. Hinks has been in very delicate health, and he occupied some few minutes in dresang. The officer at the door he same impatient and demanded that the door should be opened, or he would horst if in. He blew a whistle, and ten mea answered it, and came to the porch. By this time Mr. Hinks has gotten down stairs and opened the door. He complained that the officer had been so impatient, and asked where he was, to be taken. The reply was, "you'll see." Mr. Hinks said that he desired that his family should know, when the officer replied, "Furt Melferty." On entering the earriage hg found Mr. Davis there. FOWLEACO.'S Sollible Phosphated Peruvian CUANO, The Best, Chargest and most Permanent

FERTILIZER

Ever Offered to the Agriculturist. Approved by Prof. Campbell Morat, / Other of the most eminent Chemists of America, as the most reliable and efficient continuation of Phosphatic and Innocunited Garnes, vetoffered in a really solethe form. It is compared of No. 1 PERC VILVAND SOMBRESON OF ANOS OF ARCHITICATION of threeling to the on the thing has and Sombrero, Islands, and is war-

Re GUINOS of directing ortation from the third has and Sombire to Blands, and is warranted, see from all impurities.

The rectifier has been severely tested, in comparison with Peruvian Gamo, by many of the most successful and intelligent farmers of Virginia and Naryland, from whom we have received manageus letters and certificates of approval. We admit the following catract from Prof. Momert's sepert upon the Soluble Plosphated Penvian Gupno, viz:

"The Apare analytical results express a high value for the Fetilieer, and indicate that the frommale for its pulporation are founded upon sevuel." Though a plan with a results express a kind ally adjusted as to promote their mutual action, and trades it a most profable to manure, a right of ar copy agently, without distinction as to kind.

Copies of the absorption of the remaining the first with Prof. Moritis Analysis, and other interesting matter, will be found in our pampholis and circulars, showing that our Farringth is far letter adapted to general use than Perevisin Change Change being.

lizzh is far better adapted to general use than Pernyian Ghano alone, besides being SIXTEEN PER CENT. CHEAPER. SIATEAN PER CENT. CHEAPER.*

The Sombrero Gardin, before its combination with the Peruvian, is readered immediately soluble by a process recently discovered and peculiarly out own. The value of Peruvian Guino, presented in this modified and improved form, can hardly be over-estimated.

We continue to keep by hand our usual supplies of PERUVIAN AND SOMBRERO GUINO, of our own direct, importation, which we offer at lowest market rates.
