ATTENTION,

ALL YE LOVERS OF GOOD COFFEE!

Save your Money, and always have Good Coffee! This can be done by using one of HEERMAN'S

Celebrated Coffee Roasters!

THIS is a little invention that every woman requires, as an article of economy and convenience. The coffer roasted in this soachine is not only better and far headthier, but much stronger, as the aroma is retained and not destroyed in the roasting. It therefore requires less coffee.

ont destroyed in the rosating. It therefore requires less coffee.

One pound of ouffee can be roasted in from tan to swelve minutes, and two pounds in twenty minutes. It is so constructed, that the coffee is kept constantly in motion, and expanded to the same degree of heat; consequently, all the grains are rosated alike, and have exactly the same flavor—no foreign flavor being nequired from over-no foreign flavor being nequired from over-no toriety, or not rosating enough. A glass window is prepared at the end of the cylinder, so that the coffee may be inspected just as much as if it was in an open vessel, obviating the danger of roasting too much, and the aroma danger of roasting too much, and the aroma danger of which would increasarily occur did the machine have to be coffee. It will beyond all doubt, make better coffee and more of it.

ter coffee and more of it.

W. A. CUMMING has purchased the ex-W. A. CUMMING has purches of the ex-desire right to manufacture and sell the above machine for this 'Montgoder's county, and would be plefied to show them, and explain the moster mergal to them, to his riched and the public.
