THE SENTINEL.

ROCKVILLE, MD.

FRIDAY, :::::: JULY 25, 1862 Gov. Bradford's Circular Letter. Gov. Bradford has immed a circular letter, in

regard to the late call of the President for ad ditional volunteers, Four regiments of infantry, as a part of Maryland's quota, are wanted with as little delay as possible. In furtherance of which the Governor appointed a committe of fifty, in Baltimore city, whose duty it i made, to confer together as to the best mean of effecting the object in view. This commit tee held a meeting on Monday evening, at th Mayor's office; after conferring together, an considerable discussion, a sub-committee of five was appointed to wait upon the Governor and request him to call an extra session of th Legislature, "to take the necessary steps t meet the exigencies of the crisis." A resolu tion was also adopted, requesting the Mayo to call the City Council together, to take int consideration an ordinance which had previ ously passed the First Branch, but defeated is the Second Branch of the City Councils, appro

consideration an ordinance which are preconsideration and ordinance which are prepriating three hundred thousand dollars to fe
dicements under the late call of the Presiden

If. Henry P. Brooks then offered a resolv
tion, that it was the sense of this meeting the
fit was necessary to press upon the Legislatur
the necessary to press upon the Legislatur
the necessary to press upon the call of it
President.

If. Brooks thought that asystem of draftin
was the only fair way to conduct a war by
free jeople. The only way to make prop
obey the Government was to free themset it
point of the bayonet to uphold the laws.

Mr. C. L. L. Earry said that he had head
that the diovernor was afraid to convene the
legislature as he doubted the loyality of the
lody. He had been opposed to an extraseion of the Legislature, but if it was true th
the men elected to the Legislature in this cylhad proved disloyal, the people of the Stashould know it, and he ther-fore was in favof an extra-seison to know whether the
were loyal or not. He was willing to relythem until they were tried and found wanner
after they had assembled and the extrempressed upon them, then, if they did not pethe appropriation, he was in favo of a feath
of the hard that there were thirty thousar
disloyal men in the State ready and willing
puil down the Government at the first oppationity, and he was not willing to place are
in the hands of such men and peril the sale
of the State. Such a course, however,
would only approve as a derain resort.

Mr. Archibaid Sterling, Sr., was opposed
the drafting process. He had seen somethic
of it in 1814. He thought that if the weight
see sitonists were drawn, they would prequilt down the forsit months, and then not gentession trends; and the first thing we woul
hear of, would be a whole regiment of Iris
man Sung over to be enemy body and soul
Mr. Benjamin Peford said he had no faith
anything but drafting. We might beat it

Mr.

would be undoing an that they are decing.

Mr. William J. Albert then moved that resolution of Mr. Brooks be deferred to Commutee of Five, to be used in their distion at their interview with the Governor.

The Chair then appointed the follow committee to wait upon the frovernor; Mrs. J. V. L. Fluidley, Wm. Price, John W. R. dolph, John B. Seidenstricker and Wm.

Albert.
The meeting then adjourned, subject to call of the President. Since the above was in type, we see that

pursuance of the resolution above mentione i questing the Mayor to convene the Council—the Council held a meeting, on To day evening last, when the ordinance, at alluded to, was again rejected by the Sec Beanch, almost quanimously.

ARRIVAL OF THE STEAMER ASIA .-- By the rival of the steater Asia, we have Europadvices to the 3th instant. The Eng journale speak of the result of the battles fore Kichmond as a severe reverse to the Fe ral arms, and regard the position of McCie as precarious. Some significance will pr bly be attached to the announcement mad Lord Palmerston in Parliament, that the tish troope in tlanada would not be w drawn. The London Herald treats the a before Richmond as a decisive defeat of Ciellan. The Morning Pest regards the s of Richmond as having terminated.
